

GOVERNMENT IS NOW IN FIGHT FOR EXISTENCE

Seek Vote of Confidence
In Motion Introduced
to House
LIKELY TO RESIGN
Unless Approval Given It
Is Believed Members
Will Quit

London, April 11.—Disorders of such violence as to compel an hour's suspension broke out in the House of Commons this afternoon during debate on the governments defeat on a technical motion last night. Laborite members stormed and shouted at their opponents. The noise was so great that speakers could not be heard. Finally J. H. Whitley ordered an hour's recess, so that order could be restored.

London, April 11.—The Tory government of Premier A. Bonar Law today began a fight for its life. After a consultation of cabinet members the premier announced that the same motion upon which the government was defeated in commons last night by seven votes would be submitted again tomorrow in the form of a motion of confidence in the government. If the motion fails it is expected the cabinet will resign. This will be the first actual vote on confidence or no confidence in the cabinet since parliament convened after the Easter recess. In view of the activity of government whips it is almost certain that the government will be sustained.

Cabinet members are attempting to ignore the defeat of last night, but all sections of the press admit that the position of the Tory government has been weakened. The vote last night was in connection with civil service appropriations.

SCANTILY CLAD PAIR OF "KLANNERS" TOSSED OUT OF AUTO ON CITY STREETS

Cincinnati, April 11.—Soon after a blazing cross was reported in the yards of the Knights of Columbus hall Price Hill, two "klaners" were tossed from a motor car near the center of Cincinnati last night, clad only in undergarments.

On the back of each was stenciled: "He is a Ku Klux Klanner."

The scantily clad pair, deposited in the view of scores of men and women in front of one of the leading hotels of the city, whence after theater dinners were emerging, hastily tore off their blindfolds, scooted into a taxicab and were driven away.

Later two men, giving their names as William L. Miller, 4144 Kirby road, insurance salesman and Erwin J. Burkhardt, 1627 Baymiller street, Standard Oil salesman, appeared at police headquarters and told Detective Lieutenant Eugene Weatherly that they had been kidnapped by five armed men, taken to a remote suburb, undressed, decorated with stencilled legends and unloaded near Fourth and Vine Streets. Clues are lacking but Miller and Burkhardt deny they are klansters.

FAIL TO LOCATE MISSING AUTOISTS

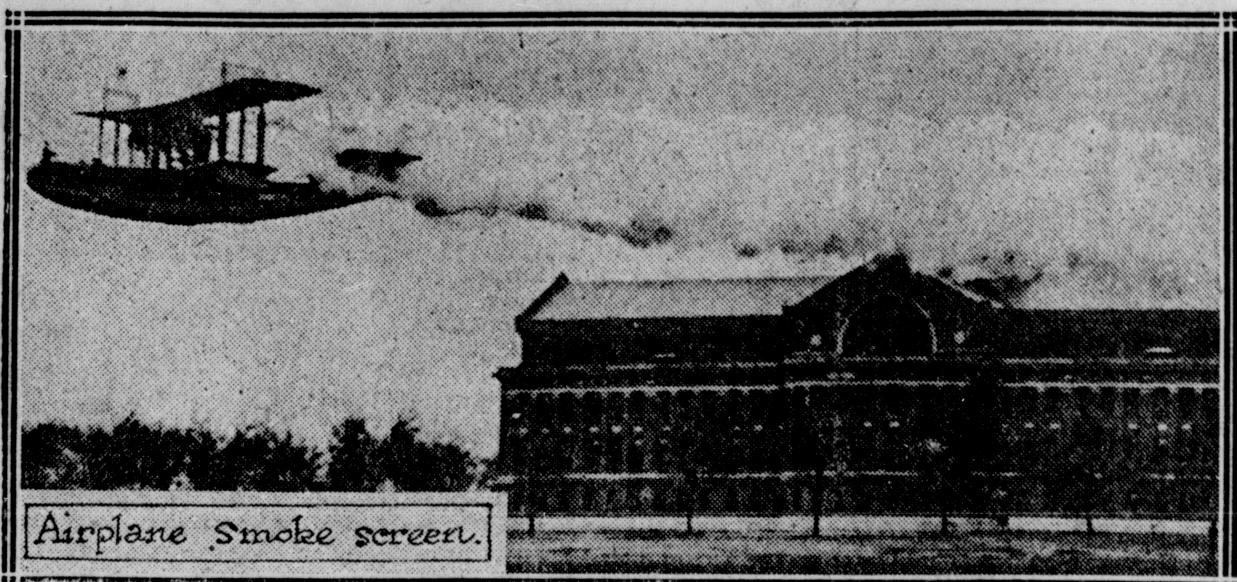

Miami, Fla., April 11.—The 19 men and five women who plunged into the Everglades early a week ago, expecting to motor through the morasses to Miami, have failed to reach civilization. Nor was any trace of the party found by hundreds of searchers, led by Indian guides. The party of 24 left Fort Meyers last Wednesday expecting to blaze a new auto road across the wilderness to Miami. They expected to reach Miami Thursday. But a storm swept over the Everglades Thursday night, obliterating the trail, an embankment thrown up by swamp dredgers. The anxiety that was allayed Sunday night by a report that the motorists had reached Seminole City, an Indian camp in the heart of the Everglades, was revived after searchers reported finding no trace of the lost automobiles. No direct word has ever been received from the party since it left Fort Meyers. Scouts sent out by the Miami Motor club reported that the best that can be hoped for is that the party found some high spot of ground and camped until the water subsided.

FOUR DANGEROUS MANIACS ESCAPE

Poughkeepsie, N. Y., April 11.—Four dangerous maniacs who escaped from the Mattewan State Hospital for criminal insane early today are believed to be at large in Connecticut, according to word received here by Dr. R. C. Kiebas, superintendent of the hospital.

The four men, among whom is one convicted of murder, escaped by kidnapping three guards at the point of a pistol and fleeing in a stolen automobile. The automobile later was found abandoned at Amosla, 40 miles from Mattewan, near the Connecticut line.

AIRPLANES WILL VEIL TROOPS WITH SMOKE

Airplane Smoke screen.

Maneuvers of troops close to the front lines, in future wars, will be conducted behind dense smoke screens laid 100 feet or

more above the earth by airplanes. Experiments with smoke screens laid by planes have been conducted under the auspices of

the Navy Department, as well as under Army supervision, with successful results. The above photograph shows an airplane laying down a smoke screen.

SHERIFF HAS PROBLEM TO MATHEMATICS; MUST SELL HALF OF AUTO

Tiffin, O., April 11.—Sheriff Joseph Parks has a problem in mathematics. He is under court order to sell the undivided one half of a roadster, title to which rests jointly in Mr. and Mrs. Samuel P. Croft, of Fostoria. The car was levied upon by a man with a judgment against Croft, but the wife's share cannot be sold, legal authorities say.

DEATH BLOW NEAR TO REBEL CAUSE SAYS FREE STATE

Irregular Leader Dead—
State Now Seeking
Eamonn DeValera

London, April 11.—Persistent press reports that Eamonn De Valera, outstanding figure in the Irish Republican movement and his aide, Dan Breen, have been captured by Free State troops near Clonmel were characterized as "unconfirmed rumors" by Free State army headquarters in Dublin this afternoon, said a dispatch from that city.

Dublin, April 11.—With Liam Lynch chief of staff of the Republican irregular army, dead from his wounds, Free State troops in the Clonmel Hills today were reported hot on the trail of Eamonn De Valera; Countess Markiewicz and Dan Breen, the only three leaders of importance at large. These leaders are believed to have been surrounded.

The capture of DeValera and his companions, coupled with the death of Lynch, would be a death blow to the Republican cause. Free State officials believe.

Lynch was known as the "brains of the irregular cause." His death will leave them without an active military leader in the field.

The rebels in the south are willing to quit, according to word from Cork. Captured documents show that the irregular movement is now at its lowest ebb. The breakdown in morale was hastened by the roundup of Republican sympathizers in England and a Scottish and their deportation to Ireland, where they were interned.

DeValera's hardest test is now at hand.

Monsignor Luzzio, who was sent to Ireland to attempt to arrange peace through the Catholic hierarchy, conferred today with President William T. Cosgrave of the Dail Eireann.

Dublin, April 11.—Six Republican irregular soldiers, captured in a fight near Headford, were executed by Free State troops today at the Tuam Barracks. It is understood they died before a firing squad.

ANOTHER OFFICIAL ARRESTED.

Berlin, April 11.—State Secretary Hamm, who was arrested by the French while on his way to Essen to represent Chancellor Cuno at the funeral of the Krupp workers returned to Berlin today under warning from the French not to try to enter the Ruhr again.

SHERIFF EXONERATED.

Columbus, April 11.—Sheriff Holycross, in a decision by the members of the Franklin county bench, was exonerated of charges of alleged misconduct in office filed by the Franklin county board of visitors.

WOULD BAR LUDWIG MARTENS EX-AMBASSADOR FROM U. S.

Reports Reach This Country That Deported Aliens are Trying to Get Into America for Speech-making Tour.

Washington, April 11.—Following the revocation by Secretary of State Hughes of his permission for Madame Kalinin, wife of the president of Russia, to enter this country for a speechmaking tour in the interests of the Russian Red Cross, renewed demands were made on the State Department today for an order barring Ludwig C. A. K. Martens, former soviet ambassador and his under study, Gregory Weinstein from the United States.

Reports have reached Secretary of Labor Davis that these Russian emissaries, after being once deported from this country, are now trying to get in again; and orders have been issued to all immigration officials to arrest them on sight so they may be held for passage on the first outbound steamer.

Unopposed by these precautions, however, patriotic organizations which urged the cancellation of Mme. Kalinin's passport have asked Secretary Hughes to co-operate with the Labor Department by issuing a formal order refusing permission to Martens and Weinstein to enter the United States. It is pointed out that the issuance of such an order will make it possible for the government to proceed against the unwelcome Russian visitors in the courts and to proceed against the unwelcome Russian visitors in the courts and to send them to federal prison if they should succeed in getting past the immigration officials. This was a treatment accorded about a year ago to Joseph Kowalski, who secretly re-entered the country after being deported.

Cancellation of the Kalinin passport—ordered as a protest against the execution of Vicar General Butchkevitch at Moscow—was regarded today as another indication of the steadfast opposition of President Harding and Secretary Hughes to the recognition of the Moscow soviet, which the latter holds would give encouragement to efforts of the soviet authorities to visit upon other peoples the disasters that have overwhelmed the Russian people.

SOVIET MISSION SENTENCED TO DIE

Stockholm, April 11.—Ten members of the soviet Russian Reparations Mission to Poland have been sentenced to death, according to a Moscow dispatch to the newspaper Tidningen today. The details were not given. Russian secret police are reported to be making "mass arrests" in connection with the trial of Patriarch Tikhon, of the Orthodox Church, which will begin next Tuesday.

The commissary for agriculture at Moscow admits that Russia is threatened with famine this year fully as serious as that in 1921. Russian newspapers are avoiding the subject in order not to provoke the population.

SCHOOL PLAY IS BEING ANNOUNCED

"Come Out of the Kitchen," a delightful three-act comedy, will be presented as the annual senior class play by students of the class of 1923 of Central High School at City Hall Theater, Thursday and Friday April 19 and 20.

Eleven students take part in the comedy with Miss Helen Hixley and Robert Ballentyne in the leading roles. The cast is being directed by Miss Jean B. Elwell, former head of the English Department, who directed the junior class play given recently. Members of the cast are Misses Helen Hurley, Matilda Bailey, Pauline Ashworth, Grace James and Josephine Wolf and Robert Ballentyne, John Wood, Frederick Schell, William Miller, Loren Whittington and Lawrence Tiffany.

MATCHHEAD SET FIRE TO DRESS

Newark, O., April 11.—Orpha McLaughlin, 25, died here from burns received when her little brother ignited a matchhead, which flew across the room, setting fire to her dress and burning her entire body.

MEXICANS ENTER EMPLOYMENT IN STEEL MILLS OF U. S.

Bethlehem, Pa., April 11.—This quiet Moravian city is wondering what the recent invasion of three trainloads of Mexicans and Indians means to its industrial future centered around the huge steel plant of the Bethlehem Steel corporation. They came here in batches during the past few weeks, and after a few days of sightseeing in their own picturesque compromise of Mexican and American clothing went into the steel mills to learn the steel game.

Workers in the mills have been told that these foreigners are being brought into Bethlehem to take the place of American workers, who refused to accept a wage scale of 30 cents an hour fixed by the Bethlehem Steel corporation. However, this is not supported by other reports, which are to the effect that the Mexicans are being paid \$5 a day while being taught the rudiments of the steel business, even though the American workmen, who are their teachers, get only 30 cents an hour. Also the Mexicans, who are able to speak English, said they came here on promises of high wages. Other reports are that the Mexicans are merely being schooled to take foremen's and other important jobs in plants to be opened later by the steel corporation in Mexico and other Spanish speaking countries.

ONE IS KILLED AS SLAG EXPLODES

Canton, O., April 11.—Albert Deurose, 20, known to fight fans throughout northern Ohio and western Pennsylvania as "Rabbit" Devore is dead, Martin Perath, 28, may be fatally injured and three other men were seriously burned early this morning at the plant of the United Alloy Corporation when a big ladle car of molten slag exploded. Deurose died within a few minutes after the accident.

The men were accompanying the car to the slag dump when the explosion occurred. Deurose was to have participated in a fistie engagement tonight at Sharon, Pa.

HARDING CONFERS WITH SUGAR PROBER

Washington, April 11.—President Harding conferred for nearly one hour today with Assistant Attorney General Augustus T. Seymour, who is directing the government's legal investigation of high sugar prices. Seymour reported the progress made by his field investigators, but said the department of justice had not determined how it would proceed against those held responsible for recent price increases.

GOULD IS WORSE.

Menton, France, April 11.—The condition of George J. Gould, Sr., American financier and railway magnate, became so serious that relatives were summoned to the bedside today. His sister, Duchess De Talleyrand and her husband, have arrived. Gould is suffering from heart weakness and bronchial trouble.

PRESIDENT HARDING MAY ABANDON HIS TRIP THROUGH WEST

Controversy Kicked Up in Republican Circles Over Announcement of Candidacy Embarrassing to Chief Executive

Washington, April 11.—The controversy kicked up in high Republican circles over the political wisdom of the Daugherty announcement concerning President Harding's candidacy in 1924 continued unabated today.

In fact, its increasing intensity is manifested by the president's plain threat to abandon his western tour entirely if the newspapers continue to treat the trip as an adjunct to the political campaign of 1924.

Here in Washington as in Florida, the president has found his closest political advisers divided into two opposing camps regarding the announcement and the trip, and as a result of this situation, it can be stated authoritatively that whereas a week ago the trip was a settled thing, today it is not. Those who are opposed to the political methods and startery of Attorney General Daugherty have informed the president that the announcement of his candidacy at this time, a "fortuitous" and that he cannot escape appearing in the role of a candidate on his trip.

On the other hand there are those high in the councils of the party and high in Mr. Harding's confidence, who believe that the flurry kicked up by the announcement is a "tempest in a teapot," and that its general effect has been good inasmuch as it has clarified the political atmosphere to a point where it is now possible to say what's what in the Republican party. These later advisers of the President take the view that something drastic was necessary to stop the various boomlets that were getting underway so long as Mr. Harding's 1924 plans appeared in doubt and this, they contend, has been accomplished by the move of Attorney General Daugherty.

Caught between these two conflicting schools of opinion within his own ranks, President Harding's embarrassment is apparent to callers, who have seen him since his return to Washington. He cannot disavow his candidacy for 1924 without con-

sequences in the party that are wholly incalculable. At the same time he does not wish to appear as a candidate seeking renomination when he goes forth in June to make what he considers a not unusual trip of inspection.

Events of the next four weeks will determine whether the president will take this trip. He is extremely anxious to do so, but if things so shape themselves as to make it appear that his trip would be prejudicial to the best interests of the party in 1924 it can be stated authoritatively that the president will abandon it entirely and remain in Washington this summer.

JACK DEMPSEY WILL NOT AGAIN DEFEND TITLE

Heavyweight Champion to Give Interests to Coal Mining.

New York, April 11.—Jack Dempsey will not again enter the ring to defend his title as world's heavyweight champion, according to a statement made today by Dan McKetrick, eastern manager of the Kearns-Dempsey boxing interests. The champion, he declared, intends to devote his entire attention to extensive coal mining operations, in which he is the principal stockholder at Dempsey City, Utah.

The concern is called the "Great Western Coal Mines Company," and Dempsey has been elected its president and Jack Kearns its secretary and treasurer, McKetrick said.

He declared that 100,000,000 tons of coal were to be mined at the operation and the income would be sufficient to justify Dempsey and Kearns in retiring from the boxing game.

"They have been considering this step for some time," McKetrick stated, and from the looks of things everything is settled. I have Kearns on the long distance telephone last night and he assured me that Dempsey is sincere in his intention to quit the ring.

"Of course," he added, "the champ may change his mind after he is out of the game awhile but he figures to make enough out of this proposition to remove him from all temptation, as far as the financial end of boxing is concerned."

SHERIFF CALLED UPON FOR ARREST

Paw Paw, Mich., April 11.—Refusal last night by Circuit Judge Des Vergnes of Berrien County to quash capias for the arrest of "King Benjamin" Purnell of the House of David, placed the arresting of Purnell squarely up to Sheriff Bridgeman today.

Purnell is wanted in connection with the suits for \$200,000 filed against the House of David by Walter M. Nelson of Detroit, for Gladys Bamford Hubel and Ruth Bamford Reed, sisters. The girls charge that while at the Benton Harbor colony of the sect they were subjected to gross indignities by Purnell.

RUM RUNNERS ARE DEALT BODY BLOW

Vancouver, B. C., April 11.—A body blow was given rum runners operating between British Columbia coasts and Mexico, Washington, Oregon and California by announcement today of British Columbia Attorney General A. M. Manson that from now on collectors of customs on the British coast will refuse clearances to deep sea vessels carrying liquor. Attorney General Manson was given this assurance by the Minister of customs at Ottawa.

OIL WAR CALLED OFF.

Pittsburgh, Pa., April 11.—The "war" between Standard Oil and the northern Pennsylvania independents which raged with fury for weeks in the form of bidding up crude oil prices by the opposing interests one against the other, was called off today. The independents got the last lick in and today Standard hoisted the "white flag" by lowering its prevailing prices on best eastern grades in the majority of cases from 25 to 35 cents a barrel.

WOMEN LEADERS DISCUSS COURT ACTION ON LAW

National Voters' League Turns Attention to Wage Act Ruling

ACTIVITY IS EVIDENT

Seek to Avert Effect of Decision On Many Workers

Des Moines, Ia., April 11.—Women leaders of the nation, meeting in the second day of the fourth annual convention of the National League of Women Voters, relegated to secondary place the business of the league and discussed the sweeping decision of the United States Supreme Court that the minimum wage law in the District of Columbia was unconstitutional.

A sub-surface activity is evident. Resolutions on the decision were being considered. Women closely allied with the industrial welfare of the country are conferring in the corridors of the convention hall on ways and means to minimize the depressing effect the Supreme Court decision will have on the morale and standard of living of the worker.

Mary Anderson, chief of the women's bureau of the department of labor was pessimistic as to "the future progress of the country in the light of reactionary decisions of the Supreme Court."

"This decision," he said, "marks the return of America to those days when girls were working for \$3 a week."

"None who know conditions under which women workers existed in those dark days of starvation wages can question the seriousness of this situation."

"We will return to the sweat shop system. Again we will have the horrible housing conditions, the underfed working girl, the depletion of the strength of potential mothers."

"This automatic reduction of women's wages cannot but have a depressing effect on men's wages. More children will return to factories that the family may exist."

"Only one remedy presents itself," said Alice K. McFarland, director of the women's work under the Kansas court of industrial relations, "and that is that women organize into trade unions."

PROMINENT MARION RESIDENT IS DEAD

Marion, O., April 11.—Next to President Harding, whose close personal friend he was, Judge Caleb H. Morris, 74, this city's most prominent citizen, died last night at his home here and today the entire city is in mourning.

Morris was not only one of the wealthiest, but one of the most beloved citizens of Marion. Born at Waldo, Marion county, the son of poor parents he rose rapidly in his profession of law, later moving to Marion.

He was elected common pleas judge when less than thirty years of age after serving as prosecutor. He then served two terms on the old circuit court bench. For 25 years he served as a judge, retiring to private life 15 years ago.

In 1850 Morris was the Democratic candidate for congress in the old thirteenth district for many years he was identified with Colonel George B. Christian, father of the president's secretary, in the lime and stone business, in which he amassed a large fortune.

PLAGUE IN INDIA SWEEPING NATION

Calcutta, April 11.—The plague which is sweeping the United provinces in northern India has reached terrible proportions and hundreds are dying daily, according to information received here today from Allahabad. Thousands of inhabitants of the plague ridden districts are in flight.

JAPAN CARRYING OUT ABROGATION

Tokio, April 11.—The formal procedures for the abrogation of the Lansing-Ishii agreement between the United States and Japan are now being carried out by the Japanese cabinet and the privy council, it was learned today.

Official announcement of the abrogation may be expected in Washington and Tokio within a few days.

CHARGED WITH THEFT
Newport, Ky., April 11.—On an affidavit charging embezzlement of \$5,778 from the Covington Loan and Investment Company, of which he formerly was manager, of which he formerly was manager, Frank Ashton, 7, 26, was arrested yesterday at the Newport Rolling Mills. He is held pending arrangements for bail.

TURKEY RATIFIES CONCESSIONS OF GREAT IMPORTANCE

Washington, April 11.—Ratification of the so-called Chester railway and mining concession by the Turkish nationalist assembly at Ankara was regarded here as meaning that private capital in the United States will soon exert a strong influence in near eastern affairs.

The following other effects were foreseen: Another serious slump in British, French and Russian prestige in Turkish affairs; widening of the breach between Turkey and Russia, Britain and France, and opening up anew the wounds of the ill-fated Lausanne conference, making final settlements with Turkey on behalf of those powers all the more remote, and assurance to the United States of sufficient oil for commercial purposes and for war uses in case of hostilities with nations other than Turkey.

On the other hand several "jokers" were seen. Since acquisition of the leases and concessions has had government backing from the time negotiations were begun in 1908, the government is bound to continue its support, morally at least, and this benevolent interest, it is hinted, may bring on grave complications. During the negotiations strong opposition was expressed by competing nations, especially Britain and Russia, who claimed prior pledges from the Turks, and every known means of blocking and "queering" the deal were made.

America's interest in the Turkish "mess" is now explained. Last year, when destroyers were dispatched to the Balkans, a protest went up because war was feared from the Balkan tinder box that might embroil the United States. The explanation given by Secretary Denby of the navy department was that the destroyers were sent to "protect American interests." These interests consisted of oil.

According to observers here, the United States has scored a master stroke in commercial diplomacy. Just what effect it will have on the other contending powers is impossible to state, but undoubtedly France, Britain and Russia will be more anxious to grant Turkey favorable terms. Turkey, however, is in the strong position, because she is safely back on European soil and has made commercial terms which it is believed will hasten a peace treaty with the United States.

The oil fields in question are in the Mosul region, and are regarded as Turkey's richest. They have been obtained by the Ottoman-American company, which will also build 2,000 miles of new railways, ports and docks and a modern American city at Ankara.

Consumption of the deal ends years of effort by Rear Admiral Colby M. Chester, retired, of Washington, and American associates, including General George Goethals, who recently resigned his job as fuel administrator in New York, and Kermit Roosevelt.

REAL FISH STORY COMES FROM NAVY

Washington, April 11.—The United States Navy has come forward with a bid for first place in the spring fish story sweepstakes.

It's really a turtle story, but a turtle comes so near being a fish that the difference doesn't matter.

Captain J. Johnson of the steamer Kennicott, reported to the navy hydrographic office that his ship passed through eighty miles of turtles a hundred miles off the Pacific coast of Mexico. The Kennicott was enroute from Balboa, Panama to San Pedro, California.

Captain Johnson said there were thousands upon thousands of the turtles, some of them three feet and estimated to weigh at least 200 pounds. The Kennicott ran through the school for more than eighty miles.

FIRE PUTS BOOZE VENDER OFF GUARD

Hammond, Ind., April 11.—Frank Gatawich, Hammond saloon keeper, believes the story about the curious cat now.

Police had been after Frank for some time, but never could find anything wrong with his place.

Then they turned in a fire alarm from opposite his saloon. While Frank was outside to see what it was all about, the coppers slipped in the back way of the saloon and found two quarts of moonshine.

Frank rode to jail on the fire truck.

WOULD ISSUE BONDS

Columbus, O., April 11.—J. Harvey McClure, receiver of the Indiana, Columbus, and Eastern Traction Company, has made application for permission to issue \$2351 of equipment trust bonds for the purchase of six light weight interurban passenger cars for use between Dayton and Union City, Indiana, the state utilities commission announced today.

The new equipment is to replace the present heavy and obsolete type of cars now in use, it was stated.

NO ACTION ON GAS FRANCHISE.

Wooster, O., April 11.—Council refused to act on a franchise granting the East Ohio Gas company a rate of \$1 for the first 1,000 cubic feet and 50 cents for all in excess of that amount. Although Wooster has a contract which does not expire until October, 1924, the East Ohio Gas company has notified council that gas will be shut off unless a new rate is fixed.

News of Greene County

TO GIVE BANQUET FOR SCHOOL TEAM

Jamestown, April 11.—The Business Men's Association of Jamestown will entertain with a banquet, the High School basketball team on Friday evening at the Venard hall. J. W. Gowdy, Supt. of the Jamestown school, will serve as Toast Master. Thurman Miller, of Wilmington, Coach Prugh, of Antioch College, have been invited to give addresses. Ralph George will represent the board of Education, other business men will be on the program. Special music will be a delightful feature. Both of the Jamestown teams acquitted themselves splendidly, the girls team being handicapped with a good deal of sickness. The outstanding achievement of the boys team was winning the cup as the Tri-County champions, the counties of Greene, Clinton and Highland. They only lost two games during the regular season. So that coach Stoner has reason to feel proud of his team. The Woman's Missionary Society of the United Presbyterian Church, will furnish the dinner for the banquet, early in the evening.

To Furnish Program

On Friday afternoon the 13th, the grades on the lower floor will furnish the program for the Community Service Club. Various exercises will be presented by the pupils of each room. A pleasing feature will be Kellogg's bird—music on the victrola by Miss Margaret Gilchrist's pupils. The 7th and 8th grades. A part of the program will be along the line of Arbor Day. The address of the afternoon will be given by Miss Evers, of Xenia, Red Cross nurse of Greene County, her subject will be "Nutrition As Pertains to The Child."

Supt. of Schools, C. A. Devoe, was at Sabina on Friday evening, having been selected as one of the judges in a literary contest given by seven high schools of Clinton County. The other judges were County Supt. O. S. Nelson of Washington, C. H. and the Rev. Nicholson, also of Washington. C. H. The contests were in Bible Reading, Reading Oration, Instrumental and Vocal Music. The Blanche high school was awarded the highest number of points, the Adams township high school was given the second highest. Mr. Alle Stingley is Supt. of the latter school. Mr. Stingley taught in the Jamestown high school a few years ago.

PERSONALS

Dr. W. M. Henry has bought the Ralph Glass property on West Main street and will be given possession at once.

Miss Rebecca Marsh spent the week-end with her parents at Owensville.

Mr. Earl Little and family were Sunday visitors at the home of Mr. and Mrs. Everett Little.

Mr. J. C. Brown, president of the Farmers and Traders Bank, is still confined to his room. His brother, Thomas Brown, of Cashocton, spent the week-end with him and his family.

To Give Program

The Literary Society of the high school will give their monthly program on Friday afternoon, which will partake of the Arbor Day sentiment.

Mrs. Nannie Swann, of Indianapolis, has been visiting her aunt, Miss Sidney Bowles.

Mrs. James Clark and son Lester, have taken rooms with Mrs. E. C. Griffith.

Mr. Charles Houser has bought the Augustus Gonia property on South Limestone street. Mr. Gonia will look for a location outside of Jamestown.

Mrs. Rebecca Bryan spent last week with her son Wilmoth and family.

Mr. and Mrs. Wilfred Weimer spent Sunday with Mr. and Mrs. Alfred Hutsler, at Yellow Springs, Ohio.

Dairy Lunch Successful

The Ladies Aid of the M. E. Church were successful with its dairy lunch on Friday evening. The net proceeds were one hundred and thirty-five dollars.

The Rev. L. L. Gray and Robert L. Dean were at Reynoldsburg on Monday attending Presbytery. They represented the Jamestown United Presbyterian church. A large section of Ohio churches met in these sessions.

Resumes Operations

The O'Neal Tobacco factory has resumed operation, having been suspended for the past few weeks on account of the shortage of tobacco supplies.

Word has been received from Mr. and Mrs. A. J. Barnes, who have been in California for several weeks, that they have left Los Angeles and are now at San Francisco.

Miss Mary Zeiler, after a pleasant vacation with the home folks, has returned to Chicago, where she will resume her studies for the remainder of the year.

HELL UNSCIENTIFIC PREACHERS THINK

Chicago, April 11.—Fear of the traditional fire of hell and hope of some day being the possessor of a harp in Heaven no longer serve to keep the youth in the "strait and narrow" in the opinion of several leading Chicago preachers.

The youth of today long ago discarded the orthodox idea of hell and more and more the adult is beginning to cling to the new idea, according to Rev. Ernest Little, as expressed in a recent address, and concurred in by many of Chicago's divines.

The old idea smacks of the dark ages, the preachers say. The psychology of hell and Heaven has lost its punch, the Rev. William Chalmers Covert, pastor of the First Presbyterian church, said.

"The element of fear in religion has had its day," said the Rev. Zula White, pastor of the People's Liberal Church. "Anyone who thinks for himself will exclude the idea of hell and eternal damnation as unscientific."

MR. TABOR

Miss Ruth Smith is spending several days with her aunt, Mrs. Mary Christie, of Xenia.

The Ladies Aid will meet with Mrs. Veda Beal Thursday afternoon, April 12.

Mr. and Mrs. William Trout and daughter and Mrs. Emma Devoe called on Riley Jones and family Thursday afternoon.

Miss Gladys Eyer of Dayton, spent the week-end with her parents, Mr. and Mrs. H. C. Eyer and family.

Mr. and Mrs. David Linkhart and daughter spent Sunday with Mr. and Mrs. Elmer Lewis of Lumberton.

Mr. and Mrs. Elmer Woolery and family were guests Sunday of Mr. and Mrs. Earl Ford and family.

Irvin Smith and family called on J. R. Jones and family Sunday afternoon.

Mr. and Mrs. Vernon Jones and family called on Hanna Bland and family Sunday evening.

Mr. and Mrs. Ben Thomas of Xenia, were Sunday guests of Mr. and Mrs. Levi Smith.

Prayer Meeting at the church, Wednesday evening.

Mr. Stanley Jones called on Messrs. Earl and Donald Smith Sunday afternoon.

Mr. and Mrs. Herman Oliver, of Bowersville, spent Sunday afternoon with Mrs. M. A. Strong and family.

Miss Mary Buckwalter, who has been quite ill with heart-trouble, for the past few weeks, is not much improved at this time.

Mrs. J. W. Smith and daughter Mary, and grandson Junior, spent Friday afternoon with Mrs. Addison Graham.

CEDARVILLE

Miss Donna Johnson, who has been confined to her home for the past three weeks, with inflammatory rheumatism, is able to be about again.

MONTANA TOWN AFTER DEMPSEY GIBBONS FIGHT

Shelby, Mont., April 11.—Through the proposed championship bout between Jack Dempsey, present heavyweight world champion, and Tommy Gibbons of St. Paul, July 4, this year, this little Montana town has been placed in the national if not the international limelight.

Negotiations are under way and from present reports it appears that the bout will be held in the booming little oil town of Montana, provided Dempsey will agree to the proposed contract. The committee in charge claims that sufficient money has been raised and pledged and that everything waits on Dempsey, as Collins, Gibbons' manager, it is said, has signified his willingness to sign up.

Natural Amphitheatre

The main claim Shelby puts forth for holding the bout is a natural amphitheatre in the contour of the bad land formations just north of the city. There exists a huge natural stadium just outside the city limits, in which it is claimed, seats to accommodate 100,000 can be built for \$10,000 or less than the area structure for the Dempsey-Carpenter Jersey City fight cost.

The proposed bout is sponsored by the Montana State Department of the American Legion and vast support has been pledged by oil interests of the state. Many commercial and other organizations also are working hard for the bout, but in-cognito, letting the American Legion take the credit and lead. There are 127 Legion posts in the State, and recently a quota of ringside seats, at \$50 each, was sent to each post. Posts at Fort Benton and Conrad sold their quotas immediately and wired for more reservations.

All posts of the state are taking a lively interest in the proposed bout. Roy Mollumb, State Commander of the Legion, says that the necessary guarantee sum of \$110,000 has been raised. Of this sum \$50,000 will represent a pledge to Jack Dempsey. Under the plan Dempsey is to get \$200,000 and Gibbons \$50,000.

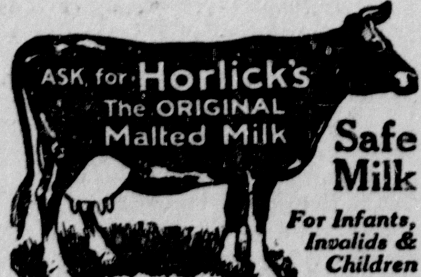

Two Canadian cities have pledged \$10,000 together.

Typical Oil Boom Town

Shelby is a railroad junction and recently has been enjoying a great boom from the discovery of oil in its vicinity. Its population is only 1,500. It is a typical Montana prairie town, with wide modern streets, good, substantial cement sidewalks and high-powered electric lights and the customary Montana white way on the main thoroughfare.

It is on the transcontinental line of the Great Northern Railway 384 miles from the North Dakota border, 283 miles from the Idaho border and only 35 miles from Sweet Grass on the Canadian border. Great interest is being taken by the Canadians and such cities as Calgary, Edmonton and Lethbridge have promised that at least 20,000 Canadians will attend the fight.

Shelby is the junction point of the Chicago, Burlington and Quincy line running direct from Kansas City. Burlington trains from Kansas City connect at this point for points on the Pacific Coast. The Great Northern also runs north out of Shelby to Sweet Grass connecting at the international border with the Canadian Pacific Railway for Calgary and Edmonton. Shelby is 517 miles from Seattle, 977 miles from San Francisco, 1,350 miles from Chicago and 750 miles from Denver.

GREEKS IMPOSE CAPITAL TAX TO HELP REFUGEES

BY LUTHER A. HUSTON, International News Service Staff Correspondent

London, April 11.—Greece's most serious problem today is not peace with the Turks or the re-establishment of a stable domestic government. It is the problem of caring for the more than a million refugees while the fortunes of war have cast upon the nation.

This is the opinion of Monsieur G. Collias, the Greek minister in London. The Greek government, Monsieur Collias declared in an interview, is becoming stabilized and is gradually working out the problems that confront it. Permanent peace with the Turks is still to be realized, but the Greeks are hopeful of a successful outcome of negotiations between the Allies and the Ankara government.

WOULD SWAMP ENGLAND "Imagine what the effect would be in England, with its population of more than 40,000,000 if another 1,000,000 people were to be brought here and added to the already large number of unemployed. You will then realize how much more serious a problem it is for Greece, with a total population of less than 5,000,000, and with her limited national resources, to have the care of so large a number of refugees."

"The British government is caring for about 35,000 of the refugees but \$5,000 is a very small part of 1,000,000. The American Relief Administration is doing a wonderful work, but is not able to do all of the tasks that are required. Meantime, the condition of the refugees with regard to food, clothing and epidemic disease is growing worse and becoming more of a burden and a menace to the Greek nation."

"Until peace with the Turks is signed, the government is forced to maintain a strong army. To meet the military burden Greece has been compelled to resort to the rather unusual experiment of a capital levy."

LOOK SEEMS HOPELESS

"Even if peace were assured however, and it were possible to spend the money now devoted to the needs of the military for the relief of the refugees, it would be utterly inadequate to the requirements of the situation. It would almost seem, from a present viewpoint, that we are to have refugees with us always."

"Some measures of relief may be accomplished by the exchange of Turkish prisoners and it is probable that eventually a large number of the refugees will be colonized in Western Thrace and in Macedonia. But this will require time and much money and does not offer any immediate solution of the problem. In

fact, there is no solution in sight, so far as I can see at the present moment.

Regarding the action of the Greek Government recently in imposing a capital levy, Monsieur Collias declared that this should not be regarded as a socialistic measure.

It was a measure dictated by the pressing financial need of the Government, he asserted, and was agreed to by representative capitalists.

Under its terms those citizens possessing more than a certain pay, within five years, from 3 to 15 amount of wealth are required to pay per cent of their capital to the Government.

ANOTHER BRITISH WORKER DIES RICH

London, April 11.—Life in domestic service seems to be a profitable occupation in England. Recently a London butler died leaving a fortune of over \$50,000, and now a hotel porter has left a will revealing a fortune of \$130,000.

The butler was a former employee of the late Lord Marcus Beresford, but the porter was just Thomas Henry Cleave, an ordinary employee at the Lord Warden Hotel, Dover, and the announcement that he had left such a large fortune has caused great surprise in his native town of Kings Cliffe, where he was known as the "Mystery Man," due to his general reticence about matters concerning himself.

It was believed by his townsfolk that he had retired on a small income, based mainly on his tips as a porter, but it was revealed in his will that he had bought a great deal of real estate while at Dover, owned several apartment houses at Kings Cliffe and was in partnership with a bookmaker.

He retired from portering in 1906, when he was nearly 60, and from that date until his death he lived in great simplicity in a small cottage, being very careful in money matters and reserved in manner. This strengthened the local impression that his means were limited.

He had no relatives, and the will disposed of his money in 19 bequests, including \$500 each to 13 people in his native town.

FORMER STATE OFFICIAL DIES.

Portsmouth, O., April 11.—Jesse Fremont Bateman, former official of the state senate and well known in Republican circles in Pike county and southern Ohio, died at his home in Pikeson of pneumonia.

Girls! Girls!! Save Your Hair With Cuticura

Scalp and Ointment to clear Dandruff and itching. 25c each. Samples free of Cuticura, Dept. X, Malden, Mass.

STADIUM TO HONOR HONOLULU PRINCE

Honolulu, April 11.—Appropriation of a fund of \$250,000 for the erection of a huge athletic stadium in Honolulu as a memorial to the late Prince Jonah Kihio Kalaniana'ole (Prince "Cupid"), who for twenty years was Hawaii's delegate to the Federal Congress, is provided in a bill introduced in the Territorial Legislature by Rep. W. K. Hussey.

The project for the erection of a memorial stadium has been under discussion for some months past, but it had been proposed to raise the necessary money by public subscription.

"Prince Cupid," in his younger days was a noted athlete and excelled in swimming and track sports. During his entire life he encouraged the development of athletics in Hawaii as a means of rehabilitating the Hawaiian race.

development of athletics in Hawaii as a means of rehabilitating the Hawaiian race.

PROTEST PORTRAYAL OF CHINESE LIFE

Columbus, April 11.—Vigorous protest against the exaggerations of native Chinese life in many motion picture productions has been registered to the Ohio department of film censorship by the Chinese Students club of the Ohio State University.

Scenes portraying gambling, opium dens, polygamy and child selling were pointed out as no more characteristic of Chinese than American life.

"These things are all prohibited by Chinese law, although there are breakers of the law," asserted C. M. Sun, president of the club, in a letter to censor board.

Ford
THE UNIVERSAL CAR

ANNOUNCEMENT

Of Interest to

MILLIONS of FAMILIES

"I will build a car for the multitude"

Said Henry Ford in 1903—Read how the fulfillment of that prophecy is now made possible through the

Ford Weekly Purchase Plan

For many years it has been Henry Ford's personal ambition to make the Ford the universal family car—to put it within the reach of the millions of people who have never been privileged to enjoy the benefits of motor car ownership.

During the past fifteen years over 7,500,000 Ford cars have been placed in the hands of retail customers more than a million and a half of them within the past twelve months—and yet there are still millions of families who are hopefully looking forward to the day when they can own a Ford. And now the way is open.

Under the terms of this plan you can select your Ford car, set aside a small amount each week and you will be surprised how soon you will own it. In the meantime your money will be safely deposited to your credit in one of the local banks where it will draw interest.

Think it over. Five dollars will start an account. The whole family can participate in it—father, mother, brothers and sisters each doing a little. Why not start today. Stop in and talk it over with your local Ford dealer. He will be glad to fully explain the details of the plan and help you get started toward the ownership of a Ford car.

RUSSIAN ART STUDIED BY J. W. C. MEMBERS.

Three phases of Russian art were studied by members of the Junior Woman's Club, at the meeting at the home of Mrs. H. D. Smith, on North Galloway Street, Tuesday afternoon. Three papers were given, the first on "Russian Composers," by Mrs. S. M. McKay. Miss Margaret Steele, read an interesting article, on "Russian Music," followed by Mrs. W. W. Weaver of Cleveland, whose topic was "Russian Short Story Writers."

ENTERTAINS QUEEN ESTHER SOCIETY

Miss Yeola Purdon entertained the members of the Queen Esther Society of the First M. E. Church at her home on North Galloway street, Monday evening. Following the business session, chapters from the study book were studied. Miss Purdon served a delicious refreshment course. About 20 members attended the meeting.

GIVEN SURPRISE ON BIRTHDAY MONDAY

A company of eighteen friends of Mr. E. S. Davidson, arranged a surprise at his home on North Galloway Street, Monday evening, on the occasion of his birth anniversary. An informal social time was enjoyed throughout the evening by the guests, a delicious refreshment course being served.

TO ENTERTAIN W. C. T. U.

The A. C. Turrell W. C. T. U. will be entertained at the home of Mrs. William Bull on Maple Street, Friday afternoon at two o'clock. Mrs. Howard Norris, Mrs. O. C. Horney and Mrs. W. O. Custis will be hostesses at the meeting. All members are urged to be present and bring a guest.

DANCING TO BE AT K. OF P. HALL

The dancing party, sponsored by the Xenia Dancing Club, to be held Monday night, April 16, will be held at the Knights of Pythias Hall, the committee being unable to secure the Elks' Club.

PLANS LAID AT MEETING

Plans for their annual spring dance were laid by members of the Delta Theta Tau Sorority, at the meeting held at the home of Miss Pearl Haines, on South Detroit Street, Monday evening. The sorority is also sponsoring a theater benefit at the Bijou, Friday night.

ENTERTAINS AT CARDS

Mrs. Frank Ruff entertained a group of friends at cards at the home of her sister, Mrs. D. L. Gregg, on Union Street, Tuesday evening. Five hundred was enjoyed throughout the evening by the guests, the high score prize being awarded Miss Olive Huston. Mrs. Ruff served a delicious salad course following the game.

ASSOCIATION TO MEET

The Central Parent-Teachers' Association, will meet Thursday at 2:45 o'clock, at the portable building. The program will be in charge of the first, second and third Central grades.

P. H. Flynn, of the Xenia Shoe Manufacturing Company and his son Henry Flynn, are planning to sail the latter part of May for Europe where they will spend several weeks viewing the industrial situation of England and the central part of the continent. Henry Flynn, a student at the University of Pennsylvania, was given permission to leave school to accompany his father.

Mrs. John Ketter, Mrs. Edward Hubbard and Mrs. Frank Ford will be hostesses to the Pride of Xenia Thimble Club, at the home of Mrs. Ketter on West Second Street, Friday afternoon.

A covered dish social will feature the regular meeting of the Pride of Xenia Council Daughters of America, at the lodge hall, Thursday evening.

Richard LeSourd is confined to his home on West Market Street, suffering from an infected knee, resulting from an injury received in basketball.

Mrs. Mary Johnson, of North Galloway Street, is expected to arrive home Sunday, from Mobile, Alabama, where she has been spending the winter.

Mr. Herbert Davis, of South Detroit Street, is a patient in the Lakeside Hospital in Cleveland where he is taking the new insulin treatment for diabetes. Word received from Mr. Davis states that he is responding to the treatment. Much interest has been aroused in medical circles over the newly discovered treatment.

Mr. and Mrs. W. C. Sutton, of Dayton Avenue, are receiving a visit from Mrs. Sutton's niece, Miss Evelyn Bader, of Buckeye Lake, who will spend two or three weeks at the Sutton home.

RED PEPPER HEAT STOPS BACKACHE

The heat of red peppers takes the "ouch" from a sore, lame back. It cannot hurt you, and it certainly ends the torture at once.

When you are suffering so you can hardly get around, just try Red Pepper Rub, and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers.

Just as soon as you apply Red Pepper Rub you will feel the tingling heat. In three minutes it warms the sore spot through and through. Pain and soreness are gone.

Ask any druggist for a jar of Rowles Red Pepper Rub. Be sure to get the genuine, with the name Rowles on each package.

GREENE COUNTY IS WELL REPRESENTED AT DAYTON MEETING

Xenia and Greene County were well represented at the meeting of business men and farmers, at the National Cash Register Company, Dayton, Tuesday night. Among those who attended the meeting, were Mr. and Mrs. H. L. Sayre and Mrs. C. E. Arbogust, Mr. and Mrs. J. O. McDorman and Mrs. J. H. Whitmer, Mr. and Mrs. Frank F. Keyes, Miss Louise Keyes, Harry Connell, Mr. and Mrs. John A. North, Mr. and Mrs. Walter Currie, Mr. and Mrs. John G. Balder, Mr. and Mrs. W. A. Donges, Dr. and Mrs. N. T. Pavey, Mr. and Mrs. Elton Smith, Mr. and Mrs. J. C. Short, Mr. and Mrs. B. U. Bell, Mr. and Mrs. Herman Eavey, Mr. and Mrs. Ralph Spahr, Mr. and Mrs. Walter Nash, Mr. William Gowdy, Miss Marie Weller, Mr. and Mrs. Frank Wardow, Mr. and Mrs. Asa Price, Mr. and Mrs. E. F. Canby, Mr. and Mrs. Lawrence Johns, Mr. and Mrs. W. J. Kennedy, Mr. and Mrs. Ed Wood, Mr. and Mrs. Ernest Beatty, Mr. and Mrs. C. W. Kaiser, Mr. George Kaiser and Mr. Robert Kingsbury.

The meeting was held at the N. C. R. school house, and was featured by an entertainment, and addresses. Montgomery, Greene, Warren, and Clinton Counties were represented at the meeting.

TIME NOT RIPE FOR PARTICIPATION SAYS SENATOR FESS

"Lord Robert Cecil, British statesman, who is now in this country in the interest of the League of Nations, might just as well have stayed at home," Senator S. D. Fess, of Yellow Springs said in Dayton Tuesday while attending the semi-annual reunion of Scottish Rite Masons.

"I believe that M. Clemenceau did more harm than good," he added. "Attempts to drag this country into participation in foreign politics have caused marked resentment. When the day arrives that American statesmen rise up and declare that the time has arrived for this country to enter into the affairs of European countries, I believe the people will listen, but until that time there will be no action."

Senator Fess is one of several Greene County Masons in a class of more than 200 receiving the Scottish Rite degrees.

HARVEY TO RETURN TO U. S. ON VISIT

Washington, April 11—Colonel George Harvey, the American ambassador at London has been granted a leave of absence to return to New York this summer to attend to some personal business which demands his attention, it was learned officially here today. While Ambassador Harvey is in the United States he is also expected to participate in the Republican party councils which will be held during the summer.

London, April 11—George Harvey, the American ambassador to England, declared today he would shortly sail for the United States, returning to London in June.

Gertrude E. Ludlum of Dayton filed suit in that city Tuesday for divorce from Edward C. Ludlum, of this city.

DURING FARMERS' BUSY SEASON

During the next few weeks the office of the Gazette and Republican will remain open Saturday evenings until nine o'clock, to accommodate any who are not able to get in during the week.

COURT NEWS

INHERITANCE TAX DUE.
Inheritance tax totalling \$107.84 will be paid on the estate of George Zimmerman according to a Probate Court finding. The gross value of the estate was \$26,442.81, the debts \$24,782.81 for distribution. Thaddeus, R. W. and O. A. Zimmerman, sons and Veda Haynes a daughter, each receive \$6,195.70, and are allowed \$3,500, each paying tax amounting to \$25.96.

'GUARDIAN IS APPOINTED.
Susie Epps Brown has been appointed guardian of Edwin Kennedy, an imbecile, in Probate Court and furnished \$1,000 bond.

TWO ADMINISTRATORS NAMED.
Administrators of two estates have been appointed by Judge Marshall in Probate Court. Malinda Sellers, has been named administratrix of the estate of W. S. Sellers, late of Beaver Creek Township, and has furnished \$1,500 bond. Russell Webster has been named administrator of the estate of Martha Davis Webster, late of Bath Township, and has furnished \$1,800 bond.

Divorce Case Being Heard.
The marital troubles of Mrs. Lydia Brown and her husband, Edward Brown, whom she charges as far from fastidious in his habits of personal cleanliness were being aired before Judge R. G. Hornbeck of London in Common Pleas Court Wednesday. The case promised to take up the entire day's proceedings and was heard by a fair sized gallery. William Kreitzer of Dayton and L. T. Marshall of Dayton represent the plaintiff and Marcus Shoup and Harry D. Smith of this city are attorneys for the defendant.

FUNERAL IS THURSDAY.
Funeral services for John H. Koogler, 81, Civil War veteran, who died Monday at his home on the Kemp road, in Beavercreek Township, will be held Thursday morning at ten o'clock from Mt. Zion Church and burial will be made in Mt. Zion Cemetery.

"BLOOD THAT IS THIN AS WATER"

Poor Nutrition and What You Ought to Do About It

At this season of the year, when you find that you have become weakened, under weight, pale, and thin, you ought to realize your danger. Your blood has been thinned and weakened. You are not gaining the strength you need from your food. Then is the time that you need Father John's Medicine, which is a scientific blending of cod liver oil with other ingredients in such a way that its food elements are easily taken up by the blood and turned into new strength and health. If you need a tonic, remember that Father John's Medicine does not stimulate, because it is free from narcotic drugs, but it does build new flesh and strength because it is all pure food and wholesome nourishment.

YOUTHS CHARGED WITH MAN'S DEATH

Floyd Irwin, 19, and Milton Irwin, 26, brothers, of Armstrong, Ill. are being held in Clinton County Jail charged with first degree murder in connection with the death of William Moore, grocer, of Memphis, near Wilmington, April 1.

Both pleaded not guilty when arraigned in Wilmington Monday and were bound over to the Grand Jury. They were placed under suspicion when their departure was noted shortly after the grocer was slain, and they were arrested shortly afterward at Armstrong. The Grand Jury will be called in special session to consider the case.

LOCAL MEMBERS ATTEND MEETING

Four Xenia members of the Miami Traffic Club attended the joint meeting of that organization with the Traffic Club of Cincinnati Chamber of Commerce, addressed by Dr. Frank L. McVey, president of the University of Kentucky, in Cincinnati Monday.

Dr. McVey, well known economist, talked on the subject "Comments on European Affairs." A. H. Finley, C. E. Haver, R. A. Tull and A. C. State, Xenians who attended the meeting Monday evening.

Xenia has more than doubled its membership in the Miami Valley Traffic Club, according to local officers. On the plea for increased membership, four new members have been added to the Xenia contingent.

holding membership in the organization. Last year's members were A. H. Finley, W. R. Torrence and A. C. Bales and this year the names of R. A. Tull, J. W. Santmyer, Lawrence McKee and James Wilson, Third, have been added to the roster from Xenia.

NEW BUS LINE OPERATES.

The Dayton and Xenia Bus Company, recently incorporated in Dayton to operate a bus line between Xenia and Dayton, has been authorized to issue \$2,500 common capital stock to be used in partial payment for two touring cars and for working capital, it was announced by the State Utilities Commission Wednesday.

The company has already placed the passenger cars in operation carrying passengers between these cities. The new company, is headed by T. L. Farneding, head of the Dayton, Springfield and Xenia Southern Railway Company.

OUR IDLE SHIPS AND THE DEFEAT OF THE SUBSIDY BILL.

The failure of Congress to pass the Ship Subsidy bill that was earnestly recommended by President Harding may not prove in the long run to have been a misfortune. We can afford to take another year for studying our merchant marine policy, along with immigration, and other related topics. One of the most gigantic of our undertakings in the years 1917 and 1918 was the building of ships. Money by the hundreds of millions was spent in extending old shipyards and creating scores of new ones, with the result of turning out something like 1500 ocean-going vessels, nearly all of them slow freighters of medium size. By seizure of certain German vessels and by a certain amount of passenger-ship construction, we were able under Government auspices to start several new lines carrying passengers and freight to foreign ports regularly, under the American flag. The great reaction in foreign commerce has resulted in the temporary idleness not only of most of our newly built American ships, but also in much of the ocean tonnage of other maritime countries. Our Government operation of ships in use, and our maintenance of hundreds of vessels not in use, have resulted during the past two years in an annual loss to the United States Treasury of about fifty million dollars.

But events may show advantages in another year's delay before arriving at a decision. The defeat of the subsidy bill in the Senate was due to the unyielding opposition of the minority, who asserted that if the new Congress were consulted it would be found hostile to the measure. Filibusters are never admirable; but this last one was not quite so inexcusable as some other filibusters have been. The shipping question has so many angles that the country can better afford to meet deficits in cost of operation for another year or two, than to adopt an ill-matured policy which might not work out according to the predictions of its proposers. Members of the new Congress, which is not to be in session until next December, would do well to study this question of the merchant marine on its merits, without undue prejudice either for or against a subsidy policy.

GOVERNOR SETS DATE FOR OHIO ARBOR DAY.

Friday, April 13, is set as Arbor and Bird Day for Ohio in 1923, in a proclamation just issued by Governor Donahey. The day chosen by the governor is the first day of Tree Planting Week, which has been set by the national "Plan to Plant Another Tree" organization for April 13-20.

In this proclamation, Arbor Day is set before the people of Ohio as "a day when children should be taught some knowledge of those wondrous forms of life that, rooted in one spot, live, grow, exercise God's plan of parentage, and die. It is a day to study the bird life common to our state—to learn how birds help mankind and how friendly they are when undisturbed. It is a day to marvel at the instinct of these flying things—their knowledge of how and where and just what size to build a mothering nest—their sense of direction in the flights of fall and spring."

Schools and civic organizations throughout the state are called upon to give suitable observance to this occasion. "Let us all, mature and young," says Governor Donahey, "on this day, enlarge ourselves by seeking better understanding of these other forms of life. Perhaps some day we may communicate with them in ways not yet apparent to our finite minds."

THE SPLENDID BUDGET SYSTEM.

It is to the credit of the Sixty-seventh Congress that it responded to President Harding's urgent demand, and enacted the existing law under which the budget system has gone into effect with results already so important. It has brought about economies that bulk large in the total. Governmental business had expanded enormously during the war years, and the budget system has been of marked advantage in the process of deflation. The total number of government employees has been reduced by about 100,000. The late Congress added a few millions to the River and Harbor bill by the old-fashioned log-rolling process; but otherwise it followed closely the estimates and recommendations of the budget as sent in by President Harding. This does not mean that Congress neglected its obligation to consider appropriations carefully. What it does mean is that Congress was willing to work with the executive branch of the government in adapting ends to means. There is nothing sensational about this phase of the work of the Sixty-seventh Congress, but it is a meritorious record and ought not to be forgotten. There might well have been larger modifications of the war system of taxation, but at least the recent Congress improved the system in some respects.

GAMES OF CHANCE ILLEGAL.

In an Ohio court last week a man was fined for "participating in a game of chance" and two others for "promoting a game of chance." The matter had been brought before the court as the result of a raffle for a house. The promoters pleaded that they thought they were within the law, but were told that ignorance of the law in the cases of games of chance as well as any other case is no excuse, but owing to their excellent character, they were fined the minimum \$25.00 and costs. The money taken in the raffle was to be returned to the ticket purchasers.

It may not be generally known that games of chance of all kinds are classified in the law as gambling, and a conviction means the imposing of a fine from \$25.00 to \$500.00 and costs. As a rule, such games are for religious or charitable purposes but this does not alter the fact that the promoters and participants are liable to conviction and fine, whether the raffle is for a farm or a box of candy.

MABYE IF THEY'D TRY SCALDING THEY COULD GET A FEW MORE PIN FEATHERS

1903--Twenty Years Ago--1923

The question as to who will be the president of the City Council which has been hanging on a single vote in dispute and which was not counted on election night because of its being marked in an irregular manner was definitely decided last night and resulted in William F. Brennan, winning the contest.

The old piano that has so long served its purpose in the high school has an interesting history. It was purchased in the middle

thirties while Prof. Ormsby was superintendent of schools and by arrangement with the Board of Education, the tuition paid by the country pupils was paid direct to Prof. Ormsby and credited to the piano fund. The piano was purchased from Phillip Philips then known as the "sweet singer of Israel," who came to Xenia to give a concert, and was an agent for pianos.

The new canning factory to be erected in this city will soon be under the process of construction.

TOE-NAILS

They say the marvelous discoveries in the Valley of the Kings in Egypt, especially that of the tomb of Tutankhamen, will lead to a great vogue for Egyptian fashions. We will have Egyptian furniture, Egyptian hangings, head-dresses, costumes and, above all, sandals instead of shoes—this because of the exquisite sandals worn by the buried king.

Let us hope so, for sandals are such a delight to wear that I cannot think how anyone would return to shoes after having been permitted them. But let us devoutly pray that the new fashion won't go to the length of demanding bare feet—let's hope they'll leave us silk stockings anyway! Few toe-nails can stand public inspection.

We might, just in case, begin to beautify our toe-nails. These are the most neglected parts of the body, they say—and I don't doubt it. Begin by soaking the feet for 20 minutes to half an hour in a basin of warm, soapy water. Then take your nail file and clean under each toe-nail and, with the cuticle knife, scrape off all the dead skin you can remove from the nail. Clip the jagged ends with your manicure scissors and then trim the nails short.

This trimming differs from the manicure, because each nail should be cut straight across, and the two large toe-nails should be cut going in, V-shaped with the point going in, so as to draw the edges from the skin and cure or prevent that painful affliction, ingrowing nails.

Now rub the toe-nails with a little vaseline and wipe this off. Go through this process once a week, and you will not know your nails in a few months, they'll be so improved. But meantime you must wear sensible

shoes which permit the toes sufficient room to lie straight.

L. W. J. P.—It is not well to wear your clothes so tight that pressure over the bust could injure it through bruising. Dash cold water over the chest every day and dry with light friction from a coarse towel. This treatment will tone all the muscles, including those of the bust. Deep breathing is an exercise for all the muscles from the waistline upward, and like all other exercise, it will develop flabby muscles so they will become firm, or it will consume fat while building up the muscular tissues.

Hopeful—It requires professional treatment to eliminate these pits from the skin.

Marion A.—As vinegar is an acid, it stands to reason that constant applications of it would destroy the life of your hair. I am wondering why anyone would use it at all.

Tomorrow—After the Baby

No more Rheumatism

S. S. S. is the Great Builder of Red Blood-Cells and Rheumatism Must Go! Just Try It!

"Rheumatism? Me? No, indeed, it's all gone, every bit of it! It's sunshine and joy for me now for the first time in years. I feel a wonderful glow again in the free motion I used to have when my days were younger. I look at my hands and think of the twists and swellings they used to have. I bend way over to the floor. I haven't been able to do that in many years. I can thank S. S. S. for it all! To me it was a rising sun of joy and liberty. Brothers and sisters in misery, do not close your eyes and think that health, free motion and strength are gone from you forever! It is not so. It is here and now for all of you. S. S. S. is waiting to help you." There is a reason why S. S. S. will help you. When you increase the number of your red-blood cells, the entire system undergoes a tremendous change. Everything depends on blood-strength. Blood which is minus sufficient red-cells leads to a long list of troubles. Rheumatism is one of them. S. S. S. is the great blood-cleaner, blood-builder, system-strengthening, nerve-invigorator. It stops skin eruptions, too, pimples, blackheads, acne, boils, eczema. It builds up run down, tired men and women, beautiful complexion, makes the flesh firmer. Start S. S. S. today. It is sold at all drug stores in two sizes. The larger size bottle is the more economical.

S. S. S. makes you feel like yourself again

CREDITORS WILL GET 25 PER CENT

Cincinnati, O., April 11—A payment of 25 per cent to creditors of the brokerage firm of Beazell and Chatfield of Cincinnati, was sought today when receiver Henry S. Irving applied to Judge Stanley Roettinger for authority to make the first dividend. An inventory of the assets of the firm shows \$711,218 to be available for creditors. The naming of a receiver for the firm last month was a shock to financial circles. The junior partner, Wm. H. Chatfield, junior, last year was the Republican nominee for the lieutenant governorship of Ohio.

DIES OF BURNS

Newark, O., April 11—Miss Orpha McLaughlin, aged 25 years, died here yesterday from burns inflicted when her dress caught fire from a burning match head that flew across the room setting fire to her clothing.

Today's Talk

DIRECTED THINKING
Jung, in his "Psychology of the Unconscious," defines the difference between ancient and modern thought as undirected and directed thinking—the former being a thinking in images, akin to dreaming, the latter a thinking in words.

It is plain to see that all our knowledge must come through directed thinking.

Look at the night after a clear, sunny day. Those feathery clouds, floating like ships across a calm

sea. Whoever can look at them, or anything of beauty, immediately crystallizes images into words that put life in a happy frame.

We are fashioned by directed thinking. The words of our friend warm and uplift us. The sunset immediately spells a story to us of golds, reds, purples and tinted touches of silvered clouds.

Everything good and great is associated with words.

Tell your friend what a beautiful day it is—and at once an army of words trot up to finish the tale of your suggestion.

Read a book—How soon you become lost in the army of words. But how enriched you feel after the covers are closed!

Try to tell the impressions you have secured from travel, and you have to muster words to do their best.

It is due to our habit of thinking in happy words that we grow in character and learn to face stern realities without flinching.

So that it becomes quite as important to choose your words as your friends.

CIGARETTE CAUSES BIG LOSS BY FIRE

Marion, O., April 11—Fire damage of \$20,000 resulted yesterday from a carelessly tossed cigarette stub behind a davenport in the Eagles club rooms in the heart of the business center.

The Eagles hall and club rooms were gutted and the shoe store of Smart and Waddell on the ground floor was water soaked. The Nelson Jewelry store was also damaged by water.

Offices of Dr. Robert S. Dombaugh, City Solicitor George W. Geran and several insurance agents were damaged on the second floor.

DECREASE TO BE GENERAL.
Washington, April 11—If the administration goes before Congress with a request for reduction in income tax rates, it will provide for decreases all along the line, instead of being limited to the surtaxes on large incomes as suggested by Secretary of the Treasury Mellon, it was announced officially at the White House.

STYLE in glasses. First consideration should be given to the correction of whatever defects may exist—then to the design and style of the glasses. Glasses correctly fitted and designed are becoming—are yours? If not, come in and let us design and make glasses for you that will improve your appearance as well as your vision.

And THE REPUBLICAN Information Box

All questions asked by our readers will be answered in this column. Medical and legal subjects are barred. Address all queries to "Information," this paper.

TRICKILICATE—Adhesive postage stamps were the invention of J. Chalmers of Dundee in 1834, and came into official use in the United Kingdom eight years later.

K. L. O.—You are right. Frogs and toads will eat nothing that is not alive. There are other animals that feel the same way about touching flesh from which the life has departed.

WEHNK—No, penny-in-the-slot machines are not a recent invention. In fact, they date back to 100 B. C., when contrivances placed in the temples supplied water in return for coins.

T. N. T.—We do not believe that it would ever result disastrously to leave a gas light turned on all night, provided the room was well ventilated. Nevertheless it is true that one lighted gas jet consumes as much oxygen as four adult persons.

GRETCH—The word "nurse" is derived from the Latin, and means "to nourish."

FARMER—The word "buggy," meaning a small vehicle drawn by one horse, is of Hindu origin. The Hindu name for such a carriage (usually drawn by an ox in that country) is "Baghi." Shortly after the British occupation of India, the soldiers adopted the name, altering the pronunciation to "buggy" for their light traps.

Be sure to get real Resinol

If you want to get rid of eczema, pimples, or other distressing skin eruption, you will accept no "substitute" for Resinol. Preparations similar in name or appearance are not "just the same as Resinol." Although a few unscrupulous dealers may offer them as or for Resinol, they are often crudely made, of little healing power, and some may even be dangerous to use. Buy in the original blue package.

Resinol is never sold in bulk

LAWN MOWERS SHARPENED

MILK AND BUTTER HIGHER BUT HAY AND HOGS LOWER

The state average price for whole milk is now a little better than \$2.50 per hundred. A year ago the price was \$2.00. The average for butter fat is 47 cents a pound as compared to 34 cents last year according to statistician C. J. West, of the State Federal Crop Reporting Service. Hogs average around \$5.00 a hundred pounds as compared with \$10.30 last year. Hay prices on the farm run from \$9.00 to \$13.00. The farm prices last year ranged from \$12.00 to \$15.00 per ton. The State average corn price on March 15th was 76 cents a bushel.

The state average egg price the middle of March was 23 cents with prices highest in northeastern and eastern Ohio. The prices in the corn counties were from 20 cents to 22 cents. The State average chicken price is 21 cents which is no change from a year ago.

Beef cattle average \$6.50 as compared with \$6.15 last year. Dairy cows are slightly higher than a year ago. Veal calves are around 50 cents above last year's price and sheep and lambs are about 30 cents higher than last year with a State average sheep price of \$6.27 and lamb price of \$11.33.

Wheat averages \$1.25 a bushel, a year ago it was \$1.28. Oats averages 46 cents a bushel as compared with 38 cents last year. Potatoes are much lower than last year with the present average standing at 88 cents as compared with \$1.50 a year ago.

RADIO AND MOVIES BOON TO SAILORS WHILE ON HIGH SEAS

Aboard U. S. S. Henderson, April 10.—The radio and the motion picture camera have brought Broadway to the American Navy.

Far out here in the Atlantic, with a staff gale beating a steady tattoo on the hastily improvised canvas screen, strung between two life boats, Marion Davies, Jackie Coogan and other film firmaments whose names adorn Broadway fronts, cheer, and are lustily cheered by an eager group of officers and sailors sprawling upon the quarter deck. Even the rocking and pitching of the big transport and the driving smoke of waves that beat over the deck fail to disconnect the ship's band, which plays merrily during the show.

It is a veritable Broadway programme—in fact, the films are the latest from Broadway exchanges—International News reels, comics, travel ogues and the feature picture, the most "mellow" of melodramas, the entire performance lasting two hours. With the dying strains of a lively march number the "gobs" (there being about 1,000 recruits on board getting their first "taste" of the sea) drift disconsolately below to quarters.

BETTER THAN MOVIES
Except that there is no cost, no searching for seats in the dark, on might feel quite at home at such a movie show in Broadway or Michigan Boulevard or Main street. On warm tropical evenings, with a sweet breeze wafting lazily overhead and a moon of exquisite richness beaming down appreciatively, one does not ever care to get back to a crowded theatre. Life never was more enjoyable than when one is plowing irresponsibly through an enchanting tropical sea.

For, in the officers' dining hall, the strains of a Broadway jazz dance orchestra soothes (if one may permit) by radio, those who would be a thousand miles away, in a gilded cabaret, "up N' York way."

From as distant points as Pittsburgh, Chicago, Omaha, Fort Worth the Henderson, by night, learns of the latest music by this wondrous radio, **NEWS BY RADIO**

Here amid the incessant swashing of the blue Atlantic against the gray steel sides of the Navy's only transport carrying Secretary of the Navy Denby, high Navy officers, Senators, Representatives and newspaper correspondents, where after days and nights of continuous travel seemingly without course everyone tires of every one else—there is nothing quite so exciting as the radio newssheet every day, containing short items of interest from every large city in the world, gathered during the night. The sheet is issued every morning, placed at each seat at breakfast, and is as eagerly sought and read as the metropolitan papers, even though a juicy divorce scandal, for instance might be thrilling the folks back in the States.

Because of the radio there is nothing of importance in the world with which even the newest sailor aboard is not acquainted.

PLAY FOR JACK TARS
"All work and no play makes Jack a dull boy" is a Navy tradition. That is why, in addition to the movie and radio programs there is every day on board band concerts, games, boxing and wrestling matches and all manner of amusements.

Education is not neglected. Aside from the routine training required to man a craft of Uncle Sam's far-flung Navy, every vessel carries a high-class library, containing accepted works on almost every conceivable subject. Ship's officers give daily talks on topics of the hour—on ports and countries to be visited and when, ever convenient classes are formed for special instruction in modern languages.

All in all, there is little dullness or lonesomeness in nature's vast bottomless waterways.

PROSPECTING IS TABOO
Washington, April 11.—Prospecting for oil or gas upon the government's spruce reservation in Alaska will not be permitted, it was announced at the department of interior today.

The decision followed an application from a prospector for a permit to prospect for oil and gas near Juana.

373 of 1,000 Wives Admit Courtship Spooning.

Dr. K. B. Davis, M.D.

One of the most extraordinary sociological inquiries ever undertaken is nearing completion in the Bureau of Social Hygiene, in New York, of which Dr. Katherine Bement Davis is general secretary. It has sent questionnaires to thousands of women, that, for frankness and intimacy of detail, are breath-taking. Of 1,000 college women interrogated 520 of 691 admitted they practiced birth control. At least 375 admitted they had spooned, kissed and caressed men before their marriage, but 298 said the only man had been the man they finally married. Of the 1,000 872 said they had made happy marriages.

BRITAIN ORDERS POWERFUL NEW BATTLE PLANES

By DAVID M. CHURCH,
International News Service Staff
Correspondent.

London, March 27.—Great expansion in the British air forces will be disclosed when the annual budget is announced in May, it is learned on excellent authority.

For the first time since the war the Air Ministry, it is understood is giving "production orders" and instead of ordering small numbers of the latest types of aeroplanes for experimental service it is ordering new machines in quantity. Torpedo planes are reported to have been ordered in large numbers, and it is believed by some aerial experts that the British Air Ministry, after long experimentation, has decided that torpedo planes are the most effective type of aerial fighters now available. These machines will be larger than any of their type before and will be driven by more powerful engines and than launch torpedoes as deadly than have hitherto been found feasible for aerial launching. These machines are regarded as the enemies of battle-ships and represent the highest point of evolution in air attack upon naval craft. No nation, other than Great Britain, is known to have plans for quantity production of these machines.

LONG-RANGE BOMBERS.
Long-range bombing machines also will be provided for in quantity in the next budget. These "ships" will be equipped with metal wings and will have longer range of flying than any bombers now in use. They will also be capable of carrying heavier loads of bombs than are now carried. Recently the British Air Force have found long-range bombers most useful in carrying out operations against hostile tribes in India, and it is understood that the Air Ministry now decided that this phase of aerial development must be regarded as paramount.

The budget also will provide for a number of single-seated combat planes—metal-built "birds"—which spit out death from their machine guns and climb at such a pace and to such a height that they are becoming one of the main bulwarks against attacks by air.

BIG TROOP "SHIPS."
Huge winged "troop transports," capable of carrying twenty men, will also be asked from Parliament. The mysterious amphibious giant planes which are now being built at Southampton probably will not be provided for in quantity in the air estimates, as it is understood that these seaplanes are still in the experimental stage.

Air officials declare that the finances of the Air Ministry have been so regulated that it will not be necessary to ask for an appropriation in excess of \$55,000,000, the amount appropriated last year.

The estimates also will make extensive appropriations for the development of civil aviation.

There undoubtedly will be opposition in Parliament to the proposals for extensions of the Air Service, but it is believed that the plans as now drafted eventually will prevail.

TO MAKE OFFER TO FRANCE.

London, April 11.—According to news received in London, the German ministry is earnestly discussing the terms of an offer to France. Difficulty is being experienced in reaching an agreement, some of the ministers being of the opinion that no offer should be made and no figure stated. The industrialists do not want the nature of the guarantees specified unless there is a certainty that they will be accepted, but the financiers and bankers are of the opinion that a reasonable figure should be stated.

DAYLIGHT SAVING KILLED

Marion, O., April 11.—Council last night killed decisively a daylight saving ordinance.

SPORTS

ANTIOCH-WITTENBERG GAME ON THURSDAY

ALL STAR FIRST TEAM LOSE 3 TO SECOND TEAM 40 TO 29

REDS SHEDDING BAD PERFORMANCES

SECOND TEAM UPSETS DOPE.

The all-star second team of the Dayton Municipal League sprung a surprise in kicking over the dope bucket to defeat the all-star first team in Dayton, Tuesday night, 20 to 29.

Personnel of the Famous Autos, which team played here all season, was represented on both the first and second teams and "Biddy" Barlow, star of the Auto quintet, starred for the second team with nine field goals. Sollmano, Solowitz, Koester and Koehly of the Autos were on the all-star first team.

The injection of Solowitz of this city, into the game in the second half strengthened the first team's play, according to accounts, and the first stringers rallied, but too late. The lineup and summary:

Seconds (40) Firsts (29)
Heeter L. F. McManus
Barlow R. F. Uhrig
Paul C. Sollmano
Somedahl L. G. Koehly
Drummer R. G. Koester.

Substitutions: Second Team—Longnecker for Heeter, Heeter for Longnecker; First Team—Solowitz for Goester. Field Goals: Barlow 9; Paul 3, Heeter 3, Drummer 2, Somedahl 1, Longnecker 1, Uhrig 8, McManus 3, Sollmano 2. Poul Goals: Paul 1, Barlow 1, Sollmano 2, McManus 1. Referee: Thiele.

GAME IS POSTPONED

The scheduled Antioch Wittenburg baseball game supposed to be played as a preliminary to the Giant-Mudhen baseball game in Springfield Wednesday afternoon has been postponed until Thursday afternoon at two o'clock and will be played on the diamond of Antioch college at Yellow Springs instead of at Springfield.

REDS GETTING TOUGH START

If there is anything to the theory of getting all the bad playing out of their system before they start the season, the Cincinnati Reds should open the National League schedule like a house a-fire.

WEATHERCOCK TOPS CHURCH 200 YEARS

Stratford, Conn., April 10.—

The golden weathercock that swims atop the steeple of Christ Episcopal Church here has an extra bright appearance these days, and throngs of motorists passing along Boston Post Road where the church is located cast an extra glance at the bird which has taken the eye of passers-by these many years. For the "bird" will be two centuries old in December.

On March 21 the parish celebrated the two hundredth anniversary of its first minister's ordination. Founded despite opposition of the Congregational colony of Connecticut, under the guidance of members of Old Trinity (New York) vestry, by men who paid the heavy fines inflicted by the colony judges, Christ Church was erected in 1723 and the weathercock swung into position at Christmas time became a landmark at once. During the Revolution British soldiers, forbidden to despoil the church of their King took pot shots at the "rooster" from the road as they passed and knocked it askew besides putting holes through it.

While the "bird" is as good as new to-day, a wealthy congregation containing families whose names are known throughout the land worship beneath its roosting place, proud of the fact that theirs is the oldest Episcopal Church in Connecticut, and equally proud of the quaint old weathercock.

KILLED IN BRAWL.

ROUNDTOWN, O., April 11.—A booze party resulted in the death of Daniel Opalka, 30, here. Six men are under arrest. Death, according to police, resulted from a fractured skull received in a drunken brawl with four other men after a party at a friend's house.

The Reds dropped their fifth straight pre-season game Tuesday, losing to the Louisville Colonels at Cincinnati 8 to 4. Rube Benton, the storm center of strife and combat between President Heydler and Commissioner Landis, was about as effective in the box as if he had stayed on the bench.

The Rube, recently ruled eligible for play with Moran's pastimers, was the victim of a slaughter by the American Association artillery, after Johnny Couch had retired from the game with the score 4 to 1 in his favor. Estell pitched for the Kentucky tribe and although he was hit strenuously, managed to keep the safeties scattered.

And now it seems that Eddie Roush the sour note in the Red family these days, has broken off another conference with Red officials without signing up. The gardener wants a three-year contract on a basis of \$16,000 a year. The officials offered him a one-year contract at \$15,000 a year. And that's that.

Fans are hoping that all this bad performance on the part of their pets will mean that the athletes will have all of the bad playing out of their systems before they crack open the season at Cincinnati next Tuesday.

DEATH CLAIMS MRS. JOHN E. THOROMAN

Mrs. Myrtle Olive Thoroman, 34, wife of John Edward Thoroman, died at her home, 131 Trumbull Street, Wednesday morning at two o'clock. She had been ill since last April and for the last four months her condition was serious. Death was due to tuberculosis.

Mrs. Thoroman was born in Adams County, September 8, 1888, and her marriage to John Edward Thoroman took place May 8, 1906. Her husband survives her with four children, John Edward Jr., Everett Thomas, Margaret Lucille and Glenn France. She also leaves her mother, Mrs. Alice B. Johnson, of this city, two sisters, Mrs. Charles Thurman, of Dayton and Mrs. Roy Leach of this city and four brothers, Glen Russell, Harley and Floyd Johnson of this city.

The funeral will be held from the late home Friday afternoon at 2 o'clock.

EAST END NEWS

Mrs. Albert Kendricks of East Church Street, was stricken Tuesday with apoplexy. She is now in a critical condition.

Mrs. William Williams of East Main Street, is among the sick this week.

Mr. John Johnson of Atlantic City, who was called to South Charleston, on account of the serious illness of his brother, stopped over to visit with his sister, Mrs. Lemuel Newsome of the Jamestown pike, for a few days. He had not seen her for 20 years.

Mrs. Martha Ran of the Jamestown pike, who has been ill for some time is growing weaker.

Mrs. Anna Laurels of Fair Street, will leave within a few days for the bedside of her sister in Leesburg, O.

CARD OF THANKS
We desire to thank all who in any way assisted during the illness and death of our husband and father. The Rev. J. M. Thompson, Signed, Mrs. Thompson and children.

A musical concert by Wilberforce and Xenia talent will be given April 20 at the Main Street Christian Church.

Mrs. George Robinson of East Market Street, continues ill.

Miss Lulu Varner of Chicago, who has been the guest of her mother, Mrs. Ida Varner of North Fair Street for two weeks has returned home.

Mr. and Mrs. Mark Patterson of Columbus were Sunday guests of Mr. and Mrs. Samuel Wiggington.

A meeting of the members of St. John's A. M. E. Church will be held Wednesday evening, which will be followed by a box social.

WOULD CUT TAXES ALL ALONG LINE— HARDING TO ACT

Washington, April 11.—The administration hopes to be able to recommend to congress in December a reduction of taxes all along the line.

This was indicated at the white house following announcement that Secretary of the Treasury Mellon's recent proposal to renew his recommendation for a cut in the surtaxes was discussed at the cabinet meeting. President Harding himself asked Secretary Mellon for a statement of revenues received from the various income levies. The secretary reported a "very gratifying increase," according to the white house spokesman. The president regards it as a little too early, however, to analyze the tax receipts and determine on a possible course to pursue with regard to changes. But if Mr. Harding finds it wise to recommend any reductions, it was stated, he will urge that they extend all along the line, rather than be confined to surtaxes.

The administration's plan is in line with that of Senator Smoot and Representative Greene of Iowa, slated for the chairmanships, respectively, of the senate finance and house ways and means committees. Both of these probable chairmen favor revision of the revenue act so as to bring about tax reductions, if it can possibly be done without sacrificing necessary revenues.

Any proposal to cut down the levies on the rich, like the surtaxes, however, will run counter to the announced program of the progressive bloc. This group proposes, with the aid of the Democrats, to restore the excess profits taxes.

It was the progressives, backed by the Democrats, who prevented Secretary Mellon's recommendation for a reduction of the surtaxes to 32 per cent being carried out in the last congress. The ways and means committee made the reduction, but it was increased to 50 per cent on the floor of the house. Mr. Mellon now intends to recommend that these taxes be cut to 25 per cent in the higher brackets.

Styles BY LENORE

Paris openings disclosed some very interesting details in the treatment of the new costumes. One of the best liked models in the importations is a bolero coat in rep, which has a little organdie vest buttoned up to the throat, finished with a pleated organdie ruffle in sunray effect. The skirt is composed of three pleated tiers.

In the sketch are illustrated a means of using leather to give individuality to a sport suit, the pocket

and collar being made of dark blue leather embroidered in green and purple; a new sleeve effect, in which the shoulder is left bare; and an exceedingly attractive way of utilizing the vogue for pleats, as shown by Lina Mouton in a frock of tortoise brown silk cloy. The pleatings are of brown Georgette crepe.

TIDE HAS TURNED TOWARD THE LEAGUE

Columbus, O., April 11.—Uniform response to the appeals for more co-operation in part of the United States in World affairs, including President Harding's proposal that the United States enter the world court as well as other activities of the League of Nations, is evidence that the tide has "turned" according to Henry Atkinson, New York City, secretary of the Church Peace Union, who numbers among the speakers scheduled to address the state-wide conference to be held here next Monday and Tuesday, at the First Congregational Church, under the auspices of the Ohio Council of Churches, it was announced here today.

The conference here next week will be one of a series of more than 45 to be held throughout the United States.

BRITISH OUTNUMBERED

Sir Samuel's figures disclosed that at the end of the war Great Britain had 3,300 service aeroplanes, while France had 3,600. At the present time Great Britain has only 371 first-line aeroplanes, of which only 60 are available for home defence, while France has 1,260 first-line planes, of which 950 are available for home defence.

The British are an unimaginative people, but such startling figures as these don't require a great deal of imagination, and there is a loud cry for a stronger air defence. It is a easy matter to picture hundreds of French aeroplanes swarming over the clouded English Channel and working ruin and havoc on England, with almost entire impunity.

DISPARITY TOO GREAT

Sir Samuel is again authority for the fact that last year there were 29 semi-military machines built in Great Britain as against 3,300 in France. France employed 9,250 men in her aircraft factories while only 2,500 were engaged in British aircraft industries.

"No doubt there is a great difference between the French and British positions," Sir Samuel said. "The French have a long land frontier to defend."

"Even so, the disparity is overwhelming, and the question must arise if one European Power has so big an Air Force and another so small an Air Force, which is right?"

A One-Power standard Air force for Great Britain would mean an increase in present expenditures of more than \$25,000,000 this year, and in order to keep pace with the programmes of other Powers there would have to be an eventual increase of \$85,000,000 annually over present estimates.

In the light of these facts in view of waves of British "air nerves" and in view of the general European situation it is so easy to predict that before many months Great Britain will urge an air armament limitation convention.

SHOCK PROVES FATAL.

Milledburg, O., April 11.—Mrs. A. J. Randles, 45, died from paralysis, brought on, it was believed, by the shock of seeing an automobile driven by her son figure in a collision. The son, who was injured, has not been told of his mother's death.

Take Salts to Flush Kidneys if Bladder Bothers or Back Hurts

Eating too much rich food may produce kidney trouble in some form, says a well-known authority, because the acids created excite the kidneys. Then they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region, rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, begin drinking lots of good water and also get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush clogged kidneys and stimulate them to activity; also to neutralize the acids in the system so that they no longer irritate, thus often relieving bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to help keep the kidneys and urinary organs clean, thus often avoiding serious kidney disorders. By all means have your physician examine your kidneys at least twice a year.

DONAHEY UNABLE TO NAME SUCCESSOR TO LEON C. HERRICK

Columbus, April 11.—State Highway Director Herrick's refusal to accept Governor Donahey's demand for his resignation ties the hands of the chief executive, so far as appointing a new highway director is concerned, it was said yesterday.

It was pointed out in discussions of the controversy between Mr. Herrick and the governor that the office of the highway director is a constitutional one, created under the Davis reorganization code, and the appointment is for a specific term. The director can be removed only by impeachment before the senate, the law stipulates, or by petition signed by 6 per cent of the electors of the state.

It is admitted however that the governor can tie Mr. Herrick's hands by refusing to approve contracts for road construction. They say the reorganization code is the most far-reaching law in force in the state and that the governor practically can block the entire road system as well as other departments of the state government by refusing to give his approval to a project.

SIMPLE LIFE IS CULT'S SLOGAN

Paris April 10.—In the same great forest of Fontainebleau, where Francis I. hunted more than 400 years ago, has risen a curious mystic temple which harbors a little group of followers of the Greek philosopher Gurdjieff, the founder of similar groups at Constantinople and London.

It is the home of the simple life, an institute for the harmonic development of man. The general programme comprises the harmonic rhythmic study of the arts, trades and languages. At the same time there is profound study of man and the universe in all their mutual relations.

"Everybody works. There are no servants. It is like a large family of Iroquois Indians in a 'long tent,' only the 'tent' in this case is nothing short of a handsome chateau, the property of Madame Labori. There are fine gardens, which produce enough vegetable stuff for the tables, and there are chickens, pigs, rabbits sleep and cows in abundance. All the food is grown on the land. This is part of the system, which concerns itself with the physical as well as the psychic.

In the group of "inhabitants" are to be found representatives of all the

intellectual aristocracy—painters and poets, engineers and chemists. There are whole families, with their children, rich as well as poor. There is no question of money. "Liberte egalite et fraternite" reign here.

In the morning the work hums; the women do the housework in the chateau and the men work in the gardens. Women, who like to work in the open air are encouraged to do it. Good health is one of the aims, and fresh air is the rule. Hands must be kept soft and fair, so everyone wears gloves, even the men.

In the afternoon walks are taken under the great beeches, which, if they could speak, would tell many an interesting tale, no doubt. Or there is study in the little pavilion of electrotherapy and special exercises for developing the memory, will-power, attention and perception, together with gymnastic exercises, applied according to the needs.

Oriental rugs, precious hangings, fur cushions and artistic furnishings of every kind make the reading salon resemble a corner in the Sultan's palace. In the center is a sparkling fountain and around it little jets of perfume, which change color as they change odor.

"Here," said Monsieur Gurdjieff, "is where we gather in the evening, everyone dressed in simple white robes and sandals. There is quiet meditation and reading, rhythmic exercises which prepare for the ritual fakirs and dervishes."

From a little lodge, hung with thick rugs from the Orient and piled high with cushions, the leader sees all without being seen. It is he who reads and instructs upon all subjects—the science of poisons, hypnotism, magic and sacred arts of the ancient Greeks. The director assures the visitors that he is not searching for the mysterious but only the perfect, harmonious life. However, a day spent among this "mystic" family, in the heart of the great forest, gives one the impression that he has just stepped into a tale of the "Arabian Nights."

ENGLISH COURT DIGNIFIED, BUT HAS WIT FLAIR

Kansas City, Mo., April 11.—Life for unnecessary on London newspapers. The court reporters do the funny stuff.

Although the English courts are supposed to be the acme of dignity, and are surrounded with a great deal of flummery, including wigs and gowns and such, there are occasions when one begins to suspect that the courts are to put the vaudeville houses out of business.

There are several famous humorists connected with the English courts but perhaps the best known is Mr. Justice Darling, who is looked upon as one of England's premier wits.

Justice Darling was presiding in a Kent Circuit Court when a witness testified that he went "to the Elephant Inn to telephone."

Upholds Reputation
"Ah! a trunk call," interposed the Justice, and the courtroom tittered. That was Justice Darling living up to his reputation.

Justice Darling is the senior Judge of the Circuit Division and has been 26 years on the bench, but still, at the age of 73, he sparkles with humor, according to the English standards. He is a man of encyclopaedic knowledge, a profound scholar, a poet, an accomplished linguist and a philosopher. He has been bitterly criticized because of his attitude in the courts and has been accused of being flip-pant and foolish, but still he goes on his joking way.

Proponents of Justice Darling's wit claim that he makes use of wit to concentrate attention on vital points and to put irrelevancies to confusion.

Some of His Best Ones
Here are just a few of Justice Darling's best jokes:

Counsel in an engineering case: "This valve was worked by a spring, but your lordship knows a spring will not last long."

Justice Darling: "Yes, for I have read 'Ver non semper vires' (Springtime is short)."

During a trial at Bristol a solicitor stated that unsuccessful efforts had been made to find a man named Little.

"It still remains true that we want but little here below," interposed Justice Darling.

These are just a few instances of Justice Darling's quips, but he does not have the said entirely to himself. Witnesses in many cases supply as sharp humor and their remarks are always recorded at length in the press. In the face of this opposition English vaudeville artists must despair.

HIT BY MOTOR CAR. MAN WILL NOT SUE

Lincoln, Neb., April 11.—"Recent not evil."

This saying, which Tolstoi asserted was the epitome of Christian teaching, was strikingly illustrated by Henry Fishbach, head of a Beatrice, Neb., commission house. Fishbach was struck down and seriously injured by Turner Teft, a young traveling salesman, who hit him at a street intersection in Norfolk while driving his car at a speed alleged to have been forty-six miles an hour. Teft goes on trial there soon on a charge of reckless driving.

Fishbach, while suffering intense pain from internal injuries in an Omaha hospital and with his right leg amputated as a result of the accident was visited by Teft. Teft expressed his sorrow for the accident. Fishbach did not rebuke him but said:

"You are a young man just starting out in life, while I have practically lived mine. If I should not recover you would be placed in a situation of trouble that will affect, perhaps, all your future happiness. Only my recovery can save you from facing a criminal charge and I am determined to fight for my life for your sake."

Shortly afterward Fishbach became unconscious and for days hovered between life and death. He finally recovered and is now able to hobble around on crutches.

Fishbach has no intention of prosecuting Teft. He has completely forgiven the young man. He hopes however that this tragic experience will be a lesson to drivers generally who are tempted to drive too fast.

HAWAII IMPROVES ALLIGATOR PEARS

Honolulu, April 11.—The avocado or alligator pear, now listed on the menus of only a few of the exclusive big hotels in America, at prices which make it a distinct luxury, will become a far more common edible if a plan suggested by Willis T. Pope of the Federal Agricultural Station here is adopted. The Hawaiian soil and climate are especially suited to the growing of this fruit and in Honolulu good alligator pears can be obtained at all seasons at little more than 5 cents each. There has been no extensive growing of this crop here, however. All must be consumed locally because of the strict quarantine regulations enforced on the Pacific coast to keep out the dreaded fruit fly.

Pope declares that the Guatemalan hard-shelled alligator pear is not only fruit fly proof but has so improved on the original stock since being brought to Hawaii that it is one of the richest of foods. Either New York or San Francisco alone, he says, would absorb all the yield of even 1,000 acres of the fruit. The fruit keeps perfectly for a month at normal temperatures and in cold storage for three months, so that it might be sent via the Panama Canal to New York, where there is no quarantine. Pope believes that there is room in Hawaii for 30,000 small farmers on lands which are not suitable for the raising of sugar and pineapples but which might be used in producing alligator pears and vegetables.

BOLD CHICAGO GIRLS FOILED IN 'HIKE' TO COAST

Los Angeles, April 11.—A story of three Chicago maidens, still in their teens, in that metropolis was a hum-drum, monotonous affair. The dances, other amusements, and even the well-groomed youngsters who had occasionally escorted these sophisticated young misses on frolicsome ventures in the bustling Illinois city ceased to interest them in the slightest degree.

The trio—Myrtle Kruger, Mary B. Lough and Susie Ruis—were fast friends. They had lived in Chicago all their 18 years. Their venturesome souls sought excitement, and they decided to "chuck it all" and make a transcontinental hike to "Sunny" California.

Started With \$45 Fund
Pooling their finances, the girls' fund totalled \$45. According to Myrtle—or "Bob," as her companions refer to her—the adventures hiked south from Chicago their first three days on the road. Their wardrobe consisted of khaki shirts, tight-fitting knickerbockers, canvas shoes and caps. They slept in haystacks, cowsheds or deserted buildings.

"Bob" further related that Mary, Susie and she decided that "hiking" was far too slow a mode of travel. On the fourth day of the hike the girls clamored aboard a freight train. "A refrigerator car was our beauty parlor," Myrtle explained. "We were just a few miles distant from Kansas City when it was decided by my companions that my hair should be bobbed for safety's sake and they cut my hair."

Their Trip Intercepted
When the bold and beautiful maidens reached North Kansas City terminal authorities frustrated their plans for "excitement" and a hasty trip to the Pacific Coast. They were placed in the custody of a Y. W. C. A. matron.

Back in Chicago frantic parents were overjoyed when they received telegrams from the matron advising them of their children's whereabouts. Then it was but a short time until the matron received telegrams from Chicago, each of them contained instructions to care for their "wandering" child until someone arrived to see that the trio was returned to "dear" Chicago.

"Dear!" said "Bob."
"Gee, whiz, somebody's always taking the joy out of life!" ruminated Mary.

"Yeh that's life," said Susie.

ENGLISH WOMEN TAKE UP ROWING

BY ETHEL MARSHALL.

London, April 11.—Before long England will have its varsity boat race for women to rival the annual Oxford-Cambridge race.

Women's rowing clubs are springing up everywhere in the neighborhood of London and in the riverside villages.

"There is no finer exercise for the average healthy girl, provided, of course that she doesn't overdo it," said Miss Radley, secretary of the Cecil Ladies' Rowing Club.

"Bracing as it is one need not be surprised to find that the doctors recommend rowing in the case of the girl who needs fairly vigorous exercise, though it is only the really strong girl who should go in for racing."

"We have several girls training for the musical profession who find that rowing is of great advantage to them, because it teaches them how to breathe properly. Proper breathing is as essential in rowing as in singing."

Despite Miss Radley's praise for rowing as womanly exercise there is severe criticism of the woman who takes up this form of sport from other quarters. Many doctors claim it is too strenuous for women.

The rowing costume which has been adopted has created a mild storm, too, though not as violent a storm as the attempt to introduce knickerbockers, such as worn in America, into the female golf costume.

The rowing costume of the Cecil Club is officially described as follows: "A pale blue sweater, navy blue shorts (running trunks), navy blue and cream blazer with blue edging."

RUM SERVED TARS FIGHTING BLIZZARD

London, April 11.—Humorists are how rum, served piping hot in pannikins, was an important item of refreshment to members of the crew of the British steamer Berengar during a terrific hurricane in the North Atlantic was told recently at the local harbor by Captain T. B. Donister, of the vessel. Captain Donister prefaced his remarks by an emphatic opinion that prohibition should have no place on sea-going ships.

"We were on our way from New-castle, England," he said, "and ran into a terrific hurricane which swept our decks with heavy seas, washing away a lifeboat and the auxiliary steering gear on the poop deck. The ventilating funnels were smashed, leaving water free to pour in through them in the crew's quarters engine room and threatening to sink the ship. A call was made for volunteers to rig up a line to the forward well and using that as a life-line the crew worked all day nailing plank over the opening of the ventilators."

"It was bitter cold and the work of the men was continually being hampered by the heavy waves. Hot rum was served to them at short intervals to help fortify them against the weather."

INTERNAL SITUATION IN RUSSIA IS PUZZLING

With Premier Nikolai Lenin in a critical condition, unlikely ever to recover sufficiently to handle the reins of the Russian Soviet Government, the political situation there is puzzling. One report has it that Leon Trotsky, who used to edit a little revolutionary newspaper in New York

and who is now Minister of War, will assume a military dictatorship of the country, while another declares that M. Leo Kamenef, Lenin's right-hand man and President of the Council of Ministers, already has been selected to take over the government.

Reparation's Question Root of Europe's Trouble

Editor's Note:—This is the third of a series of analytical articles upon conditions in Europe, written after a tour of the continent when the situation was studied at first hand.

BY DAVID M. CHURCH.

London, April 11.—Money may not be the root of all European evils, but money is entwined around the root of the evils.

Europe's tranquility for many a long day is going to be disturbed by the question of money. The greatest single disturbing element in Europe today, at least upon the surface of things—is the question of reparations.

But even if this question is settled satisfactorily to all concerned, the end of Europe's money evils will not be in sight.

The war debts are going to prove a considerable barrier to a return to normalcy for some time to come, perhaps until they are definitely settled—if they are ever settled.

It was recognition of this fact that was the biggest element in Britain's acceptance of America's debt funding terms.

British statesmen realized that there could be no smooth relations between the United States and Great Britain while debts remained unpaid; therefore the British government agreed to the American terms of payment of its debts—terms which the British did not want to accept and which they had hoped would be easier.

There are billions of dollars in war debts kicking around Europe, and until these debts are crossed off the books by payment or by agreed cancellations there will be constant bickerings between nations. Great Britain is the biggest creditor. Up to the present she has made no strenuous efforts to collect her debts, but she has dropped a gentle hint or two.

Britain may certainly be expected to make a vigorous demand for payment from France if the French realize their hopes in obtaining large sums of reparations through Ruhr occupation. If Great Britain makes such a demand the present indications are that the French answer will not be a soft one; at least, it will not be an answer that will increase Anglo-French cordiality.

Another question fraught with possibilities is distribution of whatever proceeds may come from the Franco-Belgian venture in the Ruhr. Will all the allies share equally? If they do not, the resulting situation will be one demanding masterly diplomacy. Up to the present, the unpaid creditors have restrained themselves admirably although there is no denying that policy has been influenced somewhat by the knowledge that certain debtors have made no effort to pay. How long this restraint will last is a question.

Debts are a thorn in the side of Europe while post war abnormality prevails, but debts will become a

bone of contention if pre war normalcy returns.

Debts are not the only element in the money evil in Europe. There are involved questions of exchange and credits which must be worked out before the situation is once more labelled "normal."

HONOLULU MAY DECIDE WHEN CAMEL IS WILD

Honolulu, T. H., April 11.—When is a camel wild? That is the question which recently agitated officials here to the accompanying tune of \$250. It will have to be paid as a tax to the Federal government by the city and county of Honolulu if it is decided that the three "wild" animals which are subject of the tax controversy were domesticated until they came to Honolulu to appear in a Shriners' parade and later, as gifts from the local temple, to grace the Zoo in Kaplanani Park. The same amount will have to be paid into the Federal Treasury through Harry E. Murray, Collector of Customs at this port, by Aloha Temple, of the Mystic Shrine, if it is proved that the three "ships of the desert" and proposed "new national pets, broken to labor and domesticated in their own country, were wild some time before leaving the scene of their domestication and coming to Honolulu."

WILD ONES UNTAXED

The watchful government distinguishes between wild and domestic animals when it comes to obtaining revenue from them. The wild ones get in free, but it costs the domesticated beasts 10 per cent of their valuation to leave their respective native habitats to be curiosities in the United States or its possessions.

Mayor Wilson, of Honolulu insists the animals are wild and as such are not subject to taxation. Inspector Murray, himself a prominent member of Aloha Temple—bearing in mind that, following the Shriners' Parade the Mayor actually rode around town on one of the beasts in the triumphal procession to the Zoo, after the presentation of the animals to the city—insists they are domesticated.

NO COMMERCIAL AIM

Mayor Wilson addressed a letter to the Treasury Department calling attention to the fact that the animals are not here for any commercial purpose whatsoever. The Treasury Department replied that if the Mayor can prove that the animals were not domesticated before coming to Honolulu "the claim will be given due consideration."

The Mayor insists they were wild when they arrived and are still that way. In the meantime Honoluluans who preserved newspaper clippings of photographs of the city fathers—i. e. Supervisors and Aldermen—riding the aforesaid wild animals, are chuckling.

NEVER BEFORE GAVE MONEY A THOUGHT, SHE CONFESSES

Denver, April 11.—Margaret Tobin Brown—"the unsinkable Mrs. Brown"—as she is widely known—just cannot adjust her expenditures to court restraint and the curb placed upon her extravagant outlays is "extremely irksome," she complains.

Mrs. Brown, widow of the late Jas. J. Brown, reputed wealthy mining man of Colorado and Arizona, gained international fame as one of the great spenders of Newport, Paris and Riviera resorts.

Brown died without leaving a will, and, because of the objection of her two children—Lawrence P. Brown, of La Jolla, California, and Mrs. Helen Brown Benziger of Hempstead, Long Island—to her appointment as sole administrator of the estate, she was made co-administrator with the public administrator of Denver.

Only a preliminary inventory of the estate has been made, and under the Colorado law, Mrs. Brown has been allowed but \$2,000 in the last three months from the property. All her applications for funds are supervised and regulated by Judge George A. Luxford of the Denver County Court and Mrs. Brown, who has "never given money a thought" in her long social career is having considerable worry in maintaining her palatial suite, with a large retinue of servants, at a local hotel.

"Why," she says, "there is \$75,000 in cash right here in Denver banks, and I can't touch a cent of it without the Court's permission!"

"There are many needs for money," Mrs. Brown says, enumerating an economist, who reads her the latest books; three tutors to enable her to keep up her Italian, French and German; a music teacher, several private waiters—not to mention the premiums on her \$750,000 life insurance.

Mrs. Brown has enlisted the aid of United States Senator Lawrence C. Phipps, of Colorado, in her aspirations to become a member of the United States embassy staff at the Court of St. James in London.

She has met in her 20 years of traveling, she says, all the important men and women of the world and feels that she would lend much dignity to the American embassy in London, if she were appointed as an under secretary.

"I can truly say," Mrs. Brown declared, "that I know everyone worth while from Moscow to the Bosphorus and from Washington to Tokio."

Mrs. Brown became known as "the unsinkable," when she survived the Titanic disaster, after heroically assisting in the rescue of women and children.

MAN'S TROUBLE ARRESTED

"The past 4 years I have been going down, down, down with catarrh of the stomach and had to give up work a year ago because of my weakened condition. I suffered terribly from bloating and colic attacks. May's Wonderful Remedy was recommended to me. I took a course of it and am now feeling fine." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

Sold by Sayre and Hemphill and druggists everywhere.

DURING FARMERS' BUSY SEASON

During the next few weeks the office of the Gazette and Republican will remain open Saturday evenings until nine o'clock, to accommodate any who are not able to get in during the week.

MRS. CORA ILIFF CALLED BY DEATH

Mrs. Cora Ann Iliff, 85, died Tuesday evening at 7:40 o'clock, at the home of her son, George Iliff, at Clifton. She is survived by four daughters, Mrs. A. S. Bowen and Mrs. Sarah Wing, of Clifton; Mrs. Jessie Baker, Kansas; Mrs. Edith Randall, Cedarville; a son, George Iliff, Clifton, and a stepson, John Iliff, of the Knights of Pythias Home, Springfield. She also leaves 15 grandchildren, and 13 great-grandchildren.

Funeral arrangements have not been completed.

PARISIAN PLAYS TOO MILD FOR NEW YORK

Paris, April 11.—French plays are entirely too mild for New York, and do not provide even a thrill for the sophisticated American.

Avery Hoagwood today denied that he intended taking back to New York the Parisian play, "What Did You Do That To Me For?" saying:

"Parisian plays are too mild. They are mid-Victorian in comparison with the New York plays. I can't get a kick out of a single revue now running in Paris."

TURKEYS TO BE USED TO ELIMINATE BUGS

Saskatoon, Sask., April 11.—Fire and poison having failed, turkeys are to be used this year to exterminate grasshoppers, the plague of the Western grain fields.

Herbert Dempsey of Young today announced his intention of breeding 2000 birds this season. He figures that his flock working 90 days should take a toll of 45,000,000 insects.

PENFIELD RESIGNED TO LONG TERM IN PRISON

Defaulting Cashier Draws Sentence of 21 Years at Atlanta

Cincinnati, O., April 11.—Twenty-one years in the United States prison at Atlanta, Ga., await Augustus H. Penfield, sentenced late yesterday after he had pleaded guilty of embezzlements totalling almost a million dollars, from the Springfield, (Ohio), National Bank.

Although the sentence, imposed by District Judge Smith Hickenlooper, after the former cashier testified before the Federal Grand Jury as to details of his ten years of fiscal juggling, was one of the most severe every pronounced in the southern Ohio district, the prisoner appeared to accept it with relief and resignation.

Penfield could have been subjected to heavier penalties, as there were 12 counts against him and his plea covered the first seven, the others being duplicated in effect. After his arraignment yesterday, it was thought that sentence would be delayed for several days, and this was said to mean that he would be taken before the Grand Jury to expose his confederates, if any.

The cashier testified at length, but his statement failed to reveal anything that could be used against others, according to reports current after the secret session. Instead, he signed statement, given out in full, dwelt in exhaustive detail upon the methods whereby he "kept up the bluff," for a decade while sinking deeper and deeper into a debt that finally totalled \$977,233.50.

Penfield's statement, as made public, included a number of dashes and blanks at points whence officials had deleted the names of brokers stock salesmen and others through whom the embezzler dealt in his speculations in stocks and wheat. These deletions were made, it was said, to protect innocent persons from the effects of unjust inferences that might arise from publication. The manner in which Penfield received his sentence would have done credit to a veteran gambler of the old school. Not the slightest flinching, mental or physical did he betray.

His eyes never flickered as he gazed at Judge Hickenlooper, his "poker face" registering merely expectant interest, and only a trace at that. When the judge finished, the banker bowed his head slightly in token of acquiescence, turned to Marshal Starny Borthwick and followed him from the room.

Penfield's statement, signed after his appearance before the Grand Jury, paralleled in many ways the one made soon after his arrest to A.

A. H. Penfield, em.

B. Paris, of Cincinnati, the national bank examiner, who uncovered the shortage and closed the Springfield National March 8, the day Penfield tried to end his life by slashing his wrists. The statement made to Mr. Paris was made public last night.

Both confessions dwell on the methods used, but are complex, in terminology and convey little definite information to any save banking experts. These are, however, paraphrases that stand out eloquently in spite of their bluntness. One reads:

"If I had not followed the advice of Mr., of Columbus, I would have come out all right and would have had something left over. This man gives speculators good advice."

Another terse statement follows:

"I don't know of anyone else having received any benefit from my manipulations. I never profited in any way."

SEEKS NEW DANCING RECORD
Cleveland, April 11.—After more than twenty hours continuous dancing, Miss Helene Mayer, department store clerk and her partner, Robert Williams, were apparently fresh and going strong at Conklin's Dancing Academy here today. They started dancing at 9:35 yesterday morning in an attempt to elapse the record of 58 hours and two minutes established by Miss Alma Cummings of Texas, in New York Monday.

The housekeeper who can make a light soufflé is never at a loss to know what to serve for a "company" luncheon or supper. Here are "just how" directions:

A Soufflé That Serves Four People: Make a thick white sauce as follows: Heat one cup of sweet milk in a small saucepan and, when scalding hot (do not let it boil), add to it three level tablespoons of flour which you have mixed to a paste with four tablespoons of cold water. Stir till the milk thickens, then add one-half teaspoon of salt and two level tablespoons of butter. Remove from fire and cool slightly. Then stir into the sauce the beaten yolks of three eggs. Your next step is to measure out one cupful of any kind of vegetable. For instance, use one cupful of cooked, tender asparagus cut small, or one cup of the more solid parts of tomatoes cut small, or one cup of left-over mashed potato.

After adding this vegetable to the sauce, fold into it the stiffly beaten whites of three eggs. Then turn all into a buttered baking dish. The baking dish which I use for this recipe is a glass one which measures six inches across the bottom and has flaring sides so that the dish measures five inches across the top. The sides are three inches high. Before you bake the soufflé it will fill a dish of this size only one-third full. But after baking, the soufflé will rise so that the dish is two-thirds full.

In baking, the dish containing the soufflé must stand in a pan of hot water. I use a round layer-cake pan filled as full as possible of hot water. Bake the soufflé for 40 minutes in a moderate oven. If you use a Fahrenheit oven thermometer, do not have the temperature of the oven above 400—it is better at 350. If you use a Centigrade thermometer, have your oven heat from 177 degrees to 204 degrees. Tomorrow—Have You Tried Graining Your Painted Floors?

MR. GEORGE CROSS, Columbus, O.

Well-Known and Popular Mission Worker in Columbus, Pays Fine Tribute to Ka-di-ok.

Mr. George Cross, an old-time resident of Columbus, living at 1165 North Pearl Street, whose occupation is that of a carpenter, and who is well known to hundreds of people by reason of his activities in mission work, gratefully acknowledges the merits of Ka-di-ok. He says: "Ka-di-ok is a remedy of great merit and I am pleased to publicly acknowledge it, as it may influence others to try it who may be suffering as I did. I had stomach and kidney trouble for a long time—years, in fact—and I was in a very nervous condition; had no appetite and was very restless and sleepless at night. I had become very weak and barely had strength or ambition enough to get around and take care of things. I have taken a few bottles of Ka-di-ok and am now feeling fine. My appetite is very good and I sleep well; have no more pains in my back and have gained a great deal of strength. My experience with Ka-di-ok is very gratifying, indeed, and I shall always use it if I have any further sickness of this nature."

Ka-di-ok can be obtained at Sayre & Hemphill's Drug Store, Xenia.

SEEK TO CLASSIFY PICTURES SHOWN ON SCREEN FOR CHILDREN

"Moving pictures have undoubtedly come to stay. Under the present conditions and laws, they cannot be suppressed, consequently they should be controlled and used for the best that is possible."

The above statement was made by County Superintendent of Schools H. C. Aultman, when asked concerning his connection with the State Board of Film Censorship.

The Board, now besides censoring pictures is endeavoring to classify them into groups suitable for the family, the High School and the children. Mr. Aultman continued, "This classification is forwarded over the state each week. Quite a few of the High Schools are availing themselves of the opportunity to have a movie presentation of the stories, literary and semi-historical, by having teachers personally conduct parties of students, to these portrayals."

"A number of very interesting shows have been put on at our local theaters," Mr. Aultman said. "Bookings show a number of interesting titles that might be given careful consideration."

Suggestions along the line of improvement in opportunities for the best use of film productions will be gladly received, according to Mr. Aultman and forwarded to those who have the responsibility for this feature of education.

DIES LATE TUESDAY

Mrs. Angelina Hunter died at the home of her son, Charles Hunter, at Columbus and Market Streets, Tuesday night at eight o'clock, death resulting from the infirmities of age. Several other children survive.

The body was taken in charge by a local undertaker and will be taken to Wilmington for burial. Mrs. Hunter was a former resident of Clinton County.

Do You Remember Some Reminiscences of Xenia's Past

When there was a flight of wide, wooden steps at the Pennsylvania Railroad crossing on South Detroit street near the Eavey Wholesale Grocery Company, where now there is only an inclined cement walk?

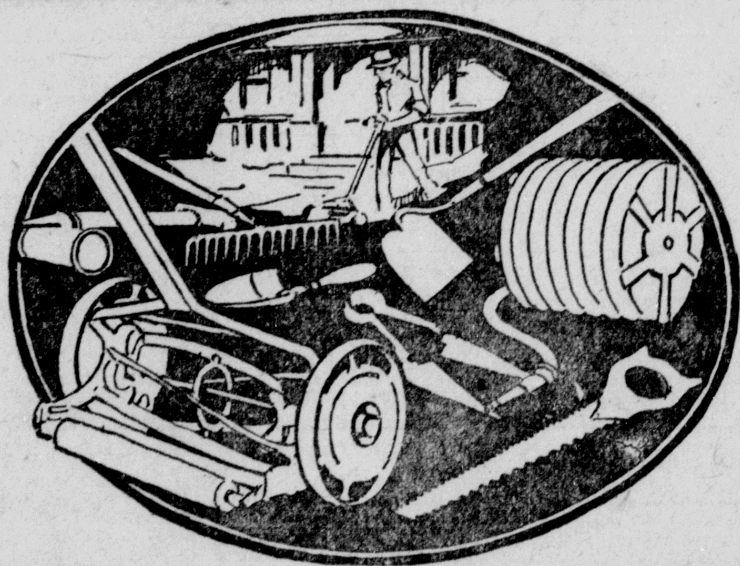

When Xenia's Police Department had a "Black Maria" and driver in which culprits were brought to the station house?

When practical jokers placed signs in the deep puddles in South Detroit Street, near Main long before the Street was paved?

When the "Star" nickelodeon operated a pioneer motion picture show on East Main Street in the room now occupied by the City Market Company?

SUSPECTS HELD.

Lima, O., April 11.—Five men and a woman are under arrest here on charges of robbery. Police are of the opinion that they are responsible for several burglaries here recently. Dynamite and other explosives were seized.

Napoleon's Watch Is Owned In New York

Miss Katherine Finn

Miss Katherine Finn, of New York, is shown here with a watch that belonged to Napoleon, which has been in her family for 100 years. It was presented by the Emperor to Miss Finn's great-grandfather, Henry Vogt, who saved the "Little Corporal" from serious injury and possible death when Napoleon's horse

APPEAL FOR AID IS GIVEN READY RESPONSE

"It pays to advertise," workers of the Social Service League often learn the truth of the saying, with incidents similar to that cited by Mrs. Carrie I. Robertson, Wednesday.

Last week Mrs. Robertson advertised for a washing machine for a woman with a large family, and received a double response, one machine being received from Yellow Springs, the owners paying the freight to this city. Both machines were given to women with large families, who were compelled to work for a living.

In answer to a request made by a woman with five children, three under four years of age, whose husband was killed in an accident, a short time ago, the league is making an appeal for a baby buggy. Anyone having a buggy to donate is asked to call league headquarters.

FARM BUREAU WILL GIVE OUT GARDEN SEEDS

Through Congressman Charles Brand of Urbana, the Greene County Farm Bureau, has received a large quantity of garden seeds, for distribution.

Those who desire the seeds are asked to call or write the Farm Bureau office, and the seeds will be mailed to them free of charge. The seeds are for residents of the entire county.

REPRISALS THREATENED.

Berlin, April 11.—The word "reprisals" was dropped spontaneously in German cabinet circles in connection with the arrest by the French of Secretary of State Hamm, who was taken from the train at Scharnhorst at the same time Hugo Stinnes was arrested. The latter was released later. Hamm was the official commissioner from Chancellor Cuno to represent the German government at the funeral of the 13 Krupp workers at Essen.

A PURITAN WIFE

By Jane Phelps

CHAPTER LXI

Dick was planning to go to San Bernardino. Grace had declared she would wait no longer for the payment of their wages. Ann called Bessie. She said:

"Bessie, Dick and Grace are planning a day in town. Why can't you and Ned go, too? Take your car, and then we can all go. Can you arrange it?"

"You say Grace and Dick are going? She hasn't said a word about it."

"Yes, she won a silly wager with him, and he has to take her in payment. And I thought—"

"Of course we'll go! It will do Ned and me both good. What time shall we come over?"

"Early. Dick is planning to start about 9 o'clock. You can bring Grace—and, Bessie—I'd rather she and Dick would think it your idea."

"I understand. We'll be on hand a little before nine."

"Ann said nothing to Dick until after dinner. Grace had been over for a little while in the afternoon, but had not remained when she found Ann helping Dick wrap young lemon trees."

Dick lighted his pipe and leaned back with a sigh of contentment. Then as he watched the smoke curl lazily toward the ceiling, he remarked:

"That's a good job done, Ann. It would have taken me almost twice as long but for your help."

"It was fun helping! And we're tired enough to sleep well. We will have to be up with the chickens to get ready to go—oh, Bess and Ned are going, too. They're going to take their car, and we'll all make a day of it."

"Fine and dandy! When did you hear?"

"This morning. She said it would do both her and Ned good to get away for the day. We can do a little shopping, then go to a movie or something."

Not a word about Grace! Ann felt a bit guilty that she had made it appear the suggestion came from Bessie. But she also felt that did he know it, came from her he would at once fathom her design—her determination that Grace should not be alone with him. Grace was bound to suspect her anyway, but she cared nothing for that.

When Ned drove up in the morning, Grace at once jumped out of the car and ran to the flivver, and called: "You ride with Ned and Bess, Ann."

Tomorrow—Dick Disappears

Don't make the mistake of of thinking that your 12 year old boy

is not a judge of values. A boy at that age went to a bank and asked to see the President—

"What do you want to see him for?" asked one of the clerks, and back came this reply, "If he looks honest to me I'm going to leave this dollar here."

We must look awfully honest to the boys and our suits must look like awfully real values for we have lots of little customers who buy their own suits with their own hard earned money—and many times they come without their mothers too.

Even a boy is safe here—the only advantage we take is to please him—body and bank-book.

Boys' Suits, with 2 pair Pants, \$12.50 to \$20
Single Pants Suits, \$10.00 to \$15
Boys' Spring Topcoats \$4.00 to \$7.50

GOVERNMENT IS NOW IN FIGHT FOR EXISTENCE

Seek Vote of Confidence
In Motion Introduced
to House

LIKELY TO RESIGN

Unless Approval Given It
Is Believed Members
Will Quit

London, April 11.—Disorders of such violence as to compel an hour's suspension broke out in the House of Commons this afternoon during debate on the governments defeat on a technical motion last night. Laborite members stormed and shouted at their opponents. The noise was so great that speakers could not be heard. Finally J. H. Whitley ordered an hour's recess, so that order could be restored.

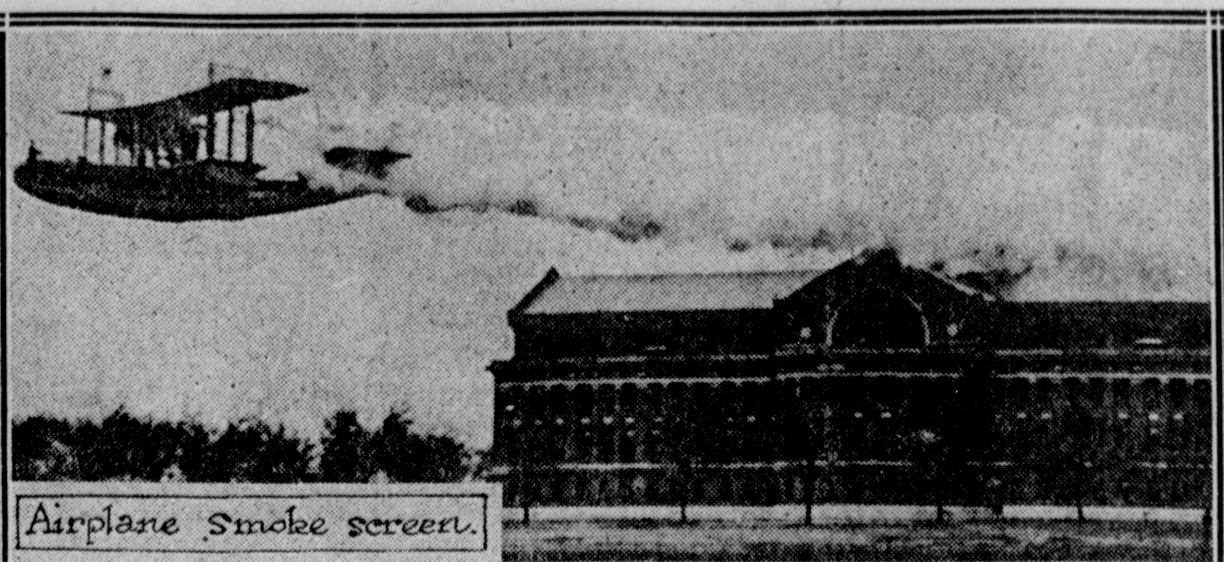

London, April 11.—The Tory government of Premier A. Bonar Law today began a fight for its life.

After a consultation of cabinet members the premier announced that the same motion upon which the government was defeated in commons last night by seven votes would be submitted again tomorrow in the form of a motion of confidence in the government. If the motion fails it is expected the cabinet will resign.

This will be the first actual vote on confidence or no confidence in the cabinet since parliament convened after the Easter recess. In view of the activity of government whips it is almost certain that the government will be sustained.

Cabinet members are attempting to ignore the defeat of last night, but all sections of the press admit that the position of the Tory government has been weakened. The vote last night was in connection with civil service appropriations.

AIRPLANES WILL VEIL TROOPS WITH SMOKE

Airplane Smoke screen.

Maneuvers of troops close to the front lines, in future wars, will be conducted behind dense smoke screens laid 100 feet or

more above the earth by airplanes. Experiments with smoke screens laid by planes have been conducted under the auspices of

the Navy Department, as well as under Army supervision, with successful results. The above photograph shows an airplane laying down a smoke screen.

SHERIFF HAS PROBLEM TO MATHEMATICS; MUST SELL HALF OF AUTO

Tiffin, O., April 11.—Sheriff Joseph Parks has a problem in mathematics. He is under court order to sell the undivided one half of a roadster, title to which rests jointly in Mr. and Mrs. Samuel P. Croft, of Fostoria. The car was levied upon by a man with a judgment against Croft, but the wife's share cannot be sold, legal authorities say.

WOULD BAR LUDWIG MARTENS EX-AMBASSADOR FROM U. S.

Reports Reach This Country That Deported Aliens are Trying to Get Into America for Speech-making Tour.

Washington, April 11.—Following the revocation by Secretary of State Hughes of his permission for Madame Kalinin, wife of the president of Russia, to enter this country for a speechmaking tour in the interests of the Russian Red Cross, renewed demands were made on the State Department today for an order barring Ludwig C. A. K. Martens, former soviet ambassador and his understudy, Gregory Weinstein from the United States.

Reports have reached Secretary of Labor Davis that these Russian emissaries, after being once deported from this country, are now trying to get in again; and orders have been issued to all immigration officials to arrest them on sight so they may be held for passage on the first outbound steamship.

Unappeased by these precautions, however, patriotic organizations which urged the cancellation of Mme. Kalinin's passport have asked Secretary Hughes to co-operate with the Labor Department by issuing a formal order refusing permission to Martens and Weinstein to enter the United States. It is pointed out that the issuance of such an order will make it possible for the government to proceed against the unwelcome Russian visitors in the courts and to proceed against the unwelcome Russian visitors in the courts and to send them to federal prison if they should succeed in getting past the immigration officials. This was the treatment accorded about a year ago to Joseph Kowalski, who secretly re-entered the country after being deported.

Cancellation of the Kalinin passport—ordered as a protest against the execution of Vicar General Butchkevitch at Moscow—was regarded today as another indication of the steadfast opposition of President.

SOVIET MISSION SENTENCED TO DIE

Stockholm, April 11.—Ten members of the soviet Russian Reparations Mission to Poland have been sentenced to death, according to a Moscow dispatch to the newspaper Tidningen today. The details were not given. Russian secret police are reported to be making "mass arrests" in connection with the trial of Patriarch Tikhon, of the Orthodox Church, which will begin next Tuesday.

The commissary for agriculture at Moscow admits that Russia is threatened with famine this year fully as serious as that in 1921. Russian newspapers are avoiding the subject in order not to provoke the population.

SCHOOL PLAY IS BEING ANNOUNCED

"Come Out of the Kitchen," a delightful three-act comedy, will be presented as the annual senior class play by students of the class of 1923 of Central High School at City Hall Theater, Thursday and Friday April 19 and 20.

Eleven students take part in the comedy with Miss Helen Hprley and Robert Ballentyne in the leading roles. The cast is being directed by Miss Jean B. Elwell, former head of the English Department, who directed the junior class play given recently. Members of the cast are Misses Helen Hurley, Matilda Bailey, Pauline Ashworth, Grace Jones and Josephine Wolf and Robert Ballentyne, John Wood, Frederick Schell, William Miller, Loren Whittington and Lawrence Tiffany.

MATCHHEAD SET FIRE TO DRESS

Newark, O., April 11.—Orpha McLaughlin, 25, died here from burns received when her little brother ignited a matchhead, which flew across the room, setting fire to her dress and burning her entire body.

PRESIDENT HARDING MAY ABANDON HIS TRIP THROUGH WEST

Controversy Kicked Up in Republican Circles Over Announcement of Candidacy Embarrassing to Chief Executive

Washington, April 11.—The controversy kicked up in high Republican circles over the political wisdom of the Daugherty announcement concerning President Harding's candidacy in 1924 continued unabated today.

In fact, its increasing intensity is manifested by the president's plain threat to abandon his western tour entirely if the newspapers continue to treat the trip as an adjunct to the political campaign of 1924.

Here in Washington as in Florida, the president has found his closest political advisers divided into two opposing camps regarding the announcement and the trip, and as a result of this situation, it can be stated authoritatively that whereas a week ago the trip was a settled thing, today it is not. Those who are opposed to the political methods and strategy of Attorney General Daugherty have informed the president that the announcement of his candidacy at this time, a "extremely unfortunate" and that he cannot escape appearing in the role of a candidate on his trip.

On the other hand there are those high in the councils of the party and high in Mr. Harding's confidence, who believe that the flurry kicked up by the announcement is a "tempest in a teapot," and that its general effect has been good inasmuch as it has clarified the political atmosphere to a point where it is now possible to say what's what in the Republican party. These later advisers of the President take the view that something drastic was necessary to stop the various boomlets that were getting underway so long as Mr. Harding's 1924 plans appeared in doubt and this, they contend, has been accomplished by the move of Attorney General Daugherty.

Caught between these two conflicting schools of opinion within his own ranks, President Harding's embarrassment is apparent to callers, who have seen him since his return to Washington. He cannot disavow his candidacy for 1924 without con-

WOMEN LEADERS DISCUSS COURT ACTION ON LAW

National Voters' League Turns Attention to Wage Act Ruling

ACTIVITY IS EVIDENT

Seek to Avert Effect of Decision On Many Workers

Des Moines, Ia., April 11.—Women leaders of the nation, meeting in the second day of the fourth annual convention of the National League of Women Voters, relegated to secondary place the business of the league and discussed the sweeping decision of the United States Supreme Court that the minimum wage law in the District of Columbia was unconstitutional.

A sub-surface activity is evident. Resolutions on the decision were being considered. Women closely allied with the industrial welfare of the country are conferring in the corridors of the convention hall on ways and means to minimize the depressing effect the Supreme Court decision will have on the morale and standard of living of the worker.

Mary Anderson, chief of the women's bureau of the department of labor was pessimistic as to "the future progress of the country in the light of reactionary decisions of the Supreme Court."

"This decision," he said, "marks the return of America to those days when girls were working for \$3 a week."

"None who know conditions under which women workers existed in those dark days of starvation wages can question the seriousness of this situation."

"We will return to the sweat shop system. Again we will have the horrible working conditions, the underfed working girl, the depletion of the strength of potential mothers."

"This automatic reduction of women's wages cannot but have a depressing effect on men's wages. More children will return to factories that the family may exist."

"Only one remedy presents itself," said Alice K. McFarland, director of the women's work under the Kansas court of industrial relations, "and that is that women organize into trade unions."

PROMINENT MARION RESIDENT IS DEAD

Marion, O., April 11.—Next to President Harding, whose close personal friend he was, Judge Caleb H. Morris, 74, this city's most prominent citizen, died last night at his home here and today the entire city is in mourning.

Morris was not only one of the wealthiest, but one of the most beloved citizens of Marion. Born at Waldo, Marion county, the son of poor parents he rose rapidly in his profession of law, later moving to Marion.

He was elected common pleas judge when less than thirty years of age after serving as prosecutor. He then served two terms on the old circuit court bench. For 25 years he served as a judge, retiring to private life 15 years ago.

In 1880 Norris was the Democratic candidate for congress in the old thirteenth district for many years he was identified with Colonel George B. Christian, father of the president's secretary, in the lime and stone business, in which he amassed a large fortune.

PLAGUE IN INDIA SWEEPING NATION

Calcutta, April 11.—The plague which is sweeping the United provinces in northern India has reached terrible proportions and hundreds are dying daily, according to information received here today from Allahabad. Thousands of inhabitants of the plague ridden districts are in flight.

JAPAN CARRYING OUT ABROGATION

Tokio, April 11.—The formal procedures for the abrogation of the Lansing-Ishii agreement between the United States and Japan are now being carried out by the Japanese cabinet and the privy council, it was learned today.

Official announcement of the abrogation may be expected in Washington and Tokio within a few days.

CHARGED WITH THEFT

Newport, Ky., April 11.—On an affidavit charging embezzlement of \$3,778 from the Covington Loan and Investment Company, of which he formerly was manager, Frank Ashton, 26, was arrested yesterday at the Newport Rolling Mills. He is held pending arrangements for bail.

SCANTILY GLAD PAIR OF "KLANNERS" TOSSED OUT OF AUTO ON CITY STREETS

Cincinnati, April 11.—Soon after a blazing cross was reported in the yards of the Knights of Columbus hall, Price Hill, two "klanners" were tossed from a motor car near the center of Cincinnati last night, clad only in undergarments.

On the back of each was stenciled: "He is a Ku Klux Klanner."

The scantily clad pair, deposited in the view of scores of men and women in front of one of the leading hotels of the city, whence after theater dinners were emerging, hastily tore off their blindfolds, scooted into a taxi-cab and were driven away.

Later two men, giving their names as William L. Miller, 4144 Kirby road, insurance salesman and Erwin J. Burkhardt, 1627 Baymiller street, Standard Oil salesman, appeared at police headquarters and told Detective Lieutenant Eugene Weatherly that they had been kidnapped by five armed men, taken to a remote suburb, undressed, decorated with stencilled legends and unloaded near Fourth and Vine Streets. Clues are lacking but Miller and Burkhardt deny they are klansmen.

FAIL TO LOCATE MISSING AUTOISTS

Miami, Fla., April 11.—The 19 men and five women who plunged into the Everglades early a week ago, expecting to motor through the morasses to Miami, have failed to reach civilization. Nor was any trace of the party found by hundreds of searchers, led by Indian guides. The party of 24 left Fort Meyers last Wednesday expecting to blaze a new auto road across the wilderness to Miami. They expected to reach Miami Thursday. But a storm swept over the Everglades Thursday night, obliterating the trail, an embankment thrown up by swamp dredgers. The anxiety that was allayed Sunday night by a report that the motorists had reached Seminole City, an Indian camp in the heart of the Everglades, was revived after searchers reported finding no trace of the lost automobiles. No direct word has ever been received from the party since it left Fort Meyers. Scouts sent out by the Miami Motor club reported that the best that can be hoped for is that the party found some high spot of ground and camped until the water subsided.

FOUR DANGEROUS MANIACS ESCAPE

Poughkeepsie, N. Y., April 11.—Four dangerous maniacs who escaped from the Mattewan State Hospital for criminal insane early today are believed to be at large in Connecticut, according to word received here by Dr. R. C. Kieb, superintendent of the hospital.

The four men, among whom is one convicted of murder, escaped by kidnapping three guards at the point of a pistol and fleeing in a stolen automobile. The automobile later was found abandoned at Amenia, 40 miles from Mattewan, near the Connecticut lines.

TURKEY RATIFIES CONCESSIONS OF GREAT IMPORTANCE

Washington, April 11.—Ratification of the so-called Chester railway and mining concession by the Turkish nationalist assembly at Angora was regarded here as meaning that private capital in the United States will soon exert a strong influence in near eastern affairs.

The following other effects were foreseen: Another serious slump in British, French and Russian prestige in Turkish affairs; widening of the breach between Turkey and Russia, Britain and France, and opening up anew the wounds of the ill-fated Lausanne conference, making final settlements with Turkey on behalf of those powers all the more remote, and assurance to the United States of sufficient oil for commercial purposes and for war uses in case of hostilities with nations other than Turkey.

On the other hand several "jokers" were seen. Since acquisition of the leases and concessions has had government backing from the time negotiations were begun in 1908, the government is bound to continue its support, morally at least, and this benevolent interest, it is hinted, may bring on grave complications. During the negotiations strong opposition was expressed by competing nations, especially Britain and Russia, who claimed prior pledges from the Turks, and every known means of blocking and "queering" the deal were made.

America's interest in the Turkish "mess" is now explained. Last year, when destroyers were dispatched to the Balkans, a protest went up because war was feared from the Balkan tinder box that might embroil the United States. The explanation given by Secretary Denby of the navy department was that the destroyers were sent to "protect American interests." These interests consisted of oil.

According to observers here, the United States has scored a master stroke in commercial diplomacy. Just what effect it will have on the other contending powers is impossible to state, but undoubtedly France, Britain and Russia will be more anxious to grant Turkey favorable terms. Turkey, however, is in the strong position, because she is safely back on European soil and has made commercial terms which it is believed will hasten a peace treaty with the United States.

The oil fields in question are in the Mosul region, and are regarded as Turkey's richest. They have been obtained by the Ottoman-American company, which will also build 2,000 miles of new railways, ports and docks and a modern American city at Angora.

Consumption of the deal ends years of effort by Rear Admiral Colby M. Chester, retired, of Washington, and American associates, including General George Goethals, who recently resigned his job as fuel administrator in New York, and Kermit Roosevelt.

REAL FISH STORY COMES FROM NAVY

Washington, April 11.—The United States Navy has come forward with a bid for first place in the spring fish story sweepstakes.

It's really a turtly story, but a turtly comes so near being a fish that the difference doesn't matter.

Captain J. Johnson of the steamer Kennicott, reported to the navy hydrographic office that his ship passed through eighty miles of turtles a hundred miles off the Pacific coast of Mexico. The Kennicott was enroute from Balboa, Panama to San Pedro, California.

Captain Johnson said there were thousands upon thousands of the turtles, some of them three feet and estimated to weigh at least 200 pounds. The Kennicott ran through the school for more than eighty miles.

FIRE PUTS BOOZE VENDOR OFF GUARD

Hammond, Ind., April 11.—Frank Gataharick, Hammond saloon keeper, believes the story about the curious cat now.

Police had been after Frank for some time, but never could find anything wrong with his place.

Then they turned in a fire alarm from opposite his saloon. While Frank was outside to see what it was all about, the coppers slipped in the back way of the saloon and found two quarts of moonshine.

Frank rode to jail on the fire truck.

WOULD ISSUE BONDS

Columbus, O., April 11.—Harvey McClure, receiver of the Indiana, Columbus, and Eastern Traction Company, has made application for permission to issue \$32,351 of equipment trust bonds for the purchase of six light weight interurban passenger cars for use between Dayton and Union City, Indiana, the state utilities commission announced today.

The new equipment is to replace the present heavy and obsolete type of cars now in use, it was stated.

NO ACTION ON GAS FRANCHISE.

Wooster, O., April 11.—Council refused to act on a franchise granting the East Ohio Gas company a rate of \$1 for the first 1,000 cubic feet and 50 cents for all in excess of that amount. Although Wooster has a contract which does not expire until October, 1924, the East Ohio Gas company has notified council that gas will be shut off unless a new rate is fixed.

News of Greene County

TO GIVE BANQUET FOR SCHOOL TEAM

Jamestown, April 11.—The Business Men's Association of Jamestown will entertain with a banquet, the High School basketball team on Friday evening at the Venard hall. J. W. Gowdy, Supt. of the Jamestown school, will serve as Toast Master. Thurman Miller, of Wilmington, Coach Prugh, of Antioch College, have been invited to give addresses. Ralph George will represent the board of Education, other business men will be on the program. Special music will be a delightful feature. Both of the Jamestown teams acquitted themselves splendidly, the girls team being handicapped with a good deal of sickness. The outstanding achievement of the boys team was winning the cup as the Tri-County champions, the counties of Greene, Clinton and Highland. They only lost two games during the regular season. So that coach Stoner has reason to feel proud of his team. The Woman's Missionary Society of the United Presbyterian Church, will furnish the dinner for the banquet, early in the evening.

To Furnish Program

On Friday afternoon the 13th, the grades on the lower floor will furnish the program for the Community Service Club. Various exercises will be presented by the pupils of each room. A pleasing feature will be Kellogg's bird—music on the victrola by Miss Margaret Glicks' pupils. The 7th and 8th grades. A part of the program will be along the line of Arbor Day. The address of the afternoon will be given by Miss Evers, of Xenia, Red Cross nurse of Greene County, her subject will be "Nutrition As Pertains to the Child."

Selected as Judge

Supt. of Schools, C. A. Devoe, was at Sabina on Friday evening, having been selected as one of the judges in a literary contest given by seven high schools of Clinton County. The other judges were County Supt. O. S. Nelson of Washington, C. H. and the Rev. Nicholson, also of Washington, C. H. The contests were in Bible Reading, Reading Oration, Instrumental and Vocal Music. The Blanche high school was awarded the highest number of points, the Adams township high school was given the second highest. Mr. Alle Stingley is Supt. of the latter school. Mr. Stingley taught in the Jamestown high school a few years ago.

PERSONALS

Dr. W. M. Henry has bought the Ralph Glass property on West Main street and will be given possession at once.

Miss Rebecca Marsh spent the week-end with her parents at Owensville.

Mr. Earl Little and family were Sunday visitors at the home of Mr. and Mrs. Everett Little.

Mr. J. C. Brown, president of the Farmers and Traders Bank, is still confined to his room. His brother, Thomas Brown, of Cashocott, spent the week-end with him and his family.

To Give Program

The Literary Society of the high school will give their monthly program on Friday afternoon, which will partake of the Arbor Day sentiment. Mrs. Nannie Swann, of Indianapolis, has been visiting her aunt, Miss Sidney Bowles.

Mrs. James Clark and son Lester, have taken rooms with Mrs. E. C. Griffith.

Mr. Charles Houser has bought the Augustus Gomla property on South Limestone street. Mr. Gomla will look for a location outside of Jamestown.

Mrs. Rebecca Bryan spent last week with her son Wilmoth and family.

Mr. and Mrs. Wilfred Weimer spent Sunday with Mr. and Mrs. Alfred Hutsler, at Yellow Springs, Ohio.

Dairy Lunch Successful

The Ladies Aid of the M. E. Church were successful with its dairy lunch on Friday evening. The net proceeds were one hundred and thirty-five dollars.

The Rev. L. L. Gray and Robert L. Dean were at Reynoldsburg on Monday attending Presbytery. They represented the Jamestown United Presbyterian church. A large section of Ohio churches met in these sessions.

Resumes Operations

The O'Neal Tobacco factory has resumed operation, having been suspended for the past few weeks on account of the shortage of tobacco supplies.

Word has been received from Mr. and Mrs. A. J. Barnes, who have been in California for several weeks, that they have left Los Angeles and are now at San Francisco.

Miss Mary Zeiner, after a pleasant vacation with the home folks, has returned to Chicago, where she will resume her studies for the remainder of the year.

HELL UNSCIENTIFIC PREACHERS THINK

Chicago, April 11.—Fear of the traditional fire of hell and hope of some day being the possessor of a harp in Heaven no longer serve to keep the youth in the "straight and narrow" in the opinion of several leading Chicago preachers.

The youth of today long ago discarded the orthodox idea of hell and more and more the adult is beginning to cling to the new idea, according to Rev. Ernest Little, as expressed in a recent address, and concurred in by many of Chicago's divines.

The old idea smacks of the dark ages, the preachers say. The psychology of hell and Heaven has lost its punch, the Rev. William Chalmers Covert, pastor of the First Presbyterian church, said.

"The element of fear in religion has had its day," said the Rev. Zeph White, pastor of the People's Liberal Church. "Anyone who thinks for himself will exclude the idea of hell and eternal damnation as unscientific."

Mr. TABOR

Miss Ruth Smith is spending several days with her aunt, Mrs. Mary Christie, of Xenia.

The Ladies Aid will meet with Mrs. Veda Beal Thursday afternoon, April 12.

Mr. and Mrs. William Trout and daughter and Mrs. Emma Devoe called on Riley Jones and family Thursday afternoon.

Miss Gladys Eyer of Dayton, spent the week-end with her parents, Mr. and Mrs. H. C. Eyer and family.

Mr. and Mrs. David Linkhart and daughter spent Sunday with Mr. and Mrs. Elmer Lewis of Lumberton.

Mr. and Mrs. Elmer Woolary and family were guests Sunday of Mr. and Mrs. Earl Ford and family.

Irvin Smith and family called on J. R. Jones and family Sunday afternoon.

Mr. and Mrs. Vernon Jones and family called on Hanna Bland and family Sunday evening.

Mr. and Mrs. Ben Thomas of Xenia, were Sunday guests of Mr. and Mrs. Levi Smith.

Prayer Meeting at the church, Wednesday evening.

Mr. Stanley Jones called on Messrs. Earl and Donald Smith Sunday afternoon.

Mr. and Mrs. Herman Oliver, of Bowersville, spent Sunday afternoon with Mrs. M. A. Strong and family.

Miss Mary Buckwalter, who has been quite ill with heart-trouble, for the past few weeks, is not much improved at this time.

Mrs. J. W. Smith and daughter Mary, and grandson Junior, spent Friday afternoon with Mrs. Addison Graham.

CEDARVILLE

Miss Donna Johnson, who has been confined to her home for the past three weeks, with inflammatory rheumatism, is able to be about again.

MONTANA TOWN AFTER DEMPSEY GIBBONS FIGHT

Shelby, Mont., April 11.—Through the proposed championship bout between Jack Dempsey, present heavyweight world champion, and Tommy Gibbons of St. Paul, July 4, this year, this little Montana town has been placed in the national if not the international limelight. Negotiations are under way and from present reports it appears that the bout will be held in the booming little oil town of Montana, provided Dempsey will agree to the proposed contract. The committee in charge claims that sufficient money has been raised and pledged and that everything waits on Dempsey, as Collins, Gibbons' manager, it is said, has signified his willingness to sign up.

Natural Amphitheatre

The main claim Shelby puts forth for holding the bout is a natural amphitheatre in the contour of the bad land formations just north of the city. There exists a huge natural stadium just outside the city limits, in which it is claimed, seats to accommodate 100,000 can be built for \$40,000 or less than the area structure for the Dempsey-Carpenter Jersey City fight cost.

The proposed bout is sponsored by the Montana State Department of the American Legion and vast support has been pledged by oil interests of the state. Many commercial and other organizations also are working hard for the bout, but in-cognito, letting the American Legion take the credit and lead. There are 127 Legion posts in the State, and recently a quota of ringside seats, at \$50 each, was sent to each post. Posts at Fort Benton and Conrad sold their quotas immediately and wired for more reservations.

All posts of the state are taking a lively interest in the proposed bout. Roy Mollumbly, State Commander of the Legion, says that the necessary guarantee sum of \$110,000 has been raised. Of this sum \$50,000 will represent a pledge to Jack Dempsey. Under the plan Dempsey is to get \$200,000 and Gibbons \$50,000.

Two Canadian cities have pledged \$10,000 together.

Typical Oil Boom Town

Shelby is a railroad junction and recently has been enjoying a great boom from the discovery of oil in its vicinity. Its population is only 1,500. It is a typical Montana prairie town, with wide modern streets, good, substantial cement sidewalks and high-powered electric lights and the customary Montana white way on the main thoroughfare.

It is on the transcontinental line of the Great Northern Railway 384 miles from the North Dakota border, 283 miles from the Idaho border and only 36 miles from Sweet Grass on the Canadian border. Great interest is being taken by the Canadians and such cities as Calgary, Edmonton and Lethbridge have promised that at least 20,000 Canadians will attend the fight.

Shelby is the junction point of the Chicago, Burlington and Quincy line running direct from Kansas City. Burlington trains from Kansas City connect at this point for points on the Pacific Coast. The Great Northern also runs north out of Shelby to Sweet Grass connecting at the international border with the Canadian Pacific Railway for Calgary and Edmonton. Shelby is 517 miles from Seattle, 977 miles from San Francisco, 1,350 miles from Chicago and 750 miles from Denver.

GREEKS IMPOSE CAPITAL TAX TO HELP REFUGEES

BY LUTHER A. HUSTON, International News Service Staff Correspondent.

London, April 11.—Greece's most serious problem today is not peace with the Turks or the re-establishment of a stable domestic government. It is the problem of caring for the more than a million refugees while the fortunes of war have cast upon the nation.

This is the opinion of Monsieur G. Collias, the Greek minister in London. The Greek government, Monsieur Collias declared in an interview, is becoming stabilized and is gradually working out the problems that confront it. Permanent peace with the Turks is still to be realized, but the Greeks are hopeful of a successful outcome of negotiations between the Allies and the Angora government.

WOULD SWAMP ENGLAND "Imagine what the effect would be in England, with its population of more than 40,000,000 if another 1,000,000 people were to be brought here and added to the already large number of unemployed. You will then realize how much more serious a problem it is for Greece, with a total population of less than 5,000,000, and with her limited national resources, to have the care of so large a number of refugees."

"The British government is caring for about 35,000 of the refugees but 35,000 is a very small part of 1,000,000. The American Relief Administration is doing a wonderful work, but is not able to do all of the tasks that are required. Meantime, the condition of the refugees with regard to food, clothing and epidemics of disease is growing worse and becoming more of a burden and a menace to the Greek nation."

"Until peace with the Turks is signed, the government is forced to maintain a strong army. To meet the military burden Greece has been compelled to resort to the rather unusual experiment of a capital levy."

OUTLOOK SEEMS HOPELESS

"Even if peace were assured however, and it were possible to spend the money now devoted to the needs of the military for the relief of the refugees, it would be utterly inadequate to the requirements of the situation. It would almost seem, from a present viewpoint, that we are to have refugees with us always."

"Some measures of relief may be accomplished by the exchange of Turkish prisoners and it is probable that eventually a large number of the refugees will be colonized in Western Thrace and in Macedonia. But this will require time and much money and does not offer any immediate solution of the problem. In

fact, there is no solution in sight, so far as I can see at the present moment."

Regarding the action of the Greek Government recently in imposing a capital levy, Monsieur Collias declared that this should not be regarded as a socialistic measure.

It was a measure dictated by the pressing financial need of the Government, he asserted, and was agreed to by representative capitalists.

Under its terms those citizens possessing more than a certain pay, within five years, from 3 to 15 amount of wealth are required to per cent of their capital to the Government.

ANOTHER BRITISH WORKER DIES RICH

London, April 11.—Life in domestic service seems to be a profitable occupation in England. Recently a London butler died leaving a fortune of over \$50,000, and now a hotel porter has left a will revealing a fortune of \$130,000.

The butler was a former employee of the late Lord Marcus Beresford, but the porter was just Thomas Henry Cleave, an ordinary employee at the Lord Warden Hotel, Dover, and the announcement that he had left such a large fortune has caused great surprise in his native town of Kings Cliffe, where he was known as the "Mystery Man," due to his general reticence about matters concerning himself.

It was believed by his townsfolk that he had retired on a small income, based mainly on his tips as a porter, but it was revealed in his will that he had bought a great deal of real estate while at Dover, owned several apartment houses at Kings Cliffe and was in partnership with a bookmaker.

He retired from portering in 1896, when he was nearly 60, and from that date until his death he lived in great simplicity in a small cottage, being very careful in money matters and reserved in manner. This strengthened the local impression that his means were limited.

He had no relatives, and the will disposes of his money in 19 bequests, including \$500 each to 13 people in his native town.

FORMER STATE OFFICIAL DIES.

Portsmouth, O., April 11.—Jesse Fremont Bateman, former official of the state senate and well known in Republican circles in Pike county and southern Ohio, died at his home in Piketon of pneumonia.

Girls! Girls!! Save Your Hair With Cuticura

Soap and Ointment to clean, dandruff and itching. Scalp. Sample free of Cuticura, Dept. X, Malden, Mass.

STADIUM TO HONOR HONOLULU PRINCE

Honolulu, April 11.—Appropriation of a fund of \$250,000 for the erection of a huge athletic stadium in Honolulu as a memorial to the late Prince Jonah Kūhiō Kalanianaʻōle (Prince "Cupid"), who for twenty years was Hawaii's delegate to the Federal Congress, a provision in a bill introduced in the Territorial Legislature by Rep. W. K. Hussey.

The project for the erection of a memorial stadium has been under discussion for some months past, but it had been proposed to raise the necessary money by public subscription.

"Prince Cupid", in his younger days was a noted athlete and excelled in swimming and track sports. During his entire life he encouraged the de-

velopment of athletics in Hawaii as a means of rehabilitating the Hawaiian race.

PROTEST PORTRAYAL OF CHINESE LIFE

Columbus, April 11.—Vigorous protest against the exaggerations of native Chinese life in many motion picture productions has been registered to the Ohio department of film censorship by the Chinese Students club of the Ohio State University.

Scenes portraying gambling, opium dens, polygamy and child selling were pointed out as no more characteristic of Chinese than American life.

"These things are all prohibited by Chinese law, although there are breakers of the law," asserted C. M. Sun, president of the club, in a letter to censor board.

Ford

THE UNIVERSAL CAR

ANNOUNCEMENT

Of Interest to

MILLIONS of FAMILIES

"I will build a car for the multitude"

Said Henry Ford in 1903—Read how the fulfillment of that prophecy is now made possible through the

Ford Weekly Purchase Plan

For many years it has been Henry Ford's personal ambition to make the Ford the universal family car—to put it within the reach of the millions of people who have never been privileged to enjoy the benefits of motor car ownership.

During the past fifteen years over 7,500,000 Ford cars have been placed in the hands of retail customers more than a million and a half of them within the past twelve months—and yet there are still millions of families who are hopefully looking forward to the day when they can own a Ford. And now the way is open.

Under the terms of this plan you can select your Ford car, set aside a small amount each week and you will be surprised how soon you will own it. In the meantime your money will be safely deposited to your credit in one of the local banks where it will draw interest.

Think it over. Five dollars will start an account. The whole family can participate in it—father, mother, brothers and sisters each doing a little. Why not start today. Stop in and talk it over with your local Ford dealer. He will be glad to fully explain the details of the plan and help you get started toward the ownership of a Ford car.

RUSSIAN ART STUDIED BY J. W. C. MEMBERS.

Phases of Russian art were studied by members of the Junior Woman's Club, at the meeting at the home of Mrs. H. D. Smith, on North Galloway Street, Tuesday afternoon. Three papers were given, the first on "Russian Composers," by Mrs. S. M. McKay. Miss Margaret Steele, read an interesting article, on "Russian Music," followed by Mrs. W. W. Weaver of Cleveland, whose topic was "Russian Short Story Writers."

ENTERTAINS QUEEN ESTHER SOCIETY

Miss Yeola Purdon entertained the members of the Queen Esther Society of the First M. E. Church at her home on North Galloway Street, Monday evening. Following the business session, chapters from the study book were studied. Miss Purdon served a delicious refreshment course. About 20 members attended the meeting.

GIVEN SURPRISE ON BIRTHDAY MONDAY

A company of eighteen friends of Mr. E. S. Davidson, arranged a surprise at his home on North Galloway Street, Monday evening, on the occasion of his birth anniversary. An informal social time was enjoyed throughout the evening by the guests, a delicious refreshment course being served.

TO ENTERTAIN W. C. T. U.

The A. C. Turrell W. C. T. U. will be entertained at the home of Mrs. William Bull on Maple Street, Friday afternoon at two o'clock. Mrs. Howard Norris, Mrs. O. C. Horney and Mrs. W. O. Custis will be hostesses at the meeting. All members are urged to be present and bring a guest.

DANCING TO BE AT K. OF P. HALL

The dancing party, sponsored by the Xenia Dancing Club, to be held Monday night, April 16, will be held at the Knights of Pythias Hall, the committee being unable to secure the Elks' Club.

PLANS LAID AT MEETING

Plans for their annual spring dance were laid by members of the Delta Theta Tau Sorority, at the meeting held at the home of Miss Pearl Haines, on South Detroit Street, Monday evening. The sorority is also sponsoring a theater benefit at the Bijou, Friday night.

ENTERTAINS AT CARDS

Mrs. Frank Rudd entertained a group of friends at cards at the home of her sister, Mrs. D. L. Gregg, on Union Street, Tuesday evening. Five hundred was enjoyed throughout the evening by the guests, the high score prize being awarded Miss Olive Huston. Mrs. Rudd served a delicious salad course following the game.

ASSOCIATION TO MEET

The Central Parent-Teachers' Association, will meet Thursday at 2:45 o'clock, at the portable building. The program will be in charge of the first, second and third Central grades.

P. H. Flynn, of the Xenia Shoe Manufacturing Company and his son Henry Flynn, are planning to sail the latter part of May for Europe where they will spend several weeks viewing the industrial situation of England and the central part of the continent. Henry Flynn, a student at the University of Pennsylvania, was given permission to leave school to accompany his father.

Mrs. John Keiter, Mrs. Edward Hubbard and Mrs. Frank Ford will be hostesses to the Pride of Xenia Thimble Club, at the home of Mrs. Keiter on West Second Street, Friday afternoon.

A covered dish social will feature the regular meeting of Pride of Xenia Council Daughters of America, at the lodge hall, Thursday evening.

Richard LeSourd is confined to his home on West Market Street, suffering from an infected knee, resulting from an injury received in basketball.

Mrs. Mary Johnson, of North Galloway Street, is expected to arrive home Sunday, from Mobile, Alabama, where she has been spending the winter.

Mr. Herbert Davis, of South Detroit Street, is a patient in the Lakeside Hospital in Cleveland where he is taking the new insulin treatment for diabetes. Word received from Mr. Davis states that he is responding to the treatment. Much interest has been aroused in medical circles over the newly discovered treatment.

Mr. and Mrs. W. C. Sutton, of Dayton Avenue, are receiving a visit from Mrs. Sutton's niece, Miss Evelyn Bader, of Buckeye Lake, who will spend two or three weeks at the Sutton home.

RED PEPPER HEAT STOPS BACKACHE

The heat of red peppers takes the "ouch" from a sore, lame back. It cannot hurt you, and it certainly ends the torture at once.

When you are suffering so you can hardly get around, just try Red Pepper Rub, and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers.

Just as soon as you apply Red Pepper Rub you will feel the tingling heat. In three minutes it warms the sore spot through and through. Pain and soreness are gone.

Ask any druggist for a jar of Rowles Red Pepper Rub. Be sure to get the genuine, with the name Rowles on each package.

GREENE COUNTY IS WELL REPRESENTED AT DAYTON MEETING

Xenia and Greene County were well represented at the meeting of business men and farmers, at the National Cash Register Company, Dayton, Tuesday night. Among those who attended the meeting, were Mr. and Mrs. H. L. Sayre and Mrs. C. E. Arbogust, Mr. and Mrs. J. O. McDorman and Mrs. J. H. Whitmer, Mr. and Mrs. Frank F. Keyes, Miss Louise Keyes, Harry Connell, Mr. and Mrs. John A. North, Mr. and Mrs. Walter Currie, Mr. and Mrs. John G. Balder, Mr. and Mrs. W. A. Donges, Dr. and Mrs. N. T. Pavey, Mr. and Mrs. Elton Smith, Mr. and Mrs. J. C. Short, Mr. and Mrs. B. U. Bell, Mr. and Mrs. Herman Eavey, Mr. and Mrs. Ralph Spahr, Mr. and Mrs. Walter Nash, Mr. William Gowdy, Miss Marie Veller, Mr. and Mrs. Frank Wardow, Mr. and Mrs. Asa Price, Mr. and Mrs. E. F. Canby, Mr. and Mrs. Lawrence Johns, Mr. and Mrs. W. J. Kennedy, Mr. and Mrs. Ed Wood, Mr. and Mrs. Ernest Beatty, Mr. and Mrs. C. W. Kaiser, Mr. George Kaiser and Mr. Robert Kingsbury.

The meeting was held at the N. C. R. school house, and was featured by an entertainment, and addresses. Montgomery, Greene, Warren, and Clinton Counties were represented at the meeting.

Mr. Charles Groban who purchased the Reliable Store on East Main Street, moved his family from Dayton to their new home on South Detroit Street, Tuesday.

Mrs. Anna Morris, of East Market Street, has returned from a three weeks visit in Morrow, Ohio, with Mr. and Mrs. W. M. Whitacre.

Mrs. Floyd Anderson of West Main Street, visited friends in Dayton, Tuesday.

Mrs. E. W. Bradstreet and Mrs. Lawrence Luttrell were guests of friends in Dayton, Tuesday.

Miss Katie Hyman of North Galloway Street, has returned after a visit with her aunt in Dayton for several days.

Mr. and Mrs. Chester Saylor, of west of Yellow Springs, are the parents of an eight and a half pound daughter, born Sunday evening. The baby has been named Martha Jane.

John O'Dea of South Detroit Street received word Wednesday of the death of his niece, Miss Mary Dowd of Kenton, Ohio. Miss Kathryn O'Dea left Wednesday to attend the funeral which will be held Thursday morning.

Funeral services for Mrs. Clara Huff of Clifton will be held Thursday afternoon at two o'clock, from the Clifton Methodist Church, with interment at Clifton.

Miss Edith Fawcett of North Galloway Street, is spending several days in Jamestown where she was called by the death of Mrs. Walker.

Mr. Edward Miller and son, Edward Jr., Mr. Floyd Anderson and Mr. Raymond Smith went to the Lewistown Reservoir Wednesday where they will spend a couple of days on a fishing trip.

The girls of the junior and senior classes of the Lincoln School will be the guests at the Red Cross Home Hygiene Class, Thursday evening, when the lesson will be of particular interest of High School girls. The class has proven most interesting to the pupils, and new members are still enrolling according to Red Cross officials.

The hospital bed, table, and other articles loaned by the Red Cross office, will be used at both lessons of the class this week for demonstration purposes.

GIVES CAUSE OF TYPHOID Cincinnati, April 11.—While Newport, a Kentucky suburb, yesterday prepared for preventive measures to check the typhoid epidemic prevalent in the city. Covington learned from F. C. Dugan, director of the state bureau of sanitation that raw water from the Ohio river flowing in city hydrants, had caused the epidemic. Both cities as well as other communities nearby have suffered. Covington, 46 typhoid cases were investigated; 25 of the patients were less than 20 years old.

"BLOOD THAT IS THIN AS WATER"

Poor Nutrition and What You Ought to Do About It

At this season of the year, when you find that you have become weakened, underweight, pale, and thin, you ought to realize your danger. Your blood has been thinned and weakened. You are not gaining the strength you need from your food.

Then is the time that you need Father John's Medicine, which is a scientific blending of cod liver oil with other ingredients in such a way that its food elements are easily taken up by the blood and turned into new strength and health.

If you need a tonic, remember that Father John's Medicine does not stimulate, because it is free from narcotic drugs, but it does build new flesh and strength because it is all pure food and wholesome nourishment.

YOUTHS CHARGED WITH MAN'S DEATH

Floyd Irwin, 19, and Milton Irwin, 26, brothers, of Armstrong, Ill. are being held in Clinton County Jail charged with first degree murder in connection with the death of William Moore, grocer, of Memphis, near Wilmington, April 1.

Both pleaded not guilty when arraigned in Wilmington Monday and were bound over to the Grand Jury. They were placed under suspicion when their departure was noted shortly after the grocer was slain, and they were arrested shortly afterward at Armstrong. The Grand Jury will be called in special session to consider the case.

LOCAL MEMBERS ATTEND MEETING

Four Xenia members of the Miami Traffic Club attended the joint meeting of that organization with the Traffic Club of Cincinnati Chamber of Commerce, addressed by Dr. Frank L. McVey, president of the University of Kentucky, in Cincinnati Monday.

Dr. McVey, well known economist, talked on the subject "Comments on European Affairs." A. H. Finley, C. E. Haver, R. A. Tull and A. C. Bales were Xenians who attended the meeting Monday evening.

Xenia has more than doubled its membership in the Miami Valley Traffic Club, according to local officers. On the plea for increased membership, four new members have been added to the Xenia contingent way Company.

holding membership in the organization. Last year's members were A. H. Finley, W. R. Torrence and A. C. Bales and this year the names of R. A. Tull, J. W. Santmyer, Lawrence McKee and James Wilson, Third, have been added to the roster from Xenia.

NEW BUS LINE OPERATES.

The Dayton and Xenia Bus Company, recently incorporated in Dayton to operate a bus line between Xenia and Dayton, has been authorized to issue \$2,500 common capital stock to be used in partial payment for two touring cars and for working capital. It was announced by the State Utilities Commission Wednesday.

The company has already placed the passenger cars in operation carrying passengers between these cities. The new company, is headed by T. L. Farneding, head of the Dayton, Springfield and Xenia Southern Railway Company.

OUR IDLE SHIPS AND THE DEFEAT OF THE SUBSIDY BILL.

The failure of Congress to pass the Ship Subsidy bill that was earnestly recommended by President Harding may not prove in the long run to have been a misfortune. We can afford to take another year for studying our merchant marine policy, along with immigration, and other related topics. One of the most gigantic of our undertakings in the years 1917 and 1918 was the building of ships. Money by the hundreds of millions was spent in extending old shipyards and creating scores of new ones, with the result of turning out something like 1500 ocean-going vessels, nearly all of them slow freighters of medium size. By seizure of certain German vessels and by a certain amount of passenger-ship construction, we were able under Government auspices to start several new lines carrying passengers and freight to foreign ports regularly, under the American flag. The great reaction in foreign commerce has resulted in the temporary idleness not only of most of our newly built American ships, but also in much of the ocean tonnage of other maritime countries. Our Government operation of ships in use, and our maintenance of hundreds of vessels not in use, have resulted during the past two years in an annual loss to the United States Treasury of about fifty million dollars.

But events may show advantages in another year's delay before arriving at a decision. The defeat of the subsidy bill in the Senate was due to the unyielding opposition of the minority, who asserted that if the new Congress were consulted it would be found hostile to the measure. Filibusters are never admirable; but this last one was not quite so inexcusable as some other filibusters have been. The shipping question has so many angles that the country can better afford to meet deficits in cost of operation for another year or two, than to adopt an ill-matured policy which might not work out according to the predictions of its proposers. Members of the new Congress, which is not to be in session until next December, would do well to study this question of the merchant marine on its merits without undue prejudice either for or against a subsidy policy.

GOVERNOR SETS DATE FOR OHIO ARBOR DAY.

Friday, April 13, is set as Arbor and Bird Day for Ohio in 1923, in a proclamation just issued by Governor Donahey. The day chosen by the governor is the first day of Tree Planting Week, which has been set by the national "Plan to Plant Another Tree" organization for April 13-20.

In this proclamation, Arbor Day is set before the people of Ohio as "a day when children should be taught some knowledge of those wondrous forms of life that, rooted in one spot, live, grow, exercise God's plan of parentage, and die. It is a day to study the bird life common to our state—to learn how birds help mankind and how friendly they are when undisturbed. It is a day to marvel at the instinct of these flying things—their knowledge of how and where and just what size to build a mothering nest—their sense of direction in the flights of fall and spring."

Schools and civic organizations throughout the state are called upon to give suitable observance to this occasion. "Let us all, mature and young," says Governor Donahey, "on this day, enlarge ourselves by seeking better understanding of these other forms of life. Perhaps some day we may communicate with them in ways not yet apparent to our finite minds."

THE SPLENDID BUDGET SYSTEM.

It is to the credit of the Sixty-seventh Congress that it responded to President Harding's urgent demand, and enacted the existing law under which the budget system has gone into effect with results already so important. It has brought about economies that bulk large in the total. Governmental business had expanded enormously during the war years, and the budget system has been of marked advantage in the process of deflation. The total number of government employees has been reduced by about 100,000. The late Congress added a few millions to the River and Harbor bill by the old-fashioned log-rolling process; but otherwise it followed closely the estimates and recommendations of the budget as sent in by President Harding. This does not mean that Congress neglected its obligation to consider appropriations carefully. What it does mean is that Congress was willing to work with the executive branch of the government in adapting ends to means. There is nothing sensational about this phase of the work of the Sixty-seventh Congress, but it is a meritorious record and ought not to be forgotten. There might well have been larger modifications of the war system of taxation, but at least the recent Congress improved the system in some respects.

GAMES OF CHANCE ILLEGAL.

In an Ohio court last week a man was fined for "participating in a game of chance" and two others for "promoting a game of chance." The matter had been brought before the court as the result of a raffle for a house. The promoters pleaded that they thought they were within the law, but were told that ignorance of the law in the cases of games of chance as well as any other case is no excuse, but owing to their excellent character, they were fined the minimum \$25.00 and costs. The money taken in the raffle was to be returned to the ticket purchasers.

It may not be generally known that games of chance of all kinds are classified in the law as gambling, and a conviction means the imposing of a fine from \$25.00 to \$500.00 and costs. As a rule, such games are for religious or charitable purposes but this does not alter the fact that the promoters and participants are liable to conviction and fine, whether the raffle is for a farm or a box of candy.

MABYE IF THEY'D TRY SCALDING THEY COULD GET A FEW MORE PIN FEATHERS

1903--Twenty Years Ago--1923

The question as to who will be the president of the City Council which has been hanging on a single vote in dispute and which was not counted on election night because of its being marked in an irregular manner was definitely decided last night and resulted in William F. Brennan, winning the contest.

The old piano that has so long served its purpose in the high school has an interesting history. It was purchased in the middle

times while Prof. Ormsby was superintendent of schools and by arrangement with the Board of Education, the tuition paid by the country pupils was paid direct to Prof. Ormsby and credited to the piano fund. The piano was purchased from Philip Philips then known as the "sweet singer of Israel," who came to Xenia to give a concert, and was an agent for pianos.

The new canning factory to be erected in this city will soon be under the process of construction.

TOE-NAILS

They say the marvelous discoveries in the Valley of the Kings in Egypt, especially that of the tomb of Tutankhamen, will lead to a great vogue for Egyptian fashions. We will have Egyptian furniture, Egyptian hangings, head-dresses, costumes and, above all, sandals instead of shoes—this because of the exquisite sandals worn by the buried king.

Let us hope so, for sandals are such a delight to wear that I cannot think how anyone would return to shoes after having been permitted them. But let us devoutly pray that the new fashion won't go to the length of demanding bare feet—let's hope they'll leave us silk stockings anyway! Few toe-nails can stand public inspection.

We might, just in case, begin to beautify our toe-nails. These are the most neglected part of the body, they say—and I don't doubt it. Begin by soaking the feet for 20 minutes to half an hour in a basin of warm, soapy water. Then take your nail file and clean under each toe-nail and, with the cuticle knife, scrape off all the dead skin you can remove from the nail. Clip the jagged ends with your manicure scissors and then trim the nails short.

This trimming differs from the manicure, because each nail should be cut straight across, and the two large toe-nails should be cut inward, V-shaped with the point going in, so as to draw the cells from the skin and cure or prevent that painful affliction, ingrowing nails.

Now rub the toe-nails with a little vasoline and wipe this off. Go through this process once a week, and you will not know your nails in a few months, they'll be so improved. But meantime you must wear sensible

shoes which permit the toes sufficient room to lie straight.

L. W. J. P.—It is not well to wear your clothes so tight that pressure over the bust could injure it through bruising. Dash cold water over the chest every day and dry with light friction from a coarse towel. This treatment will tone all the muscles, including those of the bust. Deep breathing is an exercise for all the muscles from the waistline upward, and like all other exercise, it will develop flabby muscles so they will become firm, or it will consume fat while building up the muscular tissues.

Hopeful—It requires professional treatment to eliminate these pits from the skin.

Marion A.—As vinegar is an acid, it stands to reason that constant applications of it would destroy the life of your hair. I am wondering why anyone would use it at all.

Tomorrow—After the Baby

No more Rheumatism

"Suffering has gone from your face, mother!"

B. S. S. is the Great Builder of Red Blood-Cells and Rheumatism Must Go Just Try It!

"Rheumatism? Me? No, indeed, it's all gone, every bit of it! It's sunshine and joy for me now for the first time in years. I feel a wonderful glow again in the free motion I used to have when my days were younger. I look at my hands and think of the twinges and swellings they used to have. I bend my way over to the floor. I haven't been able to do that in many years. I can thank S. S. S. for it all! To me it was a rising sun of joy and liberty. Brothers and sisters in misery, do not close your eyes and think that health, free motion and strength are gone from you forever! It is not so. It is here and now for all of you. S. S. S. is waiting to help you. There is a reason why S. S. S. will help you. When you increase the number of your red-blood cells, the entire system undergoes a tremendous change. Everything depends on blood-strength. Blood which is minus sufficient red-cells leads to a long list of troubles. Rheumatism is one of them. S. S. S. is the great blood-cleaner, blood-builder, system-strengthening, nerve-invigorator. It stops skin eruptions, too, pimples, blackheads, acne, boils, eczema. It builds up run-down, tired men and women, beautifies complexions, makes the flesh firmer. Start S. S. S. today. It is sold at all drug stores in two sizes. The larger size bottle is the more economical.

S.S.S. makes you feel like yourself again

CREDITORS WILL GET 25 PER CENT

Cincinnati, O., April 11—A payment of 25 per cent to creditors of the brokerage firm of Beazell and Chaffield of Cincinnati, was sought today when receiver Henry S. Irving applied to Judge Stanley Roettlinger for authority to make the first dividend. An inventory of the assets of the firm shows \$711,218 to be available for creditors. The naming of a receiver for the firm last month was a shock to financial circles. The junior partner, Wm. H. Chaffield, junior, last year was the Republican nominee for the lieutenant governorship of Ohio.

DIES OF BURNS

Newark, O., April 11—Miss Orpha McLaughlin, aged 25 years, died here yesterday from burns inflicted when her dress caught fire from a burning match held that flew across the room setting fire to her clothing.

Today's Talk

DIRECTED THINKING
Jung, in his "Psychology of The Unconscious," defines the difference between ancient and modern thought as undirected and directed thinking—the former being a thinking in images, akin to dreaming, the latter a thinking in words.

It is plain to see that all our knowledge must come through directed thinking.

Look at the night after a clear, sunny day. Those feathery clouds, floating like ships across a calm

sea. Whoever can look at them, or anything of beauty, immediately crystallizes images into words that put life in a happy frame.

We are fashioned by directed thinking. The words of our friend warm and uplift us. The sunset immediately spells a story to us of golds, reds, purples and tinted touches of silvered clouds.

Everything good and great is associated with words.

Tell your friend what a beautiful day it is—and at once an army of words trot up to finish the tale of your suggestion.

Read a book—How soon you become lost in the army of words. But how enriched you feel after the covers are closed!

Try to tell the impressions you have secured from travel, and you have to muster words to do their best.

It is due to our habit of thinking in happy words that we grow in character and learn to face stern realities without flinching.

So that it becomes quite as important to choose your words as your friends.

CIGARETTE CAUSES BIG LOSS BY FIRE

Marion, O., April 11—Fire damage of \$20,000 resulted yesterday from a carelessly tossed cigarette stub behind a davenport in the Eagles club rooms in the heart of the business center.

The Eagles hall and club rooms were gutted and the shoe store of Smart and Waddell on the ground floor was water soaked. The Nelson Jewelry store was also damaged by water.

Offices of Dr. Robert S. Dombagh, City Solicitor George W. Geran and several insurance agents were damaged on the second floor.

DECREASE TO BE GENERAL.

Washington, April 11—If the administration goes before Congress with a request for reduction in income tax rates, it will provide for decreases all along the line, instead of being limited to the surtaxes on large incomes as suggested by Secretary of the Treasury Mellon, it was announced officially at the White House.

And THE REPUBLICAN Information Box

All questions asked by our readers will be answered in this column. Medical and legal subjects are barred. Address all queries to "Information," this paper.

TRICKILICATE—Adhesive postage stamps were the invention of J. Chalmers of Dundee, in 1834, and came into official use in the United Kingdom eight years later.

K. L. O.—You are right. Frogs and toads will eat nothing that is not alive. There are other animals that feel the same way about touching flesh from which the life has departed.

WEINK—No, penny-in-the-slot machines are not a recent invention. In fact, they date back to 100 B. C., when contrivances placed in the temples supplied water in return for coins.

T. N. T.—We do not believe that it would ever result disastrously to leave a gas light turned on all night, provided the room was well ventilated. Nevertheless it is true that one lighted gas jet consumes as much oxygen as four adult persons.

GRETCH—The word "nurse" is derived from the Latin, and means "to nourish."

FARMER—The word "buggy," meaning a small vehicle drawn by one horse, is of Hindu origin. The Hindu name for such a carriage (usually drawn by an ox in that country) is "Baghi." Shortly after the British occupation of India, the soldiers adopted the name, altering the pronunciation to "buggy" for their light traps.

Be sure to get real Resinol

If you want to get rid of eczema, pimples, or other distressing skin eruptions, you will accept no "substitute" for Resinol. Preparations similar in name or appearance are not "just the same as Resinol." Although a few unscrupulous dealers may offer them as or for Resinol, they are often crudely made, of little healing power, and some may even be dangerous to use. Buy in the original blue package.

Resinol is never sold in bulk

MILK AND BUTTER HIGHER BUT HAY AND HOGS LOWER

The state average price for whole milk is now a little better than \$2.50 per hundred. A year ago the price was \$2.00. The average for butter fat is 47 cents a pound as compared to 34 cents last year according to statistician C. J. West, of the State Federal Crop Reporting Service. Hogs average around \$8.00 a hundred pounds as compared with \$10.30 last year. Hay prices on the farm run from \$9.00 to \$13.00. The farm prices last year ranged from \$12.00 to \$15.00 per ton. The State average corn price on March 15th was 76 cents a bushel.

The state average egg price the middle of March was 23 cents with prices highest in northeastern and eastern Ohio. The prices in the corn counties were from 20 cents to 22 cents. The State average chicken price is 21 cents which is no change from a year ago.

Beef cattle average \$6.50 as compared with \$6.15 last year. Dairy cows are slightly higher than a year ago. Veal calves are around 50 cents above last year's price and sheep and lambs are about 30 cents higher than last year with a State average sheep price of \$6.27 and lamb price of \$11.33.

Wheat averages \$1.25 a bushel, a year ago it was \$1.23. Oats averages 46 cents a bushel as compared with 38 cents last year. Potatoes are much lower than last year with the present average standing at 88 cents as compared with \$1.50 a year ago.

RADIO AND MOVIES BOON TO SAILORS WHILE ON HIGH SEAS

Aboard U. S. S. Henderson, April 10.—The radio and the motion picture camera have brought Broadway to the American Navy.

Far out here in the Atlantic, with a staff gale beating a steady tattoo on the hastily improvised canvas screen, strung between two life boats, Marion Davies, Jackie Coogan and other film firmaments whose names adorn Broadway fronts, cheer, and are lustily cheered by an eager group of officers and sailors sprawling upon the quarter deck. Even the rocking and pitching of the big transport and the driving smoke of waves that beat over the deck fail to disconcert the ship's band, which plays merrily during the show.

It is a veritable Broadway programme—in fact, the films are the latest from Broadway exchanges—International News reels, comics, travel ogies and the feature picture, the most "mellow" of melodramas, the entire performance lasting two hours. With the dying strains of a lively march number the "gobs" (there being about 1,000 recruits on board getting their first "taste" of the sea) drift disconsolately below to quarters, BETTER THAN MOVIES.

Except that there is no cost, no searching for seats in the dark, one might feel quite at home at such a movie show in Broadway or Michigan Boulevard or Main street. On warm tropical evenings, with a sweet breeze wafting lazily overhead and a moon of exquisite richness beaming down appreciatively, one does not ever care to get back to a crowded theatre. Life never was more enjoyable than when one is plowing irresponsibly through an enchanting tropical sea.

For, in the officers' dining hall, the strains of a Broadway jazz dance orchestra soothes (if one may permit,) by radio, those who would be a thousand miles away, in a gilded cabaret, "up N. York way."

From as distant points as Pittsburgh, Chicago, Omaha, Port Wirtz, Henderson, by night, learns of the latest music by this wondrous radio, NEWS BY RADIO.

Here amid the incessant swashing of the blue Atlantic against the gray steel sides of the Navy's only transport carrying Secretary of the Navy Denby, high Navy officers, Senators, Representatives and newspaper correspondents, where after days and nights of continuous travel seeming without course everyone tires of every one else—there is nothing quite so exciting as the radio newscast every day, containing short items of interest from every large city in the world, gathered during the night. The sheet is issued every morning, placed at each seat at breakfast, and is as eagerly sought and read as the metropolitan papers, even though a juicy divorce scandal, for instance might be thrilling the folks back in the States.

Because of the radio there is nothing of importance in the world with which even the newest sailor aboard is not acquainted.

PLAY FOR JACK TARS
"All work and no play makes Jack a dull boy" is a Navy tradition. That is why, in addition to the movie and radio programs there is every day on board band concerts, games, boxing and wrestling matches and all manner of amusements.

Education is not neglected. Aside from the routine training required to man a craft of Uncle Sam's far-flung Navy, every vessel carries a high-class library, containing accepted works on almost every conceivable subject. Ship's officers give daily talks on topics of the hour—on ports and countries to be visited and when ever convenient classes are formed for special instruction in modern languages.

ALL IN ALL, there is little dullness or lonesomeness in nature's vast bottom less waterways.

PROSPECTING IS TABOO

Washington, April 11.—Prospecting for oil or gas upon the government's spruce reservation in Alaska will not be permitted, it was announced at the department of interior today.

The decision followed an application from a prospector for a permit to prospect for oil and gas near Juana.

373 of 1,000 Wives Admit Courtship Spooning.

One of the most extraordinary sociological inquiries ever undertaken is nearing completion in the Bureau of Social Hygiene, in New York, of which Dr. Katherine Bement Davis is general secretary. It has sent questionnaires to thousands of women, that, for frankness and intimacy of detail, are breathtaking. Of 1,000 college women interrogated, 520 of 691 admitted they practiced birth control. At least, 375 admitted they had spooned, kissed and caressed men before their marriage, but 208 said the only man had been the man they finally married. Of the 1,000 872 said they had made happy marriages.

BRITAIN ORDERS POWERFUL NEW BATTLE PLANES

By DAVID M. CHURCH,

International News Service Staff Correspondent.

London, March 27.—Great expansion in the British air forces will be disclosed when the annual budget is announced in May, it is learned on excellent authority.

For the first time since the war the Air Ministry, it is understood is giving "production orders" and instead of ordering small numbers of the latest types of aeroplanes for experimental service it is ordering new machines in quantity.

Torpedo planes are reported to have been ordered in large numbers, and it is believed by some aerial experts that the British Air Ministry, after long experimentation, has decided that torpedo planes are the most effective type of aerial fighters now available. These machines will be larger than any of their type before and will be driven by more powerful engines and will launch torpedoes. It is believed that they will be found feasible for aerial launching. These machines are regarded as the enemies of battleships and represent the highest point of evolution in air attack upon naval craft. No nation, other than Great Britain, is known to have plans for quantity production of these machines.

LONG-RANGE BOMBERS.
Long-range bombing machines also will be provided for in quantity in the next budget. These "ships" will be equipped with metal wings and will have longer range of flying than any bombers now in use. They will also be capable of carrying heavier loads of bombs than are now carried. Recently the British Air Forces have found long-range bombers most useful in carrying out operations against hostile tribes in India, and it is understood that the Air Ministry now decided that this phase of aerial development must be regarded as paramount.

The budget also will provide for a number of single-seated combat planes—metal-built "birds"—which spit out death from their machine guns and climb at such a pace and to such a height that they are becoming one of the main bulwarks against attacks by air.

BIG TROOP "SHIPS."
Huge winged "troop transports," capable of carrying twenty men, will also be asked from Parliament. The mysterious amphibious giant planes which are now being built at Southampton probably will not be provided for in quantity in the air estimates, as it is understood that these seaplanes are still in the experimental stage.

Air officials declare that the finances of the Air Ministry have been so regulated that it will not be necessary to ask for an appropriation in excess of \$55,000,000, the amount appropriated last year.

The estimates also will make extensive appropriations for the development of civil aviation.

There undoubtedly will be opposition in Parliament to the proposals for extensions of the Air Service, but it is believed that the plans as now drafted eventually will prevail.

TO MAKE OFFER TO FRANCE.

London, April 11.—According to news received in London, the German ministry is earnestly discussing the terms of an offer to France. Difficulty is being experienced in reaching an agreement, some of the ministers being of the opinion that no offer should be made and no figure stated. The industrialists do not want the nature of the guarantees specified unless there is a certainty that they will be accepted, but the financiers and bankers are of the opinion that a reasonable figure should be stated.

DAYLIGHT SAVING KILLED

Marion, O., April 11.—Council last night killed decisively a daylight saving ordinance.

SPORTS

ANTIOCH-WITTENBERG GAME ON THURSDAY

ALL STAR FIRST TEAM LOSE 3 TO SECOND TEAM 40 TO 29

REDS SHEDDING BAD PERFORMANCES

SECOND TEAM UPSETS DOPE.
The all-star second team of the Dayton Municipal League sprung a surprise in kicking over the dope bucket to defeat the all-star first team in Dayton, Tuesday night, 20 to 29.

Personnel of the Famous Autos, which team played here all season, was represented on both the first and second teams and "Biddy" Barlow, star of the Auto quintet, starred for the second team with nine field goals. Solimano, Solowitz, Koester and Koehly of the Autos were on the all-star first team.

The injection of Solowitz of this city, into the game in the second half strengthened the first team's play, according to accounts, and the first stringers rallied, but too late. The lineup and summary:

Second (40) First (29)
Heeter L F McManus
Barlow R F Uhrig
Paul C Solimano
Somedahl L G Koehly
Drummer R G Koester..

Substitutions: Second Team—Longnecker for Heeter, Heeter for Longnecker; First Team—Solowitz for Goester. Field Goals: Barlow 9; Paul 3, Heeter 3, Drummer 2, Somedahl 1, Longnecker 1, Uhrig 8, McManus 3, Solimano 2. Foul Goals: Paul 1, Barlow 1, Solimano 2, McManus 1. Referee: Thiele.

GAME IS POSTPONED
The scheduled Antioch-Wittenberg baseball game supposed to be played as a preliminary to the Giant-Mudhen baseball game in Springfield Wednesday afternoon has been postponed until Thursday afternoon at two o'clock and will be played on the diamond of Antioch college at Yellow Springs instead of at Springfield.

REDS GETTING TOUGH START

If there is anything to the theory of getting all the bad playing out of their system before they start the season, the Cincinnati Reds should open the National League schedule like a house a-fire.

WEATHERCOCK TOPS CHURCH 200 YEARS

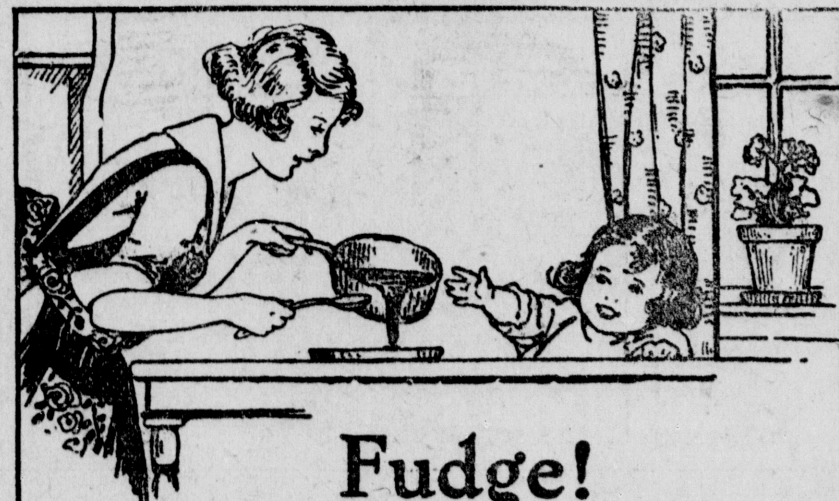

Stratford, Conn., April 10.—

The golden weathercock that swam atop the steeple of Christ Episcopal Church here has an extra bright appearance these days, and throngs of motorists passing along Boston Post Road where the church is located cast an extra glance at the bird which has taken the eye of passers-by these many years. For the "bird" will be two centuries old in December. On March 21 the parish celebrated the two hundredth anniversary of its first minister's ordination.

Founded despite opposition of the Congregational colony of Connecticut, under the guidance of members of Old Trinity (New York) vestry, by men who paid the heavy fines inflicted by the colony judges, Christ Church was erected in 1723 and the weathercock swung into position at Christmas time became a landmark at once. During the Revolution British soldiers, forbidden to despoil the church of their King took pot shots at the "rooster" from the road as they passed and knocked it askew besides putting holes through it. While the "bird" is as good as new today, a wealthy congregation containing families whose names are known throughout the land worship beneath its roosting place, proud of the fact that theirs is the oldest Episcopal Church in Connecticut, and equally proud of the quaint old weathercock.

KILLED IN BRAWL.

ROUENSTOWN, O., April 11.—A booze party resulted in the death of Daniel Opalka, 30, here. Six men are under arrest. Death, according to police, resulted from a fractured skull received in a drunken brawl with four other men after a party at a friend's house.

WOULD CUT TAXES ALL ALONG LINE— HARDING TO ACT

Washington, April 11.—The administration hopes to be able to recommend to congress in December a reduction of taxes all along the line.

This was indicated at the white house following announcement that Secretary of the Treasury Mellon's recent proposal to renew his recommendation for a cut in the surtaxes was discussed at the cabinet meeting. President Harding himself asked Secretary Mellon for a statement of revenues received from the various income levies. The secretary reported a "very gratifying increase," according to the white house spokesman. The president regards it as a little too early, however, to analyze the tax receipts and determine on a possible course to pursue with regard to changes. But if Mr. Harding finds it wise to recommend any reductions, it was stated, he will urge that they extend all along the line, rather than be confined to surtaxes.

The administration's plan is in line with that of Senator Smoot and Representative Greene of Iowa, slated for the chairmanships, respectively, of the senate finance and house ways and means committees. Both of these probable chairmen favor revision of the revenue act so as to bring about tax reductions, if it can possibly be done without sacrificing necessary revenues.

Any proposal to cut down the levies on the rich, like the surtaxes, however, will run counter to the announced program of the progressive bloc. This group proposes, with the aid of the Democrats, to restore the excess profits taxes.

It was the progressives, backed by the Democrats, who prevented Secretary Mellon's recommendation for a reduction of the surtaxes to 32 per cent being carried out in the last congress. The ways and means committee made the reduction, but it was increased to 50 per cent on the floor of the house. Mr. Mellon now intends to recommend that these taxes be cut to 25 per cent in the higher brackets.

ENGLISH SHIVER WHEN WAR WITH FRANCE TALKED

London, April 10.—Every once in a while someone sends shivers up and down the spinal column of England by discussing the possibilities of war between Great Britain and France.

These "shivery" statements always lead to discussions of Great Britain's air power and as the discussions proceed the shivers come in more and more frequent waves.

Great Britain is notably weak in her air defense and the people of the South of England well remember the terrors of aerial attacks in the last war.

Sir Samuel Hoare, secretary of state for air, stated that he was conscious of the existence of a general feeling of anxiety as to whether England's air defense was adequate. He gave figures comparing the British air forces with those of France, but said he had no intention of even harboring a distant and unnatural idea that war with France was even remotely possible.

BRITISH OUTNUMBERED
Sir Samuel's figures disclosed that at the end of the war Great Britain had 3,300 service aeroplanes, while France had 3,600. At the present time Great Britain has only 371 first-line aeroplanes, of which only 60 are available for home defense, while France has 1,260 first-line planes, of which 950 are available for home defense.

The British are an unimaginative people, but such startling figures as these don't require a great deal of imagination, and there is a loud cry for a stronger air defense. It is a easy matter to picture hundreds of French aeroplanes swarming over the clouded English Channel and working ruin and havoc on England, with almost entire impunity.

The condition of affairs is apparently leading to one of two alternatives—either Great Britain must increase her air forces or the European powers must enter into a convention for the limitation of air armaments.

DISPARITY TOO GREAT
Sir Samuel is again authority for the fact that last year there were 2,000 semi-military machines built in Great Britain as against 3,300 in France. France employed 9,250 men in her aircraft factories while only 2,500 were engaged in British aircraft industries.

"No doubt there is a great difference between the French and British positions," Sir Samuel said. "The French have a long land frontier to defend."

"Even so, the disparity is overwhelming, and the question must arise if one European Power has so big an Air Force and another so small an Air Force, which is right?"

A One-Power standard Air force for Great Britain would mean an increase in present expenditures of more than \$25,000,000 this year, and in order to keep pace with the programmes of other Powers there would have to be an eventual increase of \$55,000,000 annually over present estimates.

In the light of these facts in view of waves of British "air nerves" and in view of the general European situation it is so easy to predict that before many months Great Britain will urge an air armament limitation convention.

SHOCK PROVES FATAL.

Millersburg, O., April 11.—Mrs. A. J. Randles, 45, died from paralysis, brought on, it was believed, by the shock of seeing an automobile driven by her son figure in a collision. The son, who was injured, has not been told of his mother's death.

Styles BY LENORE

Paris openings disclosed some very interesting details in the treatment of the new costumes. One of the best models in the importations is a bolero coat in rep, which has a little organdie vest buttoned up to the throat, finished with a pleated organdie ruffle in sunray effect. The skirt is composed of three pleated tiers.

In the sketch are illustrated a means of using leather to give individuality to a sport suit, the pocket

and collar being made of dark blue leather embroidered in green and purple; a new sleeve effect, in which the shoulder is left bare; and an exceedingly attractive way of utilizing the vogue for pleats, as shown by Lina Mouton in a frock of tortoise brown silk cloggy. The pleatings are of brown Georgette crepe.

TIDE HAS TURNED TOWARD THE LEAGUE

Columbus, O., April 11.—Uniform response to the appeals for more cooperation in part of the United States in World affairs, including President Harding's proposal that the United States enter the world court as well as other activities of the League of Nations, is evidence that the tide has "turned" according to Henry Atkinson, New York City, secretary of the Church Peace Union, who numbers among the speakers scheduled to address the state-wide conference to be held here next Monday and Tuesday, at the First Congregational Church, under the auspices of the Ohio Council of Churches, it was announced here today.

The conference here next week will be one of a series of more than 45 to be held throughout the United States.

VETERANS NOT YET PAID.

Columbus, April 11.—H. B. Yarnell of Akron, state commander of the Disabled American Veterans of the World War, accompanied by State State Bonus Director Roberts and Mrs. L. C. H. Breneman, visited the state hospital here and learned that many of the veterans confined there for treatment have not received their bonus money or other government compensation. All effort will be made to speed up these payments.

**CLEAN KIDNEYS
BY DRINKING
LOTS OF WATER**

**Fake Salts to Flush Kidneys if
Bladder Bothers or
Back Hurts**

Eating too much rich food may produce kidney trouble in some form, says a well-known authority, because the acids created excite the kidneys. Then they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region, rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, begin drinking lots of good water and also get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush clogged kidneys and stimulate them to activity; also to neutralize the acids in the system so that they no longer irritate, thus often relieving bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to help keep the kidneys and urinary organs clean, thus often avoiding serious kidney disorders. By all means have your physician examine your kidneys at least twice a year.

DONAHEY UNABLE TO NAME SUCCESSOR TO LEON C. HERRICK

Columbus, April 11.—State Highway Director Herrick's refusal to accept Governor Donahey's demand for his resignation ties the hands of the chief executive, so far as appointing a new highway director is concerned, it was said yesterday.

It was pointed out in discussions of the controversy between Mr. Herrick and the governor that the office of the highway director is a constitutional one, created under the Davis reorganization code, and the appointment is for a specific term. The director can be removed only by impeachment before the senate, the law stipulates, or by petition signed by 6 per cent of the electors of the state.

It is admitted however that the governor can tie Mr. Herrick's hands by refusing to approve contracts for road construction. They say the reorganization code is the most far-reaching law in force in the state and that the governor practically can block the entire road system as well as other departments of the state government by refusing to give his approval to a project.

SIMPLE LIFE IS CULT'S SLOGAN

Paris April 10.—In the same great forest of Fontainebleau, where Francis I. hunted more than 400 years ago, has risen a curious mystic temple which harbors a little group of followers of the Greek philosopher Gurdjieff, the founder of similar groups at Constantinople and London.

It is the home of the simple life, an institute for the harmonic development of man. The general programme comprises the harmonic rhythmic study of the arts, trades and languages. At the same time there is profound study of man and the universe in all their mutual relations.

"Everybody works. There are no servants. It is like a large family of Iroquois Indians in a 'long tent,' only the 'tent' in this case is nothing short of a handsome chateau, the property of Madame Labori. There are fine gardens, which produce enough vegetable stuff for the tables, and there are chickens, pigs, rabbits, sheep and cows in abundance. All the food is grown on the land. This is part of the system, which concerns itself with the physical as well as the psychic.

In the group of 'inhabitants' are to be found representatives of all the

intellectual aristocracy—painters and poets, engineers and chemists. There are whole families, with their children, rich as well as poor. There is no question of money. "Liberte egalite et fraternite" reign here.

In the morning the work hums; the women do the housework in the chateau and the men work in the gardens. Women, who like to work in the open air are encouraged to do it. Good health is one of the aims, and fresh air is the rule. Hands must be kept soft and fair, so everyone wears gloves, even the men.

In the afternoon walks are taken under the great beeches, which, if they could speak, would tell many an interesting tale, no doubt. Or there is study in the little pavilion of electrotherapy and special exercises for developing the memory, will-power, attention and perception, together with gymnastic exercises, applied according to the needs.

Oriental rugs, precious hangings, fur cushions and artistic furnishings of every kind make the reading salon resemble a corner in the Sultan's palace. In the center is a sparkling fountain and around it little jets of perfume, which change color as they change odor.

"Here," said Monsieur Gurdjieff, "is where we gather in the evening, everyone dressed in simple white robes and sandals. There is quiet meditation and reading, rhythmic exercises which prepare for the ritual fakirs and dervishes."

From a little loge, hung with thick rugs from the Orient and piled high with cushions, the leader sees all without being seen. It is he who reads and instructs upon all subjects—the science of poisons, hypnotism, magic and sacred arts of the ancient Greeks. The director assures the visitors that he is not searching for the mysterious but only the perfect, harmonious life. However, a day spent among this "mystic" family, in the heart of the great forest, gives one the impression that he has just stepped into a tale of the "Arabian Nights."

ENGLISH COURT DIGNIFIED, BUT HAS WIT FLAIR

Kansas City, Mo., April 11.—Life for unnecessary on London newspapers. The court reporters do the funny stuff.

Although the English courts are supposedly the acme of dignity, and are surrounded with a great deal of flummery, including wigs and gowns and such, there are occasions when one begins to suspect that the courts are to put the vaudeville houses out of business.

There are several famous humorists connected with the English courts, but perhaps the best known is Mr. Justice Darling, who is looked upon as one of England's premier wits.

Justice Darling was presiding in a Kent Circuit Court when a witness testified that he went "to the Elephant Inn to telephone."

Upholds Reputation
"Ah! a trunk call," interposed the Justice, and the courtroom tittered. That was Justice Darling living up to his reputation.

Justice Darling is the senior Judge of the Circuit Division and has been 26 years on the bench, but still, at the age of 73, he sparkles with humor, according to the English standards. He is a man of encyclopaedic knowledge, a profound scholar, a poet, an accomplished linguist and a philosopher. He has been bitterly criticized because of his attitude in the courts and has been accused of being flip-pant and foolish, but still he goes on his joking way.

Proponents of Justice Darling's wit claim that he makes use of wit to concentrate attention on vital points, and to put irrelevancies to confusion.

Some of His Best Ones
Here are just a few of Justice Darling's best jokes:

Counsel in an engineering case: "This valve was worked by a spring, but your lordship knows a spring will not last long."

Justice Darling: "Yes, for I have read 'Ver non semper viret' (Spring time is short)."

During a trial at Bristol a solicitor stated that unsuccessful efforts had been made to find a man named Little.

"It still remains true that we 'want but little here below,'" interposed Justice Darling.

These are just a few instances of Justice Darling's quips, but he does not have the field entirely to himself. Witnesses in many cases supply as sharp humor and their remarks are always recorded at length in the press. In the face of this opposition English vaudeville artists must despair.

HIT BY MOTOR CAR. MAN WILL NOT SUE

Lincoln, Neb., April 11.—"Resent not evil."

This saying, which Tolstol asserted was the epitome of Christian teaching was strikingly illustrated by Henry Fishbach, head of a Beatrice, Neb., commission house. Fishbach was struck down and seriously injured by Turner Teft, a young traveling salesman, who hit him at a street intersection in Norfolk while driving his car at a speed alleged to have been forty-six miles an hour. Teft goes on trial there soon on a charge of reckless driving.

Fishbach, while suffering intense pain from internal injuries in an Omaha hospital and with his right leg amputated as a result of the accident was visited by Teft. Teft expressed his sorrow for the accident. Fishbach did not rebuke him but said:

"You are a young man just starting out in life, while I have practically lived mine. If I should not recover you would be placed in a situation of trouble that will affect perhaps, all your future happiness. Only my recovery can save you from facing a criminal charge and I am determined to fight for my life for your sake."

Shortly afterward Fishbach became unconscious and for days hovered between life and death. He finally recovered and is now able to hobble around on crutches.

Fishbach has no intention of prosecuting Teft. He has completely forgiven the young man. He hopes however that this tragic experience will be a lesson to drivers generally who are tempted to drive too fast.

HAWAII IMPROVES ALLIGATOR PEARS

Honolulu, April 11.—The avocado or alligator pear, now listed on the menus of only a few of the exclusive big hotels in America, at prices which make it a distinct luxury, will become a far more common edible if a plan suggested by Willis T. Pope of the Federal Agricultural Station here is adopted. The Hawaiian soil and climate are especially suited to the growing of this fruit and in Honolulu good alligator pears can be obtained at all seasons at little more than 5 cents each. There has been no extensive growing of this crop here, however. All must be consumed locally because of the strict quarantine regulations enforced on the Pacific coast to keep out the dreaded fruit fly.

Pope declares that the Guatemala hard-shelled alligator pear is not only fruit fly proof but has so improved on the original stock since being brought to Hawaii that it is one of the richest of foods. Either New York or San Francisco alone, he says, would absorb all the yield of even 1,000 acres of the fruit. The fruit keeps perfectly for a month at normal temperatures and in cold storage, for three months, so that it might be sent via the Panama Canal to New York, where there is no quarantine.

Pope believes that there is room in Hawaii for 30,000 small farmers on lands which are not suitable for the raising of sugar and pineapples but which might be used in producing alligator pears and vegetables.

BOLD CHICAGO GIRLS FOILED IN 'HIKE' TO COAST

Los Angeles, April 11.—A story of three Chicago maidens, still in their teens, in that metropolis was a hum-drum, monotonous affair. The dances, other amusements, and even the well-groomed youngsters who had occasionally escorted these sophisticated young misses on frolicsome ventures in the bustling Illinois city ceased to interest them in the slightest degree.

The trio—Myrtle Kruger, Mary Baugh and Susie Ruis—were fast friends. They had lived in Chicago all their 18 years. Their venturesome souls sought excitement, and they decided to "chuck it all" and make a transcontinental hike to "Sunny" California.

Started With \$45 Fund
Pooling their finances, the girls' fund totaled \$45. According to Myrtle—or "Bob," as her companions refer to her—the adventuresses hiked south from Chicago their first three days on the road. Their wardrobe consisted of khaki shirts, tight fitting knickerbockers, canvas shoes and caps. They slept in haystacks, cowsheds or deserted buildings.

"Bob" further related that Mary, Susie and she decided that "hiking" was far too slow a mode of travel. On the fourth day of the hike the girls clamored aboard a freight train.

"A refrigerator car was our beauty parlor," Myrtle explained. "We were just a few miles distant from Kansas City when it was decided by my companions that my hair should be bobbed for safety's sake and they cut my hair."

Their Trip Intercepted
When the bold and beautiful maidens reached North Kansas City terminal authorities frustrated their plans for "excitement" and a hasty trip to the Pacific Coast. They were placed in the custody of a Y. W. C. A. matron.

Back in Chicago frantic parents were overjoyed when they received telegrams from the matron advising them of their children's whereabouts. Then it was but a short time until the matron received telegrams from Chicago, each of them contained instructions to care for their "wandering" child until someone arrived to see that the trio was returned to "dear" Chicago.

"Darn!" said "Bob."
"Gee, what somebody's always taking the joy out of life!" ruminated Mary.

"Yeh that's life," said Susie.

ENGLISH WOMEN TAKE UP ROWING

BY ETHEL MARSHALL.

London, April 11.—Before long England will have its varsity boat race for women to rival the annual Oxford-Cambridge race.

Women's rowing clubs are springing up everywhere in the neighborhood of London and in the riverside villages.

"There is no finer exercise for the average healthy girl, provided, of course that she doesn't overdo it," said Miss Radley, secretary of the Cecil Ladies' Rowing Club.

"Bracing as it is one need not be surprised to find that the doctors recommend rowing in the case of the girl who needs fairly vigorous exercise, though it is only the really strong girl who should go in for racing."

"We have several girls training for the musical profession who find that rowing is of great advantage to them, because it teaches them how to breathe properly. Proper breathing is as essential in rowing as in singing."

Despite Miss Radley's praise for rowing as womanly exercise there is severe criticism of the woman who takes up this form of sport from other quarters. Many doctors claim it is too strenuous for women.

The rowing costume which has been adopted has created a mild storm, too, though not as violent a storm as the attempt to introduce knickerbockers, such as worn in America, into the female golf costume.

The rowing costume of the Cecil Club is officially described as follows: "A pale blue sweater, navy blue shorts (running trunks), navy blue and cream blazer with blue edging."

RUM SERVED TARS FIGHTING BLIZZARD

London, April 11.—Humorists are how rum, served piping hot in pannikins, was an important item of refreshment to members of the crew of the British steamer Berenger during a terrific hurricane in the North Atlantic was told recently at the local harbor by Captain T. B. Donster, of the vessel. Captain Donster prefaced his remarks by an emphatic opinion that prohibition should have no place on sea-going ships.

"We were on our way from Newcastle, England," he said, "and ran into a terrific hurricane which swept our decks with heavy seas, washing away a lifeboat and the auxiliary steering gear on the poop deck."

The ventilating funnels were smashed, leaving water free to pour in through them in the crew's quarters engine room and threatening to sink the ship. A call was made for volunteers to rig up a line to the forward well and using that as a life-line the crew worked all day nailing planking over the opening off by the ventilators.

"It was bitter cold and the work of the men was continually being hampered by the heavy waves. Hot rum was served to them at short intervals to help fortify them against the weather."

INTERNAL SITUATION IN RUSSIA IS PUZZLING

With Premier Nikolai Lenin in a critical condition, unlikely ever to recover sufficiently to handle the reins of the Russian Soviet Government, the political situation there is puzzling. One report has it that Leon Trotsky, who used to edit a little revolutionary newspaper in New York

and who is now Minister of War, will assume a military dictatorship of the country, while another declares that M. Leo Kameneff, Lenin's right-hand man and President of the Council of Ministers, already has been selected to take over the government.

Reparation's Question Root of Europe's Trouble

Editor's Note:—This is the third of a series of analytical articles upon conditions in Europe, written after a tour of the continent when the situation was studied at first hand.

BY DAVID M. CHURCH.

London, April 11.—Money may not be the root of all European evils, but money is entwined around the root of the evils.

Europe's tranquility for many a long day is going to be disturbed by the question of money. The greatest single disturbing element in Europe today, at least upon the surface of things—is the question of reparations. But even if this question is settled satisfactorily to all concerned, the end of Europe's money evils will not be in sight.

The war debts are going to prove a considerable barrier to a return to normalcy for some time to come, perhaps until they are definitely settled—if they are ever settled.

It was recognition of this fact that was the biggest element in Britain's acceptance of America's debt funding terms.

British statesmen realized that there could be no smooth relations between the United States and Great Britain while debts remained unpaid; therefore the British government agreed to the American terms of payment of its debts—terms which the British did not want to accept and which they had hoped would be easier.

There are billions of dollars in war debts kicking around Europe, and until these debts are crossed off the books by payment or by agreed cancellations there will be constant bickerings between nations. Great Britain is the biggest creditor. Up to the present she has made no strenuous efforts to collect her debts, but she has dropped a gentle hint or two.

Britain may certainly be expected to make a vigorous demand for payment from France if the French realize their hopes in obtaining large sums of reparations through Ruhr occupation. If Great Britain makes such a demand the present indications are that the French answer will not be a soft one; at least, it will not be answer that will increase Anglo-French cordiality.

Another question fraught with possibilities is distribution of whatever proceeds may come from the Franco-Belgian venture in the Ruhr. Will all the allies share equally? If they do not, the resulting situation will be one demanding masterly diplomacy.

Up to the present, the unpaid creditors have restrained themselves admirably although there is no denying that policy has been influenced somewhat by the knowledge that certain debtors have made no effort to pay. How long this restraint will last is a question.

Debts are a thorn in the side of Europe while post war abnormality prevails, but debts will become a

bone of contention if pre war normalcy returns. Debts are not the only element in the money evil in Europe. There are involved questions of exchange and credits which must be worked out before the situation is once more labelled "normal."

HONOLULU MAY DECIDE WHEN CAMEL IS WILD

Honolulu, T. H., April 11.—When is a camel wild? That is the question which recently agitated officials here to the accompanying tune of \$250. It will have to be paid as a tax to the Federal government by the city and county of Honolulu if it is decided that the three "wild" animals which are subject of the tax controversy were domesticated until they came to Honolulu to appear in a Shiriners' parade and later, as gifts from the local temple, to grace the Zoo in Kapiolani Park. The same amount will have to be paid into the Federal Treasury through Harry E. Murray, Collector of Customs at this port, by Aloha Temple, of the Mystic Shrine, if it is proved that the three "ships of the desert" and proposed "new national pets, broken to labor and domesticated in their own country, were wild some time before leaving the scene of their domestication and coming to Honolulu.

WILD ONES UNTAXED
The watchful government distinguishes between wild and domestic animals when it comes to obtaining revenue from them. The wild ones get in free, but it costs the domesticated beasts 10 per cent of their valuation to leave their respective native habitats to be curiosities in the United States or its possessions.

Mayor Wilson, of Honolulu insists the animals are wild and as such are not subject to taxation. Inspector Murray, himself a prominent member of Aloha Temple—bearing in mind that, following the Shiriners' Parade the Mayor actually rode around town on one of the beasts in the triumphal procession to the Zoo, after the presentation of the animals to the city—insists they are domesticated.

NO COMMERCIAL AIM
Mayor Wilson addressed a letter to the Treasury Department calling attention to the fact that the animals are not here for any commercial purpose whatsoever. The Treasury Department replied that if the Mayor can prove that the animals were not domesticated before coming to Honolulu "the claim will be given due consideration."

The Mayor insists they were wild when they arrived and are still that way. In the meantime Honoluluans who preserved newspaper clippings of photographs of the city fathers—i. e. Supervisors and Aldermen—riding the aforesaid wild animals, are chuckling.

NEVER BEFORE GAVE MONEY A THOUGHT, SHE CONFESSES

Denver, April 11.—Margaret Tobin Brown—"the unsinkable Mrs. Brown"—as she is widely known—just cannot adjust her expenditures to court restraint and the curb placed upon her extravagant outlays is "extremely irksome," she complains.

Mrs. Brown, widow of the late Jas. J. Brown, reputed wealthy mining man of Colorado and Arizona, gained international fame as one of the great spenders of Newport, Paris and Riviera resorts.

Brown died without leaving a will, and, because of the objection of her two children—Lawrence P. Brown, of La Jolla California, and Mrs. Helen Brown Benziger of Hempstead, Long Island—to her appointment as sole administrator of the estate, she was made co-administrator with the public administrator of Denver.

Only a preliminary inventory of the estate has been made and under the Colorado law, Mrs. Brown has been allowed but \$2,000 in the last three months from the property. All her applications for funds are supervised and regulated by Judge George A. Luxford of the Denver County Court and Mrs. Brown, who has "never given money a thought" in her long social career is having considerable worry in maintaining her palatial suite, with a large retinue of servants, at a local hotel.

"Why," she says, "there is \$75,000 in cash right here in Denver banks, and I can't touch a cent of it without the Court's permission."

"There are many needs for money," Mrs. Brown says, enumerating an eloquent list, three tutors to enable her to keep up her Italian, French and German; a music teacher, several private waiters—not to mention the premiums on her \$750,000 life insurance.

Mrs. Brown has enlisted the aid of United States Senator Lawrence C. Phipps, of Colorado, in her aspirations to become a member of the United States embassy staff at the Court of St. James in London.

She has met in her 20 years of traveling, she says, all the important men and women of the world and feels that she would lend much dignity to the American embassy in London, if she were appointed as an under secretary.

"I can truly say," Mrs. Brown declared, "that I know everyone worth while from Moscow to the Bosphorus and from Washington to Tokio."

Mrs. Brown became known as "the unsinkable," when she survived the Titanic disaster, after heroically assisting in the rescue of women and children.

MAN'S TROUBLE ARRESTED

"The past 4 years I have been going down, down, down with catarrh of the stomach and had to give up work a year ago because of my weakened condition. I suffered terribly from bloating and colic attacks. May's Wonderful Remedy was recommended to me. I took a course of it and am now feeling fine." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

Sold by Sayre and Hemphill and druggists everywhere.

DURING FARMERS' BUSY SEASON

Partition Sale

At Court House, Xenia, Ohio, April 21, 1923 at 10 o'clock a. m. Kreppel home on 75 feet of tract heretofore brick residence and brick garage, lot fronts 152 feet on King Street and is 204 feet deep; a fine spring on premises.

TERMS: One third cash, one third in one year and one third in two years, deferred payments to be secured by first mortgage and bear interest at 7 per cent from date of sale. Purchaser may pay all cash, if desired. Appraised at \$11,000.00; must bring not less than 10% of the appraised amount from date of sale and be secured by a first mortgage on the real estate. See Morris Sharp, Sheriff. Miller and Finney. 4-9,10,11,16,17,18

Administrator's Sale

In pursuance of an order of the Probate Court of Greene County, Ohio, I will offer for sale at public auction on the 24th day of March 1923, at two o'clock p. m., on the premises located at No. 417 East Third Street in the City of Xenia, the following described real estate:

Situate in the County of Greene, State of Ohio, and in the City of Xenia, to-wit: Part of out lot No. 2, of said city, being a tract of land 5x160 feet, commencing at the corner of North Main Street as now established; thence E. along Third Street 75 feet; thence S. 160 feet parallel to Foley's east line; thence W. 75 feet to Foley's line; thence N. 160 feet to the place of beginning. Excepting however a strip of ground 15 feet in width from the west side of said original lot of 75 feet front and the full length of said lot including about 100 feet in the south alley the use of said alley is retained by said grantor in connection with their other lots on the west of the tract heretofore conveyed. Being the same premises conveyed by Peter Foley and Amy Foley, his wife, to Katherine Kelbie by deed dated March 29th, 1908, recorded in Vol. 103 page 447. Greene County Deeds Records. Excepting therefrom a tract conveyed by said Katherine Kelbie to H. B. Scott by deed dated Dec. 18th, 1908, recorded in Vol. 104 page 168, Greene County Deeds Records. Said property has been appraised at the sum of Thirty-five hundred Dollars and must sell for not less than two-thirds of its appraised value.

TERMS OF SALE: One-third cash one third in one year and one third in two years, deferred payments to bear interest at the rate of 7% per annum from date of sale and be secured by a first mortgage on the real estate, or all cash, if purchaser desires, the said premises being sold by deed in the estate of Katherine Kelbie.

AUGUST SCHLEICHER, Executor of the Estate of Katherine Kelbie, Deceased. MILLER & FINNEY, Attorneys at Law, Xenia, Ohio. 2-21,28,3-7,14,21.

MRS. CORA ILIFF CALLED BY DEATH

Mrs. Cora Ann Iliff, 85, died Tuesday evening at 7:40 o'clock, at the home of her son, George Iliff, at Clifton. She is survived by four daughters, Mrs. A. S. Bowen and Mrs. Sarah Wing, of Clifton; Mrs. Jessie Baker, Kansas; Mrs. George Iliff, Clifton, and a stepson, John Iliff, of the Knights of Pythias Home, Springfield. She also leaves 15 grandchildren, and 13 great-grandchildren.

Funeral arrangements have not been completed.

PARISIAN PLAYS TOO MILD FOR NEW YORK

Paris, April 11.—French plays are entirely too mild for New York, and do not provide even a thrill for the sophisticated American.

Avery Hopwood today denied that he intended taking back to New York the Parisian play, "What Did You Do That To Me For?" saying:

"Parisian plays are too mild. They are mid-Victorian in comparison with the New York plays. I can't get a kick out of a single revue now running in Paris."

TURKEYS TO BE USED TO ELIMINATE BUGS

Saskatoon, Sask., April 11.—Fire and poison having failed, turkeys are to be used this year to exterminate grasshoppers, the plague of the Western grain fields.

Herbert Dempsey of Young today announced his intention of breeding 2000 birds this season. He figures that his flock working 90 days should take a toll of 45,000,000 insects.

PENFIELD RESIGNED TO LONG TERM IN PRISON

Defaulting Cashier Draws Sentence of 21 Years at Atlanta

Cincinnati, O., April 11.—Twenty-one years in the United States prison at Atlanta, Ga., await Augustus H. Penfield, sentenced late yesterday after he had pleaded guilty of embezzlements totalling almost a million dollars, from the Springfield, (Ohio) National Bank.

Although the sentence, imposed by District Judge Smith Hickenlooper, after the former cashier testified before the Federal Grand Jury as to details of his ten years of fiscal juggling, was one of the most severe every pronounced "in the southern Ohio district, the prisoner appeared to accept it with relief and resignation.

Penfield could have been subjected to heavier penalties, as there were 12 counts against him and his plea covered the first seven, the others being duplicated in effect. After his arraignment yesterday, it was thought this sentence would be delayed for several days, and this was said to mean that he would be taken before the Grand Jury to expose his confederates, if any.

The cashier testified at length, but his statement failed to reveal anything that could be used against others, according to reports current after the secret session. Instead, his signed statement, given out in full, dwelt in exhaustive detail upon the methods whereby he "kept up the bluff" for a decade while sinking deeper and deeper into a debt that finally totalled \$977,233.50.

Penfield's statement, as made public, included a number of dashes and blanks at points whence officials had deleted the names of brokers stock salesmen and others through whom the embezzler dealt in his speculations in stocks and wheat. These deletions were made, it was said, to protect innocent persons from the effects of unjust inferences that might arise from publication. The manner in which Penfield received his sentence would have done credit to a veteran gambler of the old school. Not the slightest flinching, mental or physical did he betray. His eyes never flickered as he gazed at Judge Hickenlooper, his "poker face" registering merely expectant interest, and only a trace at that. When the judge finished, the banker bowed his head slightly in token of acquiescence, turned to Marshal Stanley Borthwick and followed him from the room.

Penfield's statement, signed after his appearance before the Grand Jury, paralleled in many ways the one made soon after his arrest at A.

B. Paris, of Cincinnati, the national bank examiner, who uncovered the shortage and closed the Springfield National March 8, the day Penfield tried to end his life by slashing his wrists. The statement made to Mr. Paris was made public last night.

Both confessions dwell on the methods used, but are complex, in terminology and convey little definite information to any save banking experts. These are, however, paragraphs that stand out eloquently in spite of their bluntness. One reads:

"If I had not followed the advice of Mr., of Columbus, I would have come out all right and would have had something left over. This man gives speculators good advice."

Another terse statement follows: "I don't know of anyone else having received any benefit from my manipulations. I never profited in any way."

SEEKS NEW DANCING RECORD
Cleveland, April 11.—After more than twenty hours continuous dancing, Miss Helene Mayer, department store clerk and her partner, Robert Williams, were apparently fresh and going strong at Conklin's Dancing Academy here today. They started dancing at 9:35 yesterday morning in an attempt to elude the record of 56 hours and two minutes established by Miss Alma Cummings of Texas, in New York Monday.

Coffee Stewed Prunes
The housekeeper who can make a light soufflé is never at a loss to know what to serve for a "company" luncheon or supper. Here are "just how" directions:

A Soufflé That Serves Four People: Make a thick white sauce as follows: Heat one cup of sweet milk in a small saucepan and, when scalding hot (do not let it boil), add to it three level tablespoons of flour which you have mixed to a paste with four tablespoons of cold water. Stir till the milk thickens, then add one-half teaspoon of salt and two level tablespoons of butter. Remove from fire and cool slightly. Then stir into the sauce the beaten yolks of three eggs.

Your next step is to measure out one cupful of any kind of vegetable. For instance, use one cupful of cooked, tender asparagus cut small, or one cup of the more solid parts of tomatoes cut small, or one cup of left-over mashed potato.

After adding this vegetable to the sauce, fold into it the stiffly beaten whites of three eggs. Then turn all into a buttered baking dish. The baking dish which I use for this recipe is a glass one which measures six inches across the bottom and has flaring sides so that the dish measures 7½ inches across the top. The sides are three inches high. Before you bake the soufflé it will fill a dish of this size only one-third full. But after baking, the soufflé will rise so that the dish is two-thirds full.

In baking, the dish containing the soufflé must stand in a pan of hot water. I use a round layer-cake pan filled as full as possible of hot water. Bake the soufflé for 40 minutes in a moderate oven. If you use a Fahrenheit oven thermometer, do not have the temperature of the oven above 400—it is better at 350. If you use a Centigrade thermometer, have your oven heat from 177 degrees to 204 degrees. Tomorrow—Have You Tried Graining Your Painted Floors?

WORN NERVES

Nervous troubles, with backaches, dizzy spells, queer pains and irregular kidneys, give reason to suspect kidney weakness and to try the remedy that has helped your neighbors. Ask your neighbor:

Mrs. Mary Mattox, 12 Leaman St., Xenia, says: "My kidneys became disordered and I suffered a great deal from pains in my back. My back seemed to throb and there was a steady ache across it just over my kidneys. My back was sore and lame and felt so knotted up at times I could hardly move. Sharp pains shot through my back when I stooped over and I was dizzy and nervous as well as tired and worn out. My bladder became inflamed and my condition became serious. Doan's Kidney Pills were highly praised so I got some at Sayre & Hemphill's Drug Store. A few boxes did excellent work for me. The troubles left and I again knew what good health meant."

60c. at all dealers Foster-Milburn Co., Mfrs., Buffalo, N. Y.

MR. GEORGE CROSS, Columbus, O.
Well-Known and Popular Mission Worker in Columbus, Pays Fine Tribute to Ka-di-ok.

Mr. George Cross, an old-time resident of Columbus, living at 1165 North Pearl Street, whose occupation is that of a carpenter, and who is well known to hundreds of people by reason of his activities in mission work, gratefully acknowledges the merits of Ka-di-ok. He says: "Ka-di-ok is a remedy of great merit and I am pleased to publicly acknowledge it, as it may influence others to try it who may be suffering as I did. I had stomach and kidney trouble for a long time—years, in fact—and I was in a very nervous condition; had no appetite and was very restless and sleepless at night. I had become very weak and barely had strength or ambition enough to get around and take care of things. I have taken a few bottles of Ka-di-ok and am now feeling fine. My appetite is very good and I sleep well; have no more pains in my back and have gained a great deal of strength. My experience with Ka-di-ok is very gratifying, indeed, and I shall always use it if I have any further sickness of this nature."

Ka-di-ok can be obtained at Sayre & Hemphill's Drug Store, Xenia.

SEEK TO CLASSIFY PICTURES SHOWN ON SCREEN FOR CHILDREN

"Moving pictures have undoubtedly come to stay. Under the present conditions and laws, they cannot be suppressed, consequently they should be controlled and used for the best that is possible."

The above statement was made by County Superintendent of Schools H. C. Aultman, when asked concerning his connection with the State Board of Film Censorship.

"The Board, now besides censoring pictures is endeavoring to classify them into groups suitable for the family, the High School and the children," Mr. Aultman continued. "This classification is forwarded over the state each week. Quite a few of the High Schools are availing themselves of the opportunity to have a movie presentation of the stories, literary and semi-historical, by having teachers personally conduct parties of students, to these portrayals."

"A number of very interesting shows have been put on at our local theaters," Mr. Aultman said. "Bookings show a number of interesting titles that might be given careful consideration."

Suggestions along the line of improvement in opportunities for the best use of film productions will be gladly received, according to Mr. Aultman and forwarded to those who have the responsibility for this feature of education.

DIES LATE TUESDAY

Mrs. Angelina Hunter died at the home of her son, Charles Hunter, at Columbus and Market Streets, Tuesday night at eight o'clock, death resulting from the infirmities of age. Several other children survive.

The body was taken in charge by a local undertaker and will be taken to Wilmington for burial. Mrs. Hunter was a former resident of Clinton County.

Do You Remember

Some Reminiscences of
Xenia's Past

When there was a flight of wide, wooden steps at the Pennsylvania Railroad crossing on South Detroit street near the Eavey Wholesale Grocery Company, where now there is only an inclined cement walk?

When Xenia's Police Department had a "Black Maria" and driver in which culprits were brought to the station house.

When practical jokers placed signs in the deep puddles in South Detroit Street, near Main long before the Street was paved?

When the "Star" nickelodeon operated a pioneer motion picture show on East Main Street in the room now occupied by the City Market Company?

SUSPECTS HELD.

Lima, O., April 11.—Five men and a woman are under arrest here on charges of robbery. Police are of the opinion that they are responsible for several burglaries here recently. Dynamite and other explosives were seized.

Napoleon's Watch Is Owned In New York

Miss Katherine Finn

Miss Katherine Finn, of New York, is shown here with a watch that belonged to Napoleon, which has been in her family for 100 years. It was presented by the Emperor to Miss Finn's great-grandfather, Henry Vogt, who saved the "Little Corporal" from serious injury and possible death when Napoleon's horse

APPEAL FOR AID IS GIVEN READY RESPONSE

"It pays to advertise," workers of the Social Service League often learn the truth of the saying, with incidents similar to that cited by Mrs. Carrie I. Robertson, Wednesday.

Last week Mrs. Robertson advertised for a washing machine for a woman with a large family, and received a double response, one machine being received from Yellow Springs, the owners paying the freight to this city. Both machines were given to women with large families, who were compelled to work for a living.

In answer to a request made by a woman with five children, three under four years of age, whose husband was killed in an accident, a short time ago, the league is making an appeal for a baby buggy. Anyone having a buggy to donate is asked to call league headquarters.

FARM BUREAU WILL GIVE OUT GARDEN SEEDS

Through Congressman Charles Brand of Urbana, the Greene County Farm Bureau, has received a large quantity of garden seeds, for distribution.

Those who desire the seeds are asked to call or write the Farm Bureau office, and the seeds will be mailed to them free of charge. The seeds are for residents of the entire county.

REPRISALS THREATENED.

Berlin, April 11.—The word "reprisals" was dropped spontaneously in German cabinet circles in connection with the arrest by the French of Secretary of State Hamm, who was taken from the train at Scharnhorst at the same time Hugo Stinnes was arrested. The latter was released later. Hamm was the official commissioner from Chancellor Cuno to represent the German government at the funeral of the 13 Krupp workers at Essen.

A PURITAN WIFE

By Jane Phelps

CHAPTER LXVI

Dick was planning to go to San Bernardino. Grace had declared she would wait no longer for the payment of their wages. Ann called Bessie. She said:

"Bessie, Dick and Grace are planning a day in town. Why can't you and Ned go, too? Take your car, and then we can all go. Can you arrange it?"

"You say Grace and Dick are going? She hasn't said a word about it."

"Yes, she won a silly wager, with him, and he has to take her in payment. And I thought—"

"Of course we'll go! It will do Ned and me both good. What time shall we come over?"

"Early. Dick is planning to start about 9 o'clock. You can bring Grace—and Bessie—I'd rather she and Dick would think it your idea."

"I understand. We'll be on hand a little before nine."

Ann said nothing to Dick until after dinner. Grace had been over for a little while in the afternoon, but had not remained when she found Ann helping Dick wrap young lemon trees.

Dick lighted his pipe and leaned back with a sigh of contentment. Then as he watched the smoke curl lazily toward the ceiling, he remarked:

"That's a good job done, Ann. It would have taken me almost twice as long but for your help."

"It was fun helping! And we're tired enough to sleep well. We will have to be up with the chickens to get ready to go—oh, Bess and Ned are going, too. They're going to take their car, and we'll all make a day of it."

"Fine and dandy! When did you hear?"

"This morning. She said it would do both her and Ned good to get away for the day. We can do a little shopping, then go to a movie or something."

Not a word about Grace! Ann felt a bit guilty that she had made it appear the suggestion came from Bessie. But she also felt that did he know it came from her he would at once fathom her design—her determination that Grace should not be alone with him. Grace was bound to suspect her anyway, but she cared nothing for that.

When Ned drove up in the morning, Grace at once jumped out of the car and ran to the flivver, and called: "You ride with Ned and Bess, Ann

I am going to break all the speed laws in California with this old flivver."

"The words were gay enough, but she looked anything but pleased, and whispered something to Dick, who was fussing with his engine."

"Be careful or you'll have another accident. You better drive your own tin Lizzie, Dick." Ned said.

"You shut up, Ned Prentice! Who asked you on this bat anyway? Ann I suppose!" with a malevolent glance in the latter's direction.

"Wrong this time! It was my own wife ordered me to come along. But why the question? Have we spoiled plans you and Dick have made? We can stay home—it isn't too late."

"It would take a cleaverer man than you are to spoil our plans—if we had made any," she saucily replied.

"She's trying not to show her chagrin," Ann thought. She had not been able to prevent Dick and Grace riding into town together, but after they arrived she would not leave them; and, if possible, she would manage to ride back with Dick.

"Hasn't Grace told you of her winning a wager from Dick?" Ann asked. "That he is paying it by taking her?"

"No; kept mighty quiet about it didn't you, Grace? Afraid we'd go, too, and spoil your fun? Don't you try to shake us. It can't be done!"

"Grace frowned, while Ann told Ned of the wager, stressing the fact that Grace had a toy for little Jack, and that he knew it."

"Any kid would have done the same," Ned answered, as he helped Ann into the car beside Bessie. "You go ahead, Grace. If you are going to burn up the road I prefer you go first."

"Dick always looks so odd when Grace drives," Ann said so he could hear. "He's so big to be sitting idle with a woman at the wheel."

"Leaves his arms free, eh, Grace?" Ned teased.

Dick flushed under his tan, but Grace only laughed as she started off, calling:

"Such us if you can!"

"I do hope they won't have an accident," Ann said, looking apprehensively after them.

"Don't worry," Ned replied; "Grace is a good driver, and it is morning, not dark like it was before. Just gossip with Bess and forget about them. We'll not let them get too far ahead."

Tomorrow—Dick Disappears

Don't make the mistake of
of thinking that your 12
year old boy

is not a judge of values.

A boy at that age went to a bank and asked to see the President—

"What do you want to see him for?" asked one of the clerks, and back came this reply, "If he looks honest to me I'm going to leave this dollar here."

We must look awfully honest to the boys and our suits must look like awfully real values for we have lots of little customers who buy their own suits with their own hard earned money—and many times they come without their mothers too.

Even a boy is safe here—the only advantage we take is to please him—body and bank-book.

Boys' Suits, with 2 pair Pants, \$12.50 to \$20
Single Pants Suits, \$10.00 to \$15
Boys' Spring Topcoats \$4.00 to \$7.50
